The OSU Graduate College - Developing the person, the scholar, and the professional...

Graduate education at Oklahoma State University (OSU) is organized around the scholarly pursuit of new knowledge, both through didactic instruction and independent and group research conducted utilizing the facilities and resources of a major research university. OSU's national and international reputation is grounded in the scholarly research and creative work performed by faculty and students under the auspices of OSU's graduate programs.

The first graduate degree was conferred by OSU in 1912, and the Graduate College was organized in 1929. OSU offers more than 200 graduate degree programs, and certificates, including several interdisciplinary and joint-degree programs.

1.0 Overview

1.1 Graduate Students.

Over 6,000 graduate students currently study at OSU. Part of OSU's mission as a Land Grant University is to serve the people of the region, the state, the nation, and the world by making a first-class education available to all. In response to the growing diversity and demographic changes in the state and in the nation, OSU is committed to preparing graduates to live and work in a culturally pluralistic world. The Graduate College is proud of the diversity of its graduate student population and of their contributions to both the generation and dissemination of new knowledge through their involvement in the University's research and instructional programs.

1.2 The Graduate College.

The Graduate College supervises all graduate work offered by OSU, including graduate degree programs at OSU—Stillwater, OSU—Tulsa, OSU Center for Health Sciences in Tulsa, and OSU College of Veterinary Medicine in Stillwater. Professional medical degrees offered through the College of Veterinary Medicine and the Center for Health Sciences in Tulsa are not under the Graduate College. The Graduate College sets standards for admission to graduate standing and recommends to the Board of Regents those students who have completed work required for earning graduate degrees.

In addition, the Graduate College, collaborating with partners campus-wide, offers a number of student services and professional preparation opportunities specifically designed for graduate student success while at OSU as well as after graduation. These activities in the *360° Critical Skills*

for Career Success in the Graduate Student Success center include a wide variety of content to prepare graduate students for career success.

1.3 Graduate College Memberships.

The Graduate College is a member of the Council of Graduate Schools (CGS), the Conference of Southern Graduate Schools (CSGS), and the Midwestern Association of Graduate Schools (MAGS).

1.4 Organization of the Graduate College.

Consistent with its objective of maintaining the highest standards in graduate education, the Graduate College administers the policies and procedures specified and established by the Graduate Faculty, Graduate Council, Board of Regents for the Oklahoma Agricultural and Mechanical Colleges, and the Oklahoma State Regents for Higher Education. The dean of the Graduate College is the senior administrator of the College as well as the dean for graduate students. The Graduate Council is the executive committee of the Graduate Faculty; it is elected by the Graduate Faculty to work with the dean of the Graduate College in the development and administration of applicable policy. The Graduate Council formulates and reviews policies concerning the conduct of graduate study at OSU. All proposed policies and requests related to the initiation and development of graduate curricular offerings and programs are referred to the Graduate Council for review, comment, and approval.

1.5 Accreditation.

OSU is accredited by the Higher Learning Commission (HLC). Several programs within the disciplinary colleges are also accredited by other agencies; see "Accreditation (p. 18)" in "The University (p. 18)" section of the Catalog.

1.6 General Regulation.

Full authority over all academic decisions within the Graduate College rests with the dean of the Graduate College. The Graduate College policies and procedures described in the Catalog are subject to regular review and may be revised at any time by the dean of the Graduate College in consultation with the Graduate Council.

1.7 Responsibilities.

All graduate students are expected to read and to comply with the written regulations of their graduate programs and disciplinary college, as well as the Graduate College and University. The regulations presented in the Catalog may be supplemented by written departmental or program requirements available at departmental offices and/or websites. Admission to a specific graduate program obligates the student to understand and adhere to the policies of that program.

General regulations in the following sections relate to requirements for admission, enrollment, and academic standing. Subsequent sections outline requirements for the following credentials: Graduate Certificate, Masters, Specialist, and Doctoral degrees. Particular attention should be given to timing and substantive requirements for matriculation, especially admission, the Plan of Study, residency, language proficiency, research, dissertation/thesis/creative component/report, and graduation. The regulations are prescribed by the Graduate Council with the intent of assuring high-quality graduate programs and effective interaction of Graduate Faculty members and graduate students.

1.8 Email as Official Correspondence.

OSU uses the institutional O-Key email address as an official means of communication with OSU faculty, staff, administrators, and students. All students have an official OSU email address that is activated when

they set up their O-Key account. Students are expected to activate and check their OSU email on a frequent and consistent basis to remain informed of their official University business and are expected to ensure that adequate email space is available to receive messages.

1.9 Tuition and Fees.

Refer to the "Tuition, Fees and Cost Estimates (p. 79)" section of the Catalog.

1.10 Exception Requests.

Any request for a waiver of, exception to, or deviation from, any requirement set forth in the "Graduate College" section of the Catalog must be in the form of a written petition to the dean of the Graduate College. Such petitions should include a supporting letter from the graduate faculty advisor and/or graduate program coordinator.

2.0 Services for Graduate Students

For a complete list of University services, please visit the "Current Student" link on the "Resources" menu on the Graduate College website (<http://gradcollege.okstate.edu>) or the "Student Life" link on the OSU website (<http://go.okstate.edu>).

2.1 Graduate and Professional Student Government Association.

The Graduate and Professional Student Government Association (GPSGA) is an official advisory body to the University President and dean of the Graduate College and serves as the representative voice for graduate and professional students at OSU. Its mission is to improve all aspects of post-graduate education and student life at OSU.

The Association represents each graduate and professional degree program. Representatives are nominated by the graduate programs with membership conferred by the GPSGA president. Each representative is appointed for a term of one year; a representative must be in good academic standing and enrolled full time.

The GPSGA provides funds for graduate and professional student organizations and in collaboration with the Graduate College, travel grants to help students defray costs incurred by attending and presenting at professional meetings. For more information consult gpsga.okstate.edu (<http://gpsga.okstate.edu>).

3.0 Funding Your Graduate Education

3.1 General Financial Aid.

One of the most common sources of funding for graduate students is graduate assistantships. Graduate teaching and research assistantships (GTAs/GRAs) support OSU's instructional and scholarly activities. Most academic programs routinely evaluate graduate admission applications not only for admission consideration but also for the possibility of assistantship offers. The graduate program makes assistantship offers. These awards assist students in paying for their graduate education and also offer opportunities to gain valuable skills and experience in their discipline and as a professional.

3.2 Office of the Bursar Payment Plan

OSU offers enrolled students a semester-based payment option, as an alternative to the traditional lump-sum payment method. This plan allows for university-billed expenses to be paid in regular monthly installment without a finance charges. The plan has a \$25 application fee and additional information can be found at <https://bursar.okstate.edu/>

[billing_payment-option-plan \(https://bursar.okstate.edu/payment-option-plan/\)](https://bursar.okstate.edu/payment-option-plan/).

3.3 Federal Financial Aid.

All domestic students who want to qualify for federal financial aid should complete the Free Application for Federal Student Aid (FAFSA). Students are encouraged to complete the FAFSA annually as soon after October 1 as possible to receive aid for the subsequent academic year. The FAFSA is available at www.studentaid.gov/h/apply-for-aid/fafsa.ed.gov (<https://studentaid.gov/h/apply-for-aid/fafsa>).

3.4 OSU Short-Term Emergency Loans.

In addition to potential federal loans that may be awarded, OSU assists students in need of immediate funds through the Short-Term Emergency Loan Program. This program is designed to help OSU students who are currently enrolled and attending classes to meet educationally-related off-campus unexpected expenses. The program is not designed to pay a debt owed to OSU. Qualified students may borrow up to \$500 less a \$10 service charge one time per semester. Additional information about the Short-Term Emergency Loan Program can be found at <https://financialaid.okstate.edu/aid/loans/stl>.

3.5 Graduate Assistantships.

OSU recognizes two types of graduate assistants for students enrolled in master's, specialist, and doctoral degree programs. Graduate certificate seeking only and non-degree seeking students are not eligible for GTA or GRA positions or associated benefits.

A Graduate Teaching Assistant (GTA) must be admitted to and meet the requirements of the Graduate College, be fully admitted to a graduate degree program, enrolled, and be under the supervision of an appropriate graduate faculty member. In consultation with the supervisor, the GTA works to gain instructional skills and an increased understanding of the discipline. The GTA is provided a stipend and their primary responsibilities are to support the University's instructional mission. Services provided by a GTA may include: classroom or laboratory teaching; advising and mentoring of students; proctoring examinations; grading papers, homework, and/or projects; accompanying/coaching musical or vocal performances; providing artistic instruction or assisting with preparation and management of materials and programs that are utilized in imparting knowledge or in the instructional process; or providing other general assistance in the instruction process. A GTA may be assigned primary responsibilities in an extension, outreach, or service role for which those responsibilities support the instructional mission of the University. GTAs may not be given duties to support faculty research or those primarily clerical in nature.

A Graduate Research Assistant (GRA) must be admitted to and meet the requirements of the Graduate College, be fully admitted to a graduate degree program, enrolled, and be under the supervision of an appropriate graduate faculty member. A GRA is provided a stipend and their primary responsibilities are to provide general support to the University's research mission. These responsibilities may or may not relate directly to the student's thesis or dissertation. Duties of the GRA primarily involve applying and mastering research concepts, practices, or methods of scholarship. Services provided by a GRA may include: assisting faculty members in a research or creative activity; performing degree-related professional or administrative services that supports research, instruction, professional development, or outreach missions of the University; developing and evaluating instructional materials or curricula; or assuming responsibility for designated scholarly endeavors.

Assistantship inquiries should be addressed to the unit head or graduate program coordinator of the unit/department/school/program in which the appointment is desired. The service expected is governed by the terms of the appointment.

3.6 Graduate Assistantship Responsibilities.

An offer of an assistantship is a commitment by a unit/department/school/program to provide financial support to admitted graduate students. Assistantships are an investment made by a unit/department/school/program and are granted primarily to enable the student to pursue an advanced degree and gain valuable experience. Accepting an assistantship brings with it a professional obligation to fulfill all of the responsibilities associated with the assistantship assignment. Included in this professional obligation is the expectation that students who have accepted an assistantship will diligently pursue their degree to completion. In recognition of this commitment and to provide adequate time for students holding assistantships to devote to study, employment as a graduate assistant is limited to a total, from all University sources (including external grants and contracts), of 0.50 FTE (an average of 20 hours per week) in the Fall and Spring semesters, and 0.75 FTE (an average of 30 hours per week) between the end of the Spring semester and the beginning of the Fall semester. Exceptions to this limitation may be requested by the employing unit or graduate program to the dean of the Graduate College.

A student with a 0.50 FTE assistantship is expected to devote, on average, 20 hours per week to their duties as a graduate teaching or research assistant; the remainder of academic effort is devoted to his or her own studies and research. The time devoted to the assistantship may vary from day to day and week to week as long as it does not exceed the average given above.

As part of a graduate student's educational experience, OSU makes a number of GRAs available on a routine basis. Graduate students on a GRA are expected to devote full-time effort to their graduate programs. While the GRA appointment provides a modest stipend for an average of 10 or 20 hours per week for a 0.25 or a 0.50 FTE assignment, respectively, in recognition of contributions to the OSU research enterprise, it does not indicate that no additional time and effort may be required of the graduate student who is actively pursuing a graduate research degree. Depending on the stage of the research project and the graduate student's advancement in the program, the student may be enrolled in research credit hours for academic credit or only enrolled in formal coursework. Irrespective of that enrollment, it is expected that the graduate student is working full-time toward completion of the advanced degree. OSU, like most institutions nationwide, does not define the research credit hour as equating to a specific amount of time and effort, as the nature of research is highly dependent on the individual's progress on the project. For instance, general OSU policy only requires a minimum enrollment in two credit hours when a graduate student is working on a research project and using OSU resources unless they are employed as a GTA/GRA.

In addition, all students holding a graduate assistantship are required to be full-time students - see "Enrollment Requirements" below. For fall and spring semesters, students employed 0.50 FTE must be enrolled in at least six credit hours to be considered full-time, while students employed less than 0.50 FTE must be enrolled in at least nine credit hours to be considered full-time. However, full-time enrollment for students admitted to doctoral candidacy is two credit hours. For the summer term, students employed at any level must be enrolled in at least two credit hours during any summer session to be considered full-time.

International students who are dependent upon an assistantship for their financial guarantee must remember that forfeiture of that assistantship may require the re-submission of a newly revised financial guarantee to the Office of International Students and Scholars. Students who forfeit their graduate assistantships risk rescission of tuition waivers, as well as any health insurance coverage for graduate assistants provided by the University.

Note that all graduate student benefit programs, such as tuition waivers, are only available to individuals with a primary classification as a graduate student enrolled in a degree program, which does not include certificate-seeking or non-degree seeking graduate students. OSU employees taking graduate classes do not qualify for graduate student benefit programs, irrespective of whether their employment is a benefit eligible position. One cannot selectively opt-out of certain benefits to seek eligibility for other benefits. Please contact the Graduate College or Human Resources if you have questions.

3.7 Graduate Assistantship General Benefits.

Graduate Teaching or Research Assistants employed at least 0.50 FTE in the fall/spring semester (average of 20 hours per week) are enrolled in a minimum of six (or two for doctoral candidates) eligible graduate hours will receive a tuition waiver (hours of enrollment must be required per the graduate degree program). GTAs and GRAs employed .50 FTE who are admitted solely into approved online graduate programs are eligible for an equivalent tuition waiver awarded for residential programs. International students enrolled in online graduate programs are not eligible for graduate assistantships. Summer tuition waivers for the same GTA or GRA for spring semester will apply during the summer regardless of summer employment. Tuition waivers cannot be applied to leveling, undergraduate, or some outreach type courses. Granting of these tuition waivers is also contingent upon the student submitting an electronic GTA/GRA (GSSI) tuition waiver agreement through the Graduate College website (<https://gradcollege.okstate.edu/resources/current-student-resources.html>), by the first day of the semester, in which they acknowledge their employment, enrollment, and good academic standing responsibilities. Once enrolled, good academic standing (i.e., not on academic notice – beyond conditional admission) is a requirement for OSU tuition waiver eligibility. For more information regarding tuition waiver benefits or academic standing, please visit the Graduate College website (gradcollege.okstate.edu (<http://gradcollege.okstate.edu>)).

Any graduate student employed as a GTA and/or a GRA less than 0.50 FTE total per week will not be eligible for any type of tuition waiver benefit.

3.7.1 Health Insurance Benefits.

Graduate Teaching or Research Assistants employed in a 0.25 FTE GTA/GRA position during the fall or spring semesters and who are enrolled in at least nine graduate credit hours throughout that entire semester are eligible for subsidized single-person-coverage health insurance through OSU for the fall (or spring) semester. Note: Spring semester eligibility coverage continues through the following summer regardless of employment or enrollment status.

Graduate Teaching or Research Assistants who are not eligible for health insurance coverage during the summer session by virtue of their eligibility during the previous spring semester but who are employed in a 0.25 FTE GTA/GRA position during the eight-week summer session and enrolled in at least two graduate credit hours are eligible for subsidized single-person-coverage health insurance through OSU for the summer term.

The University subsidizes the student's coverage on a semester-by-semester basis. Students receiving the GTA/GRA insurance are required to pay the semester health fee. Information on the policy is available at OSU Human Resources <http://hr.okstate.edu/student-health-plan>.

Eligible graduate students are automatically enrolled for the insurance coverage if they meet eligibility requirements. If students have other insurance coverage or choose not to be enrolled in the student health plan, they may complete a declination form to opt out. A declination form can be found at the following site <http://hr.okstate.edu/student-health-plan>. The form must be submitted by the deadline to OSU Human Resources, Benefits Office.

3.8 Health Insurance for International Students.

The Oklahoma State University Board of Regents requires that all visa-holding (i.e. non-immigrant) students at OSU be covered by health insurance. The OSU Student Insurance Policy is the recommended health insurance and will be billed to all non-immigrant student accounts automatically. Payment for the student insurance is included in the costs listed on the financial affidavit that international students are required to submit to receive a F-1 or J-1 visa.

The insurance premium can be waived for non-immigrant students sponsored by the United States Government, a foreign government recognized by the United States of America, or certain international, government sponsored or non-governmental organizations. Such waivers will be based on the government or organization guaranteeing payment of all health care expenses including evacuation and repatriation.

The insurance premium will also be waived for students who provide documented evidence of health insurance coverage by an employer. Non-immigrant students employed by OSU and eligible for both employer-provided insurance and international student health insurance may select between the two, as long as the insurance selected includes evacuation and repatriation coverage.

Students covered by a private medical insurance plan with benefits comparable to or better than the OSU plan, may request a waiver from OSU's international student health insurance requirement. Coverage must be for the first day of their first semester classes for a 12-month period.

To use alternate insurance, students must complete and submit a waiver request no later than the fifth day of classes. Waiver forms can be found on the International Students and Scholars (ISS) website at <http://iss.okstate.edu>.

Graduate Teaching or Research Assistants employed in a 0.25 FTE GTA/GRA position during the fall or spring semesters and who are enrolled in at least nine graduate credit hours throughout that entire semester are eligible for subsidized single-person-coverage health insurance through OSU for the fall (or spring) semester.

If a student holds an appointment as at least a 0.25 FTE OSU GTA or GRA position, OSU provides a subsidized, single-person student health insurance policy.

3.9 McNair Graduate Fellowships for former McNair Scholars.

Entering graduate students in residential degree programs who are graduates of a McNair Scholar Program as undergraduates may be eligible to become McNair Graduate Fellows. McNair Graduate Fellows receive a tuition waiver for all degree-eligible courses up to the number of hours in their degree program, irrespective of a qualifying

assistantship. Such tuition waivers cannot apply to leveling or outreach-exception type courses. The McNair Graduate Fellow Tuition Waiver Program is competitive and is not guaranteed, irrespective of the McNair application waiver received. Please contact the Graduate College (grad-i@okstate.edu (gradi@okstate.edu)) for more information as restrictions apply. Also, note that all graduate student benefit programs, such as the McNair Graduate Fellow Tuition Waiver Program, are only available to individuals with a primary classification as degree seeking graduate students. OSU employees taking graduate classes do not qualify for graduate student benefit programs, irrespective of whether their employment is a benefit eligible position. One cannot opt-out of certain benefits in an a-la-carte manner to seek eligibility for other benefits. Please contact the Graduate College or Human Resources with additional questions.

3.10 City Year National Service Scholars.

Oklahoma State University is proud to partner with City Year through our shared visions and values of integrating the power of knowledge and service in addressing social problems. The OSU Graduate College City Year National Service Scholars Program provides City Year Alumni an application fee waiver and a tuition waiver for all degree-eligible courses up to the number of hours in their degree program; however, acceptance as an OSU Graduate College City Year National Service Scholar is competitive and is not guaranteed. Please contact the Graduate College or grad-i@okstate.edu for specific requirements.

3.11 Spouse/Partner Tuition Waivers.

A spouse/partner of a graduate teaching or research assistant who is receiving a tuition waiver that is associated with an eligible assistantship is eligible to apply for a waiver of the non-resident portion of tuition for all graduate level/eligible courses taken. Tuition waivers cannot apply to leveling and certain outreach-type courses. Contact the Graduate College for details.

3.12 Student Employment.

Career Services provides assistance to OSU students seeking part-time employment or work study programs. Students are informed of job opportunities on campus and in the Stillwater community. Applications are available in room 360 Student Union. Jobs on campus usually offer 12 to 20 hours of work per week in clerical, technical, food service, or general labor positions. Rate of pay and work schedules vary.

Individual job search assistance is available with the graduate career consultant in the Student Union Career Services Office or with any of the college career consultants located in the respective disciplinary colleges. Services include resume and curriculum vitae development, written correspondence assistance, mock interviews and interview preparation, academic and non-academic job search assistance, workshops, and career fairs.

4.0 Admission to the Graduate College

Holders of baccalaureate or first professional degrees from accredited colleges and universities or those of recognized standing are eligible to seek admission to the Graduate College. Applicants must complete the web-based application and submit transcripts of all academic work and degrees received including any previous graduate coursework and degrees. No application for admission will be reviewed until the application fee is paid.

The prospective student should obtain transcripts for bachelor's degree(s) conferred or pending as well as for any graduate or

professional coursework and upload these transcripts as part of their application (some programs may require applicants to upload transcripts from all institutions previously attended). If an applicant is offered admission to graduate studies, they will be required to have official transcripts submitted to the Graduate College by October 1st for Fall and Summer admissions and by March 1st for Spring admission.

To be official, transcripts must be issued from the school and must show the complete scholastic record, bear the official seal of the institution, be signed by the issuing officer, and be in a sealed envelope, or electronically delivered directly from the issuing institution. All transcripts become the property of OSU and are not released or returned.

When the applicant's file is complete, the faculty in the graduate program of the student's area of interest reviews the material and recommends an admission status to the dean of the Graduate College. The final decision for admission to the Graduate College is made by the graduate dean based on the graduate program's recommendations, prior academic performance of the applicant, and availability of space, facilities, and faculty mentors in the program. Admission decisions may be rescinded for reasons including but not limited to: the discovery of fraudulent statements or documents in the application; official test scores that become invalidated by testing agencies; and/or conduct/communication deemed to be threatening, harassing, or otherwise unprofessional. Admissions decisions are not appealable.

4.1 OSU Faculty Members.

With the faculty member's employing dean's approval, along with the approval of the provost, a career-track, tenure-track, or tenured faculty member may pursue and be granted a graduate degree or graduate certificate from this institution if the requirements for that degree are met. Approval will be documented through a written memorandum from the academic dean to the graduate dean and the provost and a subsequent memorandum from the provost confirming approval. A tenure-track or tenured faculty member cannot seek a degree from their own employing department, division, or school in which the degree is to be granted. Faculty members pursuing a graduate degree or certificate shall complete all coursework, examinations, practica, and other program requirements outside of normal working hours and in a manner that does not interfere with the performance of their assigned duties and responsibilities. Participation in such programs shall not occur during time assigned to employment duties unless expressly authorized in writing by the academic dean and provost.

The head/chair or designee of the unit responsible for the degree pursued may prohibit any faculty member from serving as a committee member for the person pursuing the degree if, in the sole opinion of that head/chair or designee, that committee member would have a conflict of interest.

4.2 Types of Admission.

Admission to a graduate program at OSU is based on an evaluation of an applicant's overall record, experience, personal qualifications, proposed area of study, and fit with the graduate program. For admission without qualification, a GPA of at least 3.00 on a 4.00 scale or the equivalent is expected in undergraduate coursework or a 3.00 in any graduate or professional coursework already completed. Graduate programs are encouraged to evaluate applications holistically and may petition the Graduate College on behalf of an applicant for an exception to the cumulative GPA requirement. Academic programs may set more stringent admission requirements. Please check with the graduate program to

which you are applying in order to determine any program specific requirements.

4.2.1 Admission Without Qualification.

Students planning to work toward a graduate degree in a recognized graduate program may be admissible without qualification - meaning they are in good standing - provided they meet all Graduate College and graduate program requirements.

4.2.2 Admission With Qualification.

Students planning to work toward a graduate degree in a recognized graduate program may be admissible with qualification - meaning subject to certain requirements - in order to attain good standing. A student can be offered provisional admission upon recommendation of the graduate program and with concurrence by the dean of the Graduate College. Admission with provisional status is granted to an applicant who does not meet one or more of the graduate program's admission requirements or when the applicant does not have all of the previous coursework. In this case, the graduate program requires specific provisions be met for admission in good standing. For example, a graduate program may require additional leveling coursework or higher test scores. The first obligation of a student admitted provisionally is to successfully meet all the provisions specified at the time of admission. Failure to meet these provisions could result in the dismissal from the program.

4.2.3 Admission With Academic Notice.

A student can be admitted with academic notice upon recommendation of the graduate program with concurrence by the dean of the Graduate College. Admission on academic notice is granted to an applicant who has deficiencies in previous academic coursework. A student admitted on academic notice must make at least a 3.00 GPA through the semester in which they complete nine hours of courses eligible for graduate credit. Upon successful fulfillment of these requirements the student will be granted good academic standing. Failure to meet the required level of academic performance while in probationary status may result in dismissal by the graduate program and/or Graduate College.

4.2.4 Conditional Admission.

Several graduate programs at OSU will consider an applicant for conditional admission. An applicant can be admitted conditionally upon recommendation of the graduate program and with concurrence by the dean of the Graduate College. Conditional admission means that the applicant is academically qualified for admission to the graduate degree program but lacks a minimum English proficiency test score which satisfies the University's or graduate program's minimum (see "4.4 International Student Admission" for minimum requirements).

4.3 Non-Degree Seeking Student Status.

An applicant may be admitted to the Graduate College as a non-degree seeking student if they do not have immediate plans to become a degree candidate but wants to take graduate courses. Admission to the Graduate College as a non-degree seeking student means only that the student will be permitted to enroll in courses through the Graduate College. It does not imply that the student has been or will be admitted to a graduate program leading to an advanced degree or that the student will be able to obtain a graduate degree from OSU. Non-degree seeking students are not eligible for GTA or GRA positions or associated tuition waiver benefits.

4.3.1 Non-Degree Seeking Student Status Requirements.

Non-degree seeking students are subject to the same admission standards as degree-seeking students, including English language proficiency. Applicants for non-degree seeking student status are not

automatically admitted without due deliberation of their past academic performance. A non-degree seeking applicant can be considered for admission "Without Qualification" provided their overall GPA is 3.00 or higher for all courses on their bachelor's degree transcript and/or transcripts from their graduate or professional coursework. An applicant whose GPA does not meet these criteria can be considered for admission after consultation and recommendation of the Graduate College's non-degree seeking student advisor who may consider additional factors in making a decision, such as the following:

- length of time since last attendance at an institution of higher learning,
- a written appeal from the applicant explaining exceptional circumstances that warrant admission, and/or
- a letter of recommendation written by faculty who can speak to the applicant's potential for graduate work.

The prospective student is responsible for filing a new application for admission to the Graduate College should they wish to become a degree-seeking candidate. The new application will be evaluated by the graduate program and the dean of the Graduate College to ascertain admissibility to the degree program.

Given that non-degree seeking coursework is not guided by a Plan of Study or approved by an advisor, no more than nine semester credit hours of coursework taken while a non-degree seeking student may be used on a Plan of Study to meet requirements for a graduate degree (including a graduate certificate) program. In addition, only three semester credit hours of coursework taken while a non-degree seeking student may be used on a Plan of Study toward an MBA degree. Non-degree seeking students may not enroll in more than nine hours of courses eligible for graduate credit without permission of the dean of the Graduate College. To ensure that non-degree seeking students do not inadvertently exceed this limitation, an enrollment hold will be placed on each student's record in this status after the student has registered for six or more credit hours. This hold may be removed by the Graduate College (see below) once the student has formally re-acknowledged this nine-hour limitation.

Non-degree seeking students are subject to the same academic regulations as those graduate students admitted into degree programs. Such students are strongly encouraged to consult with the instructor of any course in which they intend to enroll in order to ensure they are adequately prepared for that course.

Non-degree seeking students may not enroll in thesis (5000) or dissertation (6000) courses.

Generally, International students with an F-1 visa, except students on Optional Practical training (OPT) or Curricular Practical training (CPT), may not be admitted or enroll as non-degree seeking students.

Academic advising for non-degree seeking student is provided by an advisor in the Graduate College. Students should contact the Graduate College at 405-744-6368 or grad-academics@okstate.edu for details.

4.4 International Student Admission.

International applicants are expected to submit applications, financial affidavits, transcripts and/or mark sheets, and, if required, official scores from an English proficiency examination. Completed applications and program recommendations for international applicants are due no later than February 1 for summer enrollment; May 1 for fall enrollment; and October 1 for spring enrollment. Applications that become complete after these deadline dates may be reviewed, but the Graduate College cannot

guarantee application processing and an admissions decision be made in time. In these cases, applicants may request admission deferral.

4.4.1 English Proficiency.

As a condition of admission to graduate study at OSU, all persons for whom English is a second language are required to present proof of English competency regardless of the number of semesters or terms completed at OSU or in other institutions of higher education. A waiver of this requirement can be obtained for students who have completed a baccalaureate or graduate degree from an accredited institution of higher learning, at which English is the primary language of instruction, located in a country in which English is a recognized primary language. Note, that additional testing on-campus may be still necessary if employment as a graduate teaching assistant is desired. Graduate programs may have additional requirements.

Proof of English competency can be in the form of an official examination that must have been completed within the last two years.

Applicants who present a TOEFL score of at least 79 iBT (or 4.0 on the new scoring scale effective 21 January 2026)/550 PBT, a PTE academic test score of at least 53, an IELTS academic stream score of at least 6.5 or a DET score of at least 115 satisfy the Graduate College's English proficiency requirements for admission to a graduate program. Note that some graduate programs require an English proficiency score or other tests above these levels, and applicants should contact the program for specific language requirements.

4.4.2 Spoken English Proficiency for Employment.

OSU policy requires all persons for whom English is a second language to demonstrate an acceptable level of spoken English before being employed in an instructional capacity, including laboratory assignments. Graduate students who serve only as laboratory assistants (e.g., setting up and/or maintaining equipment) or graders are not required to comply with these provisions. Any new international teaching assistant (ITA) who was required to present results of an approved English proficiency exam for admission is required to have a qualifying score of 26 or greater on the speaking portion of the iBT (or 5.5 or higher on the new scoring scale effective 21 January 2026); a qualifying score of 8.5 or greater on the speaking portion of the IELTS academic test; or, pass the ITA Exam prior to being approved for instructional assignments. All new ITAs are also required to participate in the international teaching assistant orientation. Any new ITA who submits a PTE or DET is required to pass the ITA Exam prior to being approved for instructional assignments. See <https://gradcollege.okstate.edu/prospective-students/ita-exam-overview/index.html> (<https://gradcollege.okstate.edu/prospective-students/international-teaching-assistant-test.html>) for specific policy requirements.

5.0 Transfer of Graduate Credits

Transfer credit for "non-aged" courses must be recommended by the graduate student's advisory committee through the submission of a Plan of Study, which requires approval by the dean of the Graduate College. See Section 7.0 for additional information on coursework time limits.

Transfer credit will only be considered if it was earned when the student was post-baccalaureate (i.e., after earning a bachelor's degree) at an accredited institution and the applicable course(s) was/were certified as graduate credit by that institution. All courses used as transfer credit must have a grade of "B" or better. Requests for transfer credit must include an official transcript.

Transfer of credits from medical professional programs (e.g., DO, DVM and MD) to graduate degrees may also be considered when a student was admitted to a medical professional program at an accredited institution and the applicable courses were certified for enrollment restricted to professional-level study. All courses used as transfer credit must have a grade of "B" or better or a grade of "pass" for those institutions which only offer professional courses as a "pass/fail" grading system. An official transcript must be submitted to the Graduate College in order to receive approval for transfer credit on the plan of study.

Up to three hours of transfer credit may be used toward an OSU graduate certificate and up to 30 percent of the credits for an OSU master's degree (e.g. 9 credits for a 30-credit master's degree) may be transfer credit. A doctoral student may transfer more than 30 percent if they have completed a master's degree and if the courses are approved by their advisory committee. Doctoral students must include a minimum of 30 hours of OSU credit on their Plan of Study. Grades earned in courses transferred to Oklahoma State University will not be used in calculating the cumulative GPA.

Also, see **Section 11.2** for the number of times a course can be used in multiple degree Plans of Study.

6.0 Enrollment Policies

6.1 Initial and Continuous Enrollment Policy.

A prospective student must enroll in courses at OSU within the time frame specified in the admission letter to retain active status. A prospective student who does not conform to these conditions must reapply for admission.

Any student who interrupts enrollment for one year (i.e., a consecutive period of one fall semester plus one spring semester plus one summer term) must re-apply for admission and will be subject to the regulations in effect at the time of reapplication. See section 6.5 below for additional doctoral candidacy enrollment requirements.

6.2 Full-Time Enrollment.

To be considered enrolled full time, a graduate student must be enrolled in at least nine hours in either fall or spring semester and at least three hours during the summer sessions. Full-time enrollment for Graduate Teaching/Research Associate/Assistants (GTAs/GRAs) with a 0.50 FTE appointment is at least six hours in the fall and spring semesters and at least two hours during a summer session.

6.3 Minimum and Maximum Enrollment.

Students are required to be enrolled in at least two credit hours in each semester in which they are using University resources (e.g., physical - laboratory, studios; electronic - library holdings; computing; human - faculty, staff). Students holding graduate assistantships should note that additional requirements apply (see below). Regardless of the number of hours taken, a student may not enroll in more than 12 (16 for the Spears School of Business graduate programs; 24 for the Physician Assistant Studies program; 18 for the Global Health and Health Care Administration programs, 15 per eight week session for the Forensic Sciences programs, and 13 in the spring semester for the Athletic Training program) credit hours in the fall or spring semester without permission of the dean of the Graduate College. During the summer session, a student may not enroll in more than nine (15 for the Physician Assistant Studies program) credit hours taken in any session during the eight-week summer period. No more than three credit hours can be taken during the first summer session (intersession). Summer intersession is defined as any course

that begins after the end of the spring semester and ends prior to the beginning of the eight-week summer session. For any short course session less than eight weeks in length, enrollment shall not exceed one credit hour for each week.

International students on F-1 or J-1 visas must maintain full-time status (as defined above) during the first semester of enrollment, and during each fall and spring semester thereafter.

Also, see **Section 11.2** for the number of times a course can be used in multiple degree Plans of Study.

6.4 Graduating Semester Enrollment.

Degree-seeking graduate students must be enrolled in at least two credit hours of courses eligible for graduate credit during their graduating semester (defined as the semester in which they satisfactorily complete all degree requirements). However, a student would not need to be enrolled during their graduating semester if they meet all of the following conditions:

1. has been assigned an "Incomplete" (grade of I) in a non-research or creative component course;
2. the course is required for graduation; and,
3. the course in which the incomplete was received is the only graduation requirement left to fulfill.

Students must enroll in research, thesis, or dissertation hours, as appropriate, during each semester in which they are involved in research leading to a thesis or dissertation, irrespective of the number of credit hours of such courses either required or permitted for the degree.

6.5 Doctoral Candidacy Enrollment Requirements.

Doctoral students who have completed the requirements for admission to doctoral candidacy and had their "Admission to Doctoral Candidacy" form approved by the dean of the Graduate College may enroll in a minimum of at least two credit hours during any term and be considered full-time. This post-candidacy reduced enrollment option applies to all qualified graduate students, including GTAs, GRAs, international students, and veterans receiving VA benefits. A student is normally expected to primarily enroll in research hours or in program-approved courses after being admitted to doctoral candidacy.

Continuous enrollment post-candidacy is required of all students. Enrollment of a minimum of at least two credits per semester is required for every semester of a student's candidacy (summer session excluded, unless utilizing university resources) until graduation. It is ultimately the responsibility of each student to ensure that they meet this enrollment requirement. Students who are not able to maintain active status are strongly encouraged to consult with their program, advisor, and the Graduate College to determine whether requesting a Leave of Absence (LOA) is the most appropriate course of action.

6.6 Reinstatement Fee.

Post-candidacy students who do not maintain continuous enrollment will be assessed a reinstatement fee based upon their residency status at the time of last enrollment as follows:

- Resident: \$750/semester (summer session excluded) of non-enrollment
- Nonresident: \$1,900/semester (summer session excluded) of non-enrollment

In addition to the reinstatement fee, students whose continuous enrollment disruption exceeds one academic year also must apply for readmission to the graduate program (see Enrollment).

During the readmission process, previous coursework will be evaluated for applicability in accordance with coursework (10 years) and time-to-degree (9 years) time limits (see Time to Degree Requirements).

Notification of the conditions of readmission and reinstatement will be provided if an acceptance occurs. New program requirements may apply based on the aforementioned enrollment policy. Please note that reinstatement and readmission are not guaranteed and significant challenges may occur that hinder a student's ability to complete a degree after a lapse in enrollment, such as the reapplication process (e.g., new letters of recommendation and unexpired standardized test scores); availability of the same graduate advisor, project and/or grant support; and new/revised program requirements, and/or core courses for degree.

6.7 Enrollment and Financial Assistance.

For the purpose of receiving monetary assistance through the Office of Scholarships and Financial Aid, the amount of the award is related to the total number of enrolled credit hours that apply toward the degree (for graduate students, such courses must be offered for graduate credit), such as 5000 and 6000 level courses. OSU graduate certificate and master's, specialist, and doctoral degree programs are federal aid-eligible programs, depending on a person's personal circumstances.

In general, a graduate student must be enrolled in four hours of courses eligible for graduate credit each fall and spring semester, and two hours of courses eligible for graduate credit in the summer term, to be eligible for federal financial aid. Some students may be required to enroll in more hours in the fall or spring or summer to receive the full amount of federal financial aid. Students should verify with their financial aid advisor in the OSU Office of Scholarship and Financial Aid about the number of hours they are required to take. Certifiable enrollment status, based upon a combination of enrollment and employment, only assists with the deferral of loan repayments, never qualification for aid, which is based solely on enrollment.

6.8 Enrollment as a Non-Degree Seeking or Degree-Seeking Graduate Student.

Students with a bachelor's degree are expected to enroll in the Graduate College unless they want to obtain another bachelor's degree. If they enroll as an undergraduate student, the courses taken cannot be given graduate credit at a later date.

6.9 Graduate Student Enrollment in Undergraduate Courses.

Students admitted to the Graduate College may enroll in, or audit, undergraduate courses or course sections that do not carry graduate credit if approved to do so by their graduate faculty advisor. Such courses cannot subsequently be used as part of a graduate Plan of Study and are not generally covered by graduate tuition waiver programs.

6.10 Undergraduate Student Enrollment in Graduate Courses.

An OSU undergraduate senior may take a limited number of courses for graduate credit toward an OSU degree program. Undergraduates admitted to an approved OSU accelerated master's degree program may utilize some of these credits for both a baccalaureate degree and graduate degree as outlined in section 11.16 of the Graduate College

section of the University Catalog. All other undergraduates are subject to the graduate credit rules below.

The credits may not be utilized for both a baccalaureate degree and a graduate degree. The courses in question must be approved for graduate credit (as listed in the Course Catalog). The applicability of such graduate courses to a specific graduate program will be determined by the student's graduate advisory committee when the student enrolls in the Graduate College and submits a Plan of Study for an advanced degree.

To receive graduate credit for hours taken when not admitted to an approved OSU accelerated master's degree program, a Graduate Credit for Seniors form must be completed by the student to receive graduate credit for courses taken. This form must be submitted prior to the end of the second week of class instruction of a regular semester, or the first week of a regular summer session. The required form is available on the Registrar's website or upon request to grad-i@okstate.edu.

Such credit may be earned only if the following conditions are satisfied at the time of application:

1. Students must have a minimum overall (cumulative graduation/retention) undergraduate GPA of 3.00.
2. The total semester enrollment must not exceed 18 credit hours for a regular semester or nine credit hours for a summer session.
3. The student must be within 12 semester credit hours of completing requirements for the baccalaureate degree at the beginning of the semester or summer session in which courses are taken for graduate credit.
4. Admission to courses taken for graduate credit must have approval of the course instructor, the dean of the disciplinary college associated with the student's major, and the dean of the Graduate College.

No more than 9 semester credit hours taken while a senior may be approved for graduate credit. The student must earn a grade of "B" or higher in those courses for which he or she seeks graduate credit. Students are cautioned that institutions other than OSU may or may not allow courses taken for graduate credit during the senior year to be transferred into one of their graduate degree programs.

7.0 Time to Degree

Graduate College matriculation starts when a student first enrolls as an admitted, degree-seeking graduate student. That date will be used in calculating time limits for degree completion.

Students are expected to complete the degree requirements from first enrollment after admission within the following time limits: seven years for a graduate certificate degree program, seven years for a master's or specialist degree program, and nine years for a doctoral degree program. After that time, a student must submit a written petition to the Graduate College requesting an extension of time-to-degree limits. Credit for all courses on a graduate Plan of Study must have been awarded within ten years of completion of all degree requirements. Any exception to these time limits must be approved by the dean of the Graduate College.

7.1 Leave of Absence.

OSU graduate students are expected to maintain active status through continuous enrollment from the time they matriculate until they graduate. Students who are not able to maintain active status are strongly encouraged to consult with their program, advisor, and Graduate College to determine whether requesting a Leave of Absence (LOA) is the most

appropriate course of action. International students must consult with the International Students and Scholars (ISS) office to ensure compliance with Federal immigration policy. Example situations that may lead a student to explore a Leave of Absence request are medical, personal, and employment (see below for students seeking a leave of absence for military service). Students who do not have an approved leave of absence and are not continuously enrolled may experience negative consequences related to academic, visa, financial aid, and other student issues – see University policies and guidelines for additional information. A student status of “good standing” (academic and conduct) is generally required for a Leave of Absence. However, students placed on academic probation one semester prior to the semester that the LOA is requested to begin are eligible. Additionally, those students placed on academic probation in an earlier semester and remain on academic probation, but whose academic performance has consistently improved since the onset semester of probationary status, are eligible. Please see <https://gradcollege.okstate.edu/resources/current-student-resources.html> for additional Leave of Absence information.

Students who are members of the Armed Forces (including reserve components) who receive orders to perform a period of service should refer to OSU Leave of Absence for Military Service regulations.

8.0 Enrollment Procedure

Students are strongly encouraged to review the course offerings for the upcoming semester prior to attempting to enroll. For more information about enrollment and classes go to <http://my.okstate.edu>.

First semester graduate students must first obtain their advisor's clearance prior to enrolling.

Non-degree seeking students may be granted enrollment clearance through the Graduate College. Non-degree seeking students will be provided assistance with selecting coursework, issues surrounding the transferability of special student credits, applying to degree-seeking programs, and other academic topics.

If the student has not completed a Plan of Study or if this is the first semester as a graduate student, the student should consult with the graduate faculty advisor. The graduate faculty advisor can provide information about required courses, course sequencing, and other information in order to select appropriate courses. The advisor should give approval for course selections prior to enrollment.

If a Plan of Study has been completed, the student should verify that all planned courses are listed on the Plan of Study. Students should consult with their advisor any time they deviate from courses listed on the Plan of Study. The ultimate responsibility for completing degree requirements rests with the student.

Students who have active academic, financial, transcript or advising holds must clear these holds prior to attempting to enroll. Students can view any holds by logging into the Self Service portal at <http://my.okstate.edu>.

8.1 Last Day to Enroll.

Information regarding dates to enroll, when courses begin, and last days to drop are listed in the Class Schedule available at the Office of the Registrar's website at <http://registrar.okstate.edu>.

Generally, the sixth class day of a regular semester or the third class day of an eight-week session is the last day a course may be added

(nonrestrictive) via the student enrollment system. A short course may be added no later than the first day of the short course.

8.2 Late Enrollment.

Graduate students should enroll prior to the end of the official enrollment deadline for the semester. If they do not, there are limited options to enroll in classes. The options available to the student depend on the number of weeks past the deadline and the student's current enrollment status.

During the second week of fall/spring or first week of an eight-week session:

- If a student wishes to add course hours or is not currently enrolled, they must submit a drop/add card signed by their advisor giving permission to enroll.
- If the student is adding a course they must have the instructor's signature on the add/drop card.
- If a student is non-degree seeking, they must have the signature of the dean of the Graduate College and the instructor of the course in which they wish to enroll.

After the second week of fall/spring or first week of an eight-week session graduate students may add any course which has not started.

After the Late Enrollment (restrictive deadline) period, due to special circumstances and under certain conditions, students may complete the Petition to Add a Course After the Restrictive Deadline (<https://registrar.okstate.edu/site-files/documents/petition-to-add-course-after-restrictive-deadline.pdf>) form to add a course. Submitting the petition does not guarantee approval of the request.

8.3 Other Enrollment.

In order to enroll in a given semester, a student must have received grades for at least six semester credit hours (including "I" and "R" and excluding "W") in the 12 months prior to the beginning of that semester.

9.0 Online and Outreach Courses

Courses offered online are considered equivalent to courses offered through traditional formats. However, some online courses classified as outreach may not be eligible for tuition waivers. Check with the Graduate College for eligibility before enrolling. Any student wishing to enroll in a graduate credit course offered online or through outreach must apply for admission to the Graduate College at OSU. Some limitations apply to International students on F-1 or J-1 visas and students on spousal/partner waivers (see Section 3.11).

10.0 Individual Study Credit (formerly Correspondence Education)

OSU does not offer graduate-level courses by individual study (formerly correspondence education) and does not accept credit taken by individual study toward an advanced degree. Graduate students may enroll in individual study courses; however, such courses will not be considered as part of minimum graduate degree or certificate requirements. Tuition waiver programs are not applicable to courses taken through individual study. Courses taken through individual study do not count toward minimum enrollment requirements for any graduate student.

11.0 Academic Regulations

Also refer to "University Academic Regulations (p. 1038)" section in the Catalog.

11.1 Graduate Credit Courses.

Courses numbered 5000 and above are for graduate students. Seniors who have obtained prior approval from the Graduate College may enroll in graduate level courses in accordance with the provisions of "Enrollment" stated earlier.

11.2 Number of Times a Course Can be Used to Earn Multiple Degrees.

Typically, a graduate course can be used in more than one certificate or degree. For example, a student may initially earn a graduate certificate and later use the certificate coursework to earn a master's degree. Similarly, coursework from a master's degree may also be applied toward a doctoral degree. In both cases, the course credit has been used twice in earning the two graduate credentials – the certificate and the master's degree and a master's and a doctoral degree, respectively.

With approved Plans of Study, graduate courses can be used to earn no more than three degrees, (degrees include undergraduate and graduate certificates). This applies to both OSU courses and courses approved for transfer credit. This policy does not refer to the use of research credits, which cannot be used for multiple degrees.

11.3 Grades for Thesis (5000) and Dissertation (6000).

The grade of "SR," indicating satisfactory research progress, "UR" indicating unsatisfactory progress, or "IUR" indicating an incomplete (see section 6.2 "Grade Interpretation" in the "University Academic Regulations" chapter of the Catalog) will be assigned to thesis (5000) and dissertation (6000) courses at the end of the semester in which the course is taken. These grades are permanent and have no impact on a student's grade point average, but affect the graduate student's academic standing. Only courses in which a grade of "SR" (or a previously-awarded grade of "R," "A," "B," or "C") is earned may be used toward minimum degree requirements.

11.4 Grades for Creative Component Courses.

The "R" grade can be assigned in a course identified as a creative component portion of a master's degree by a graduate program. The grade of "R" may be assigned if more than one semester is required to complete the creative component. Upon completion of the creative component, the advisor submits a Change of Grade form to have the final grade entered.

11.5 Pass-No Pass Grading System.

Graduate students may take a course utilizing the Pass-No Pass grading system with the consent of their faculty advisors, but courses taken under this system cannot be used on a Plan of Study to meet graduate degree requirements. A student who chooses the pass-no pass option must do so by the last date on which a course may be added. See section 6.6 "Grades and Grading" in the "University Academic Regulations (p. 1038)" chapter of the Catalog.

11.6 Pass-Fail Grading System.

Graduate students may take courses utilizing the Pass-Fail grading with the consent of their faculty advisors; however, only a limited number of these hours can be used on a Plan of Study to meet graduate degree requirements, and these require advance permission of the dean of the

Graduate College. Pass-Fail courses are typically internship, practicum, clinicals, seminar, special problems, and student teaching. See section 6.7 "Grades and Grading" in the "University Academic Regulations (p. 1038)" chapter of the Catalog.

11.7 Minimum Grade Requirements.

A grade-point average of "B" (3.00) is required to maintain good standing as a graduate student and meet requirements for a degree. No course with a grade of "D" or "F" can be used on the Plan of Study to satisfy the degree course requirements. At the graduate level, a grade of a "D" or "F" is a failing grade that can result in dismissal by the dean of the Graduate College, regardless of academic standing. To receive a graduate degree, a student must have a minimum 3.00 GPA in the coursework taken for graduate credit.

No course with a grade below "C" can be used as part of the minimum number of semester credit hours required for the graduate degree.

Some programs have more stringent requirements. The graduate program should be consulted concerning minimum grade requirements.

11.8 Graduate Course Repeat Policy.

With approval from the student's graduate program, a graduate student may repeat a single course* in which a grade of "C" or lower was earned to achieve a higher grade. A course may only be repeated once. Only the highest grade from the two attempts will be used in the GPA calculation. All attempts shall be recorded on the transcript, with the earned grade for each course listed in the semester in which it was earned. This provision may be used only once during a graduate student's degree program.

*if the course is available

11.9 Annual Review of Student Progress.

The graduate program in which a student is seeking a graduate degree will provide a mechanism for assessing the student's progress toward degree completion at least once annually. If it is determined that the student is not making adequate progress, then a specific plan to address and correct any inadequacies in progress will be prepared in a written document provided to the student and the dean of the Graduate College. Failure to correct these inadequacies may result in dismissal by the graduate program and/or Graduate College. Graduate coordinators will report completion and results of the annual review process, including any written performance improvement plans, for their graduate program(s) annually by June 30 to the Graduate College via Slate form (<https://grad.okstate.edu/register/academic-progress-report>).

11.10 Academic Progress.

Each semester, the dean of the Graduate College reviews the academic progress of any graduate student who receives a grade of "F", "NP", "C" or lower in a class or "UR" in research. At the discretion of the dean of the Graduate College, one of four actions based on the student's current semester performance and past academic history will be taken as follows:

1. Program Notice. The graduate program is notified by their college and is encouraged to review the student's performance to determine if any program intervention is needed.
2. Academic Notice. If a student's overall GPA drops below a 3.00, if a "F", "NP", or "UR" grade is earned, or if the dean of the Graduate College judges the student's overall academic performance so warrants then they are subject to being placed on academic notice. At the discretion of the dean of the Graduate College, this notice may be removed

at the end of the semester only after the student brings his or her cumulative GPA for courses eligible for graduate credit taken at OSU to 3.00 or greater, earns a "P" or "SR" grade, and/or completes all degree requirements, whichever comes first.

3. No Further Enrollment Without Program Consent (NFEWPC).
 - a. If the student was admitted on academic notice and did not meet the requirements of this admission, or
 - b. If they have received two consecutive grades of "F", "NP", and/or "UR", or
 - c. If the student was on academic notice the previous semester, or
 - d. If the dean of the Graduate College believes the student's overall academic performance warrants program intervention, then the student is not permitted to enroll further without the consent of the program. To continue in the program, the student must submit a written petition to the dean of the Graduate College requesting reinstatement and outlining a plan to remedy the academic situation. This petition must be accompanied by a letter of support from the unit head or graduate program coordinator. Failure to submit such a reinstatement petition could result in the cancellation of any pre-enrollment for the upcoming semester.
4. No Further Enrollment (NFE). The student has consistently performed below the acceptable standards for graduate students. The student is not permitted to continue graduate study at OSU.

11.11 Course Grade Appeals.

A student may appeal a grade given by an instructor in a case in which they believe the grade awarded is inconsistent with the announced grading policy. The student should consult the "Student Rights and Responsibilities" or contact the Office of Academic Affairs for information regarding initiating the appeals process.

11.12 Appeals of Research Grades and Non-grade Issues.

A student wishing to appeal a "UR" grade issued for a research course (5000 or 6000), or an academic issue not involving a grade should contact the dean of the Graduate College about the appeals process available to graduate students.

11.13 Advisory Committee Decisions-Criteria for Passing.

In decisions resulting from a vote of a graduate student advisory committee (e.g., PhD candidacy exam, final thesis defense, or approving a dissertation), a pass requires that no more than one member of the committee dissent.

11.14 Discontinuance from a Program.

In instances when a student reaches a situation when it is no longer possible to complete the intended degree (e.g., failure of all permitted attempts of the PhD qualifying exam, comprehensive exam or candidacy exam), and is still in good academic standing with the Graduate College, a domestic student may be considered for transfer to non-degree seeking student status and be subject to all non-degree seeking student rules (including maximum number of hours that can later be used toward a graduate degree or certificate program). If visa restrictions prohibit an international student's matriculation as a non-degree seeking student, the Graduate College will inform the Office of International Students and Scholars of the student's impending dismissal from the program; the student will have until the end of the semester to be admitted into another graduate program. This change in status is initiated with a letter

from the unit head or graduate program coordinator to the student, copied to the dean of the Graduate College, and should detail the reasons for the student's potential dismissal from the program. In accordance with graduate program policies, students have a limited number of days from the intent to dismiss letter date to initiate the appeals process in the program. Graduate students should contact the dean of the Graduate College about the appeals process.

11.15 Second Graduate Degrees.

The Oklahoma State Regents for Higher Education (OSRHE) do not allow students to obtain a second degree in the same "major" as the first degree, even if the options are different. For example, it is not possible to earn both an M.S. degree in Electrical Engineering with an option in Control Systems and an M.S. degree in Electrical Engineering with an option in Optics and Photonics.

Completion of requirements for more than one option may be noted on the official transcript, but a second degree will not be awarded. Additionally, because of the OSRHE requirement for a coursework common core within master's degree options, it should not be assumed that obtaining an additional option within the same degree program and level will be possible. Careful discussions and planning with the graduate program coordinator prior to admission is imperative, if such study is desired.

While graduate and professional students may simultaneously pursue more than one degree and/or certificate, pursuing a second doctoral degree is not allowed without preapproval of the dean of the Graduate College prior to the application for admission.

11.16 Accelerated Master's Degree

Accelerated master's degree programs offer a streamlined path to a master's degree, reducing the time to earn a master's degree by sharing up to 30 percent of the coursework required for the stand-alone master's degree with the undergraduate degree. All shared courses must be approved for graduate credit. For example, a 30-hour master's degree may share 9 hours with the undergraduate degree, while a 45-hour master's degree may share 14 hours. The curriculum of an accelerated master's degree program is designed to fulfill all requirements of both the undergraduate and graduate degrees. Accelerated bachelor to master's degree programs require approval of the deans of the Graduate College and the relevant undergraduate college(s).

11.17 Awarding of Certificates and Degrees

The retroactive awarding of a newly approved graduate degree or certificate for prior coursework is prohibited. The majority of the coursework (greater than 50 percent) for a graduate certificate must be completed after the student is admitted to and enrolled in the degree program.

11.17.1 Publication Not a Prerequisite

External publication is not a requirement for the completion of a graduate degree.

11.18 Theses and Dissertations

All students' theses, dissertations, and derivatives of these works are considered Personal Works under Section 7.02 of OSU's IP Policy 1-0202, and the student will own the copyright unless otherwise provided by the IP Policy. The University, however, retains a non-exclusive, irrevocable, royalty-free license to reproduce, distribute, and publish the works for any purpose without appropriate attribution.

12.0 Responsible Conduct of Research

All graduate students must complete Responsible Conduct of Research (RCR) training requirements prior to the end of their first semester. Students should consult with their graduate program coordinators as to what these requirements are in their programs. Graduate programs may impose more stringent requirements. A Plan of Study will not be approved by the dean of the Graduate College until the graduate program has certified RCR completion. Information and University policies regarding RCR can be found at <https://research.okstate.edu/compliance/policies.html>.

12.1 Research Involving Human Subjects.

If the thesis, dissertation, formal report, creative component, or other research that involves the use of human subjects, the research project is governed by federal regulations that require review by the OSU Institutional Review Board (IRB). Approval to conduct the research must be obtained from the IRB before the research is started.

Failure to obtain IRB approval will result in the University's rejection of the thesis or dissertation. While the Graduate College does not monitor degree capstone/creative components/formal reports/etc., this does not negate the student's responsibility to obtain IRB approval if human subjects are involved in that capstone/creative activity.

This section is meant to be informational only and does not contain a complete description of the IRB review process. All of the forms and guidance for completing the application are available on the IRB website <https://research.okstate.edu/compliance/irb/forms.html>.

13.0 Graduation Clearance Process

At the time of enrollment for the last semester or summer session of work toward a degree, graduate students must complete a Graduation Application with the Office of the Registrar. Completing the Graduation Application indicates that a student has met or will meet by the end of the semester in question, all program and Graduate College requirements to earn the degree they are seeking. If these requirements are not met, the student must complete a new Graduation Application for a future semester. The Graduation Application should be submitted as early as possible in the graduating semester but no later than the deadlines listed on the Graduate College Calendar.

13.1 Graduate Commencement and Diplomas.

The University holds one Graduate Commencement Ceremony at the close of the fall and spring semesters. Students who plan to meet graduation requirements at the close of the summer session are invited and encouraged to participate in the Graduate Commencement Ceremony at the close of the previous spring semester or return for the next ceremony on the fall. Although attendance is not compulsory, the University encourages all candidates for advanced degrees to participate in the Graduate Commencement Ceremony. Candidates should also notify the Office of the Registrar of the address to which the diploma should be mailed.

13.2 Graduate Records and Transcripts.

All permanent records are in the Office of the Registrar. Requests for grades, transcripts, diplomas, and degree-completion letters should be made to that office.

A graduate student who does not complete the requirements in time to receive the degree at the end of the semester may secure a statement from the Office of the Registrar when all requirements for the degree have been satisfied. Such a statement will not be issued until all grades for the semester have been recorded.

14.0 Interdisciplinary Studies, MS

Carol Powers, PhD — General Program Coordinator

The MS in Interdisciplinary Studies offers students the flexibility to create a program of study to fit background, experience, and career goals. By stacking graduate certificates and/or other focused graduate coursework, students can tailor their degree to make the most of their education. The MS is for students who wish to increase their competence in a particular thematic area(s) by taking a series of courses in several disciplines. This multidisciplinary approach provides educational opportunities leading to a variety of careers. Interdisciplinary studies consist of no fewer than two separate fields of study. The advisory committee will assist the student in formulating the Plan of Study.

14.1 Admission Requirements.

An undergraduate grade-point average of 3.00 is required for unqualified admission. Students with a grade-point average less than 3.0 may be admitted on academic notice with approval of the dean.

Applications to the program should include:

1. a cover letter indicating the personal goals and professional objectives to be obtained from the program;
2. transcripts from all schools previously attended;
3. three letters of recommendation from persons who can describe abilities, interest, and motivation as a student;
4. a proposed course of study.

Particular courses are not specified for the degree, though a research methods course is required; the advisory committee can assist in selecting appropriate courses. Up to 30% of graduate hours may be transferred from a regionally-accredited graduate program with consent of the advisory committee. The student chooses one of the two master's degree plans:

1. 30-hour plan, thesis, includes six-hours of research;
2. 32-hour plan, non-thesis. May include a culminating experience (e.g., internship, practicum, comprehensive exam, portfolio, or capstone project); may include a final report with no more than three hours of research

15.0 Graduate Certificate Programs

Graduate certificate programs offer students the opportunity for focused study of a body of knowledge at the graduate level, leading to the award of a transcribed academic credential that can be earned in a relatively short time. Graduate certificate programs can serve both as a steppingstone onto more advanced study leading to a master's or doctoral degree or as a stand alone educational achievement to assist an individual in their career. Many OSU graduate certificate programs are offered online or on the graduate-serving campuses (OSU-Stillwater, OSU-Tulsa and OSU-Center for Health Sciences in Tulsa). In addition, many graduate certificate programs allow students to enroll as either a certificate-seeking or a degree-seeking graduate student. Certificate-seeking students are not eligible for GTA or GRA positions or associated benefits but may be eligible for federal financial aid (<https://>

go.okstate.edu/scholarships-financial-aid/). For the current graduate certificate offerings at OSU please see the university catalog.

15.1 Admission to a Graduate Certificate Program.

Any student admitted to the Graduate College may apply for admission to a graduate certificate program. Some certificate programs may have additional requirements, such as official scores on standardized tests, letters of recommendation, etc. Contact the appropriate graduate program for specifics.

15.2 Basic Requirements.

A graduate certificate requires completion of a minimum of 12 credit hours of coursework eligible for graduate credit. Specific certificate programs may have more stringent requirements.

Also, see **Section 11.2** for the number of times a course can be used in multiple degree Plans of Study.

15.3 Transfer of Courses.

With the approval of the graduate program and the Graduate College, up to three hours of graduate-level credit with a grade of "B" or higher from another institution may be used toward certificate requirements. The GPA must be at least 3.0 on any transfer credit.

15.4 Academic Standing.

A grade-point average of "B" (3.00) is required to earn a graduate certificate. No grade lower than a "C" may be used as part of the minimum requirements for the certificate. Individual certificate programs may have more stringent requirements.

15.5 Plan of Study and Certificate Completion Procedures.

Upon application to a graduate certificate program, a student must complete a Plan of Study, listing the courses intended to be used in earning the certificate before the end of their first semester in the certificate program. This plan must be approved by the graduate program and the Graduate College prior to recording the credential on the student's academic record. During the semester of anticipated certificate completion, the student must complete a Graduate Application. This action will cause the graduate certificate to be recorded on the official transcript and a certificate will be printed, provided all requirements have been met. Unfortunately, due to space limitations, standalone graduate certificates are not recognized at commencement.

16.0 Graduate Minors

Graduate minors offer students the opportunity to pursue coursework outside, or ancillary to, the requirements for the degree earned. Minors may not be earned independently of a degree granted by OSU.

16.1 Basic Requirements.

A graduate minor must include between nine and eighteen hours, inclusive, of coursework eligible for graduate credit.

Transfer of courses: No more than one-third of the credit for the minor may be earned through transfer credit of courses taken at other institutions, with the approval of the coordinator of the minor and the dean of the Graduate College. Transfer credit will only be considered if it was earned when the student was post-baccalaureate (i.e., after earning a bachelor's degree) at another accredited institution. All courses used as transfer credit must have a grade of "B" or better.

16.2 Academic Standing.

A grade-point average of "B" (3.00) is required on courses applicable to a graduate minor. No grade lower than a "C" may be used as part of the minimum requirements for the minor. Individual minors may have more stringent requirements.

16.3 Plan of Study and Minor Completion Procedures.

Graduate students can declare a minor by entering it in the appropriate section of an original or revised Plan of Study submitted to the Graduate College prior to conferral of the degree. The pursuit of graduate minors is not denoted on the academic transcript while in progress. Graduate students can file for minor completion in the semester that the required courses for that minor will be finished. At that time, the graduate student should ask the coordinator for that minor area to submit a memorandum to the Graduate College certifying the completion of the minor requirements and listing the courses required for the minor. A notation of the minor will be added to the student's transcript with the conferral of a degree. The courses required for a graduate minor may be included on a Plan of Study for any graduate degree or they may be in addition to the degree requirements, depending on the overlap between the minor and the degree Plan of Study. However, the graduate minor must be earned in an academic field other than the student's graduate program or degree option (for example, a graduate student who is majoring in economics could not receive a graduate minor in economics).

16.4 Time Limits.

Requirements for the graduate minor must be completed at the time of conferral of the primary degree. All graduate courses used to complete the minor must have been taken within ten years prior to the date of completion of the graduate minor requirements.

17.0 Master's Degree Programs

17.1 Abbreviations.

MA - Master of Arts
MAG - Master of Agriculture
MAT - Master of Athletic Training
MBA - Master of Business Administration
MEN - Master of Engineering
MFA - Master of Fine Arts
MM - Master of Music
MPH - Master of Public Health
MS - Master of Science

17.2 Current Degree Inventory.

For the current listing of master's degrees offered at OSU see the Graduate College website: <https://gradcollege.okstate.edu/programs/listing-by-degree.html#Masters>.

17.3 Basic Requirements.

The master's degree may be earned by one of four plans as follows:

Plan I—thesis. Minimum 30 credit hours. Six hours of research required with a grade of "SR."

Plan II—non-thesis, creative component. Minimum of 30 credit hours. May include no more than three hours of research or creative component with a grade of "SR."

Plan III—non-thesis, (formal) report. Minimum of 30 credit hours. Requires one to three hours of research with a grade of "SR" or a departmental course.

Plan IV—non-thesis, coursework only. Minimum of 30 credit hours.

The numbers of credits specified for each plan are minimums set by the Graduate College. Graduate program requirements may exceed these minimums.

The graduate program, with the approval of the dean of the Graduate College, decides which alternatives are open to the students.

Also, see **Section 11.2** for the number of times a course can be used in multiple degree Plans of Study.

17.4 Residency Requirements.

Candidates for a master's degree must complete a minimum of 21 semester credit hours from OSU. Nine semester credit hours may be graduate courses taken at another accredited college or university with appropriate approvals.

17.5 Advisory Committee.

Upon recommendation of the graduate program and approval of the dean of the Graduate College, an advisory committee of no fewer than three voting members will be appointed. The advisory committee must include a minimum of three members of the Graduate Faculty. The chair of the committee need not necessarily serve as the student's research advisor, but must hold an OSU Graduate Faculty appointment and have familiarity with the academic requirements of the degree sought. To view the roles and responsibilities associated with members of advisory committees, go to <https://gradcollege.okstate.edu/resources/best-practices.html>.

17.6 Level of Courses Applied to Graduate Degree.

Graduate students must complete all semester credit hours at the graduate level through OSU as presented on the Plan of Study to meet requirements for the master's degree.

17.7 Plan of Study.

The Plan of Study for the degree must be submitted online to the Graduate College prior to completion of the second semester of enrollment for a master's program. The student should develop the Plan of Study with the advisory committee using the online Plan of Study application (Current Student Resources | Oklahoma State University (<https://gradcollege.okstate.edu/resources/student-resources>)). The online submission request requires approval by the advisory committee and the student's graduate program with final approval by the Graduate College. The Plan of Study is subject to modification. All changes must have the approval of the advisory committee and the student's graduate coordinator, and a final Plan of Study incorporating all changes should be submitted to the Graduate College by the eighth week of the semester in which the degree is to be conferred. See the Graduate College Calendar.

Graduate credit, up to a maximum of nine hours, used to obtain one master's degree may, with the approval of the advisory committee, be counted toward completion of another master's degree.

17.8 Language Requirements.

A candidate for a master's degree may be required to demonstrate a reading knowledge of a modern foreign language. Any such requirement of the graduate program included on the Plan of Study and is noted at the time the preliminary plan is approved by the student's advisor.

A foreign language requirement for a master's degree may be met either by examination or by college credit, according to individual graduate program requirements.

17.9 Written Examinations.

Some graduate programs require a written examination covering the major and/or minor fields. It is usually taken before the thesis or report has been completed. Arrangements for taking the examination should be made with the graduate program at least three weeks in advance. The written examination must be passed before a final examination is scheduled, if a thesis or report option is used.

A student who fails all or part of the written examination should consult the chair of the examination committee to find out what must be done before taking another examination.

17.10 Thesis.

Any student working on a thesis should obtain a copy of the Graduate College Thesis/Dissertation Handbook available from the Graduate College at <https://gradcollege.okstate.edu/resources/current-student-resources.html>. A thesis must conform to the format specifications set forth in this document. The style of the document is to be determined by the advisory committee and should be reflective of publications in the student's discipline. Any graduate student writing a thesis must attend a Thesis/Dissertation format workshop prior to submission of their approved thesis. The dates for the workshops are on the Graduate Calendar and a webinar version is available on the Graduate College website.

It is strongly recommended that a graduate student submit complete copies of their thesis to committee members at least two weeks prior to the defense date, that the defense presentation be publicized, and that the thesis defense occur on a date during the normal academic semesters and sessions. Graduate programs may have additional or more restrictive requirements for thesis defenses.

Immediately after the defense, the Thesis Oral Defense Results form, initiated by the student, must be submitted online (Current Student Resources | Oklahoma State University (<https://gradcollege.okstate.edu/resources/student-resources>)). In addition, the student must electronically submit the Thesis Document Approval form (see template on the Graduate College website) with committee signatures to the Graduate College via grad-academics@okstate.edu. The thesis must have the necessary approval signatures before online submission. Directions to submit the thesis through the OSU website are given to the student after they submit the Thesis Document Approval form. Both the Thesis Document Approval form and the electronic submission of the thesis must occur no later than the final submission deadline date stated on the Graduate College Calendar.

17.11 Final Examination.

If the thesis or report option is used, the student should arrange with the graduate program for the final examination and to distribute a copy as described in the preceding section. The final examination may be oral or written or both.

The final examination is primarily a defense of the thesis or report. If the defense is judged inadequate, a decision on whether to permit re-examination will be made by the advisory committee. Another examination cannot be given for at least two months after a failure, and a graduate program may limit the number of times that the examination may be repeated.

Following satisfactory completion of the final examination, the candidate will make changes to the thesis or report as required by the committee and submit it in final form as described in the preceding sections.

Please see the Graduate College's Best Practices: Advisory Committees and Defenses document for additional guidance (<https://gradcollege.okstate.edu/resources/best-practices.html>).

18.0 Specialist in Education (EdS) Degree Program

The Specialist in Education degree is conferred as an appropriate recognition of achievement as evidenced by the following:

1. Successful professional performance in the area of the student's specialization.
2. Satisfactory completion of a program of graduate study of approximately two academic years.
3. Satisfactory performance on examinations designed to reveal the student's understanding of the field of specialization and its relation to other areas; and
4. Preparation of a thesis dealing with some aspect of concern to the student's profession and its defense before a committee of the Graduate Faculty.

18.1 Temporary Advisor.

At the beginning of a student's Specialist in Education program, the school head may designate a member of the Graduate Faculty to serve as temporary advisor to the student. The temporary advisor will guide the student in the selection of courses for the first semester.

18.2 Advisory Committee.

Upon recommendation of the school head or the graduate committee of the school and approval of the dean of the Graduate College, an advisory committee of no fewer than three voting members will be appointed.

At least one member of the advisory committee must be designated as the Graduate College Representative and be a Full member of the OSU Graduate Faculty from a school or department outside the student's department. This committee:

1. conducts the preliminary examination and conference,
2. approves the proposed Plan of Study,
3. supervises the student's progress in the program,
4. supervises the research, and
5. arranges for and conducts the final examination.

The chair of the committee need not necessarily serve as the student's research advisor but must hold an OSU Graduate Faculty appointment and have familiarity with the academic requirements of the degree sought. To view the roles and responsibilities associated with members of advisory committees, go to <https://gradcollege.okstate.edu/resources/best-practices.html>.

18.3 Plan of Study.

The original Plan of Study for the degree must be submitted to the Graduate College prior to the end of the second semester (excluding summer sessions) of enrollment for a specialist in education program. The student should develop the Plan of Study with the advisory committee using the online Plan of Study application (Current Student Resources | Oklahoma State University (<https://gradcollege.okstate.edu/resources/student-resources>)). The online submission requires approval

by the advisory committee and the student's graduate program with final approval by the Graduate College.

The Plan of Study is subject to modification. All changes must have the approval of the advisory committee and the student's graduate coordinator, and a final Plan of Study incorporating all changes should be submitted to the Graduate College by the eighth week of the semester in which the degree is to be conferred. See the Graduate College Calendar.

18.4 Credit Hour Requirements.

A minimum of 60 credit hours beyond the bachelor's degree or 33 credit hours beyond the master's degree are required for the Specialist in Education degree. This may include as many as 10 credit hours for the practicum study and accompanying report.

Also, see **Section 11.2** for the number of times a course can be used in multiple degree Plans of Study.

18.5 Character of Work.

The satisfactory completion of coursework (see "General Regulations") is only one requirement for receiving the degree. The student must also:

1. pass a qualifying examination,
2. conduct an appropriate study of education,
3. show qualities of professional leadership, and
4. pass a final examination.

18.6 Residence Requirements.

While the Graduate College does not have a specific residence requirement that applies to all graduate programs, programs may require a period of time in residence for students enrolled in departmental graduate programs. Programs must inform students of any residence requirements upon their admission to departmental graduate programs. No more than nine hours may be transferred from another university.

18.7 Qualifying Examination.

A qualifying examination is required of all candidates for the Specialist in Education degree. The nature of this exam is determined within each specialization.

18.8 Credit Toward an EdD or a PhD.

A student holding an EdS may have the credit hour requirements for a PhD or EdD reduced to 30 hours subject to recommendation by the advisory committee and approval of the dean of the Graduate College.

19.0 Professional Doctorate (DBA, DFS, DHA) Degrees

Professional doctoral degrees prepare students for advanced professional knowledge with a practice perspective to learning, and variable levels of scholarly work. Frequently, professional doctoral degrees will contain training and advanced knowledge that is required by a relevant licensing board and professional organization. The professional doctoral degree requirements are components that provide examination and capstone experiences consistent with the profession's standards and the Graduate College's expectations for professional doctoral programs.

The following professional doctoral degrees are offered at Oklahoma State University:

Doctor of Business Administration, D.B.A., for degree requirements see the Spears School of Business

Doctor of Forensic Sciences, D.F.S., for degree requirements see the School of Forensic Sciences, Center for Health Sciences

Doctor of Health Care Administration, D.H.A., for degree requirements see the School of Health Care Administration, Center for Health Sciences

19.1 Basic Requirements

Professional doctoral degrees requires a minimum of 60 semester credit hours beyond the bachelors degree. Also, see **Section 11.2** for the number of times a course can be used in multiple degree Plans of Study.

19.2 Plan of Study

The student should develop the Plan of Study with the advisory committee using the online Plan of Study application (Current Student Resources | Oklahoma State University (<https://gradcollege.okstate.edu/resources/student-resources>)). The online submission requires approval by the advisory committee and the student's graduate program with final approval by the Graduate College.

The original Plan of Study must be submitted to the Graduate College prior to the end of the third semester (excluding summer sessions) of enrollment in the doctoral program.

The Plan must include all the acceptable graduate work that has been completed and all that will be taken for the degree. All courses on the plan should be taken at the 5000-6000 level. Credit for all courses on a graduate Plan of Study must have been awarded within 10 years of completion of all degree requirements.

The Plan of Study is subject to modification. All changes must have the approval of the advisory committee and the student's graduate coordinator, and a final Plan of Study incorporating all changes should be submitted to the Graduate College by the eighth week of the semester in which the degree is to be conferred. See the Graduate College Calendar.

19.3 Character of Work

The satisfactory completion of coursework (see "General Regulations") is only one requirement for receiving the degree. The student must also comply with any other requirements of the major department.

19.4 Residence Requirements

A minimum of 30 credit hours must be taken at OSU. While the Graduate College does not have a specific residency requirement that applies to all programs, some may require a period of time in residence for students. Programs must inform students of any residency requirements upon their admission to the graduate program.

20.0 Doctor of Education (EdD) Degree Programs

The degree of Doctor of Education is a professional degree conferred in recognition of outstanding ability as an educator in some special field or fields as shown by:

1. satisfactory completion of a program of study;
2. passing examinations showing an understanding of the field of specialization and its relation to allied subjects;

3. the preparation of a dissertation demonstrating ability to approach problems with a high degree of originality and independence; and
4. passing an examination covering the dissertation and related fields.

20.1 Basic Requirements.

The Doctor of Education degree requires a minimum of 90 semester credit hours beyond the bachelor's degree, or a minimum of 60 semester credit hours beyond the master's degree in a related discipline. The Plan of Study must include ten hours, with a grade of "SR," for the doctoral dissertation. Students may use 90 hours beyond the bachelor's degree as a degree total only if admitted directly into the doctoral program from the bachelor's degree.

A student who holds a DVM, MD, DO, DDS, LLB, JD, or equivalent professional degree may also have the minimum credit hour requirement reduced to 60 hours, subject to the recommendation of their advisory committee and the approval of the dean of the Graduate College. A student may receive only one 30-hour credit reduction in the EdD requirement regardless of the number of master's or professional degrees that he or she holds.

Also, see **Section 11.2** for the number of times a course can be used in multiple degree Plans of Study.

20.2 Temporary Advisor.

At the beginning of a student's doctoral program, the school head will designate a member of the Graduate Faculty to serve as temporary advisor to the student. The temporary advisor will guide the student in the selection of courses for the first semester.

20.3 Advisory Committee.

Upon recommendation of the head of the graduate program and approval of the graduate dean, an advisory committee of no fewer than four voting members will be appointed. The duties of the advisory committee consist of:

1. advising the student,
2. assisting the student in preparing a Plan of Study,
3. assisting in planning and conducting the research,
4. supervising the writing of the dissertation, and
5. conducting the dissertation defense.

The chair of the committee need not necessarily serve as the student's research advisor but must hold an OSU Graduate Faculty appointment with doctoral chairing privileges, and have familiarity with the academic requirements of the degree sought. At least one member of the advisory committee must be designated as the Graduate College Representative and be a Full member of the OSU Graduate Faculty from a school or department outside the student's department. To view the roles and responsibilities associated with members of advisory committees, go to <https://gradcollege.okstate.edu/resources/best-practices.html>.

The student should consult the members of the advisory committee frequently and keep them informed on the progress of their work.

20.4 Preliminary Conference.

As soon as the student is notified that an advisory committee has been appointed, the student should arrange with the chair for a conference with the committee. During the conference, the preparation and qualifications of the student for graduate work will be discussed and appropriate plans made for future study.

20.5 Plan of Study.

The student should develop the Plan of Study with the advisory committee using the online Plan of Study application (Current Student Resources | Oklahoma State University (<https://gradcollege.okstate.edu/resources/student-resources>)). The online submission requires approval by the advisory committee and the student's graduate program with final approval by the Graduate College.

Because the acceptance of work that the student desires to use toward the degree rests with the advisory committee, it is important to plan a complete program and have it approved by the dean of the Graduate College as soon as possible.

The original Plan of Study must be submitted to the Graduate College prior to the end of the third semester (excluding summer sessions) of enrollment in the doctoral program.

The Plan must include all the acceptable graduate work that has been completed and all that will be taken for the degree. The plan should include:

1. all courses taken at the 5000-6000 level,
2. a minimum of 60 hours beyond the master's degree or 30 hours beyond the EdS, and
3. at least 10 hours of dissertation credit. Courses from a master's degree or EdS are not listed on the doctoral Plan of Study.

Credit for all courses on a graduate Plan of Study must have been awarded within 10 years of completion of all degree requirements.

The Plan of Study is subject to modification. All changes must have the approval of the advisory committee and the student's graduate coordinator, and a final Plan of Study incorporating all changes should be submitted to the Graduate College by the eighth week of the semester in which the degree is to be conferred. See the Graduate College Calendar.

20.6 Character of Work.

The satisfactory completion of coursework (see "General Regulations") is only one requirement for receiving the degree. The student must also:

1. pass a qualifying examination,
2. prepare an acceptable dissertation,
3. demonstrate the ability to do independent study,
4. pass a defense of dissertation, and
5. comply with any other requirements of the major department.

20.7 Residence Requirements.

A minimum of 30 credit hours must be taken at OSU. While the Graduate College does not have a specific residency requirement that applies to all graduate programs, some may require a period of time in residence for students. Programs must inform students of any residency requirements upon their admission to graduate programs.

20.8 Language and Research Instruments Proficiency.

All candidates will be expected to have a command of those instruments necessary in the study of educational problems. The doctoral advisory committee of each candidate may require evidence of proficiency in one or more foreign languages, educational research, statistics and/or computer usage.

20.9 Admission to Doctoral Candidacy.

Admission to doctoral candidacy marks the transition into the research phase of a doctoral degree and indicates agreement that the student has demonstrated the ability to do acceptable graduate work and that satisfactory progress has been made toward a degree. Consideration for candidacy requires the presentation of a written research proposal for doctoral research to the doctoral advisory committee, who will assess the proposal and offer the student pertinent counsel, advice and feedback. The approval of the research proposal by the advisory committee is the basic requirement for admission to doctoral candidacy; individual programs will normally impose additional requirements, such as the successful completion of oral and/or written comprehensive or qualifying examinations. These additional requirements may occur in conjunction with the presentation of the research proposal, or they may occur at different times within the course of doctoral study. Admission to doctoral candidacy is conferred with the approval of the dean of the Graduate College, on behalf of the Graduate Council, acting upon the recommendation of program faculty. Admission to candidacy should occur fairly early in the graduate degree program. When the student has completed all requirements for Candidacy, they must initiate the Admission to Doctoral Candidacy form (Current Student Resources | Oklahoma State University (<https://gradcollege.okstate.edu/resources/student-resources>) for committee members' and the Graduate College's approval.

20.10 Dissertation Hours Taken as a Doctoral Candidate.

Admission to candidacy must occur at least six months prior to the date of the final dissertation defense. Since admission to candidacy may occur at various times related to the academic calendar, the student will need to be admitted to candidacy early in the fall semester to be eligible to schedule their final dissertation defense and graduate in the spring; early in the spring semester for summer graduation; and early in the summer session for fall graduation. (See the Graduate College Calendar for term-specific dates.) If a student is admitted to candidacy prior to the first day of a given term, all dissertation hours taken that term and following may be included in the hours of dissertation research required as a doctoral candidate.

20.11 Dissertation.

A dissertation is required of each candidate for the EdD degree. The dissertation has three principal functions:

1. training in research,
2. promoting professional growth, and
3. contributing to professional knowledge in education. Not every dissertation will be expected to serve these three functions in the same way or to the same extent.

The format specifications, procedures and regulations for the dissertation are the same as for the PhD. The EdD candidate should refer to the "Doctor of Philosophy" section in the Graduate College chapter of the Catalog on dissertations and submission procedures. The style of the document is to be determined by the advisory committee and should be reflective of publications in the student's discipline. Any graduate student writing a dissertation must attend a Thesis/Dissertation format workshop prior to submission of their approved dissertation. The dates for the workshops are on the Graduate Calendar and a webinar version is available on the Graduate College website.

21.0 Doctor of Philosophy (PhD) Degree Programs

The Doctor of Philosophy (PhD) degree is granted in recognition of high achievement in scholarship and independent investigation. The student must prove his or her acceptability by:

1. successfully completing a series of courses comprising a Plan of Study;
2. passing various examinations demonstrating academic competence;
3. carrying out a research program under supervision and preparing an acceptable dissertation; and
4. demonstrating initiative, creative intelligence, and ability to plan and carry out research in his or her chosen field.

21.1 Current Degree Inventory.

For the current listing of doctoral programs offered at OSU see the Graduate College website: <https://gradcollege.okstate.edu/programs/listing-by-degree.html#Doctoral>.

21.2 Basic Requirements.

The Doctor of Philosophy degree requires the number of credit hours as specified by the degree program with a minimum of 60 credit hours beyond the bachelor's degree. These hours must include a minimum of 15 dissertation hours (6000) with a grade of "SR." The maximum number of dissertation hours (6000 with a grade of "SR") permissible on a Plan of Study must not exceed three-fourths of the total credit hours in the approved graduate degree program.

Also, see **Section 11.2** for the number of times a course can be used in multiple degree Plans of Study.

21.3 Temporary Advisor.

At the beginning of a student's doctoral program, the graduate program will designate a member of the Graduate Faculty to serve as temporary advisor to the student, if an advisor is not already determined. The temporary advisor will assist the student in the early selection of courses. Often, it is the graduate coordinator who serves as the temporary advisor.

21.4 Advisory Committee.

Upon recommendation of the graduate program and approval of the dean of the Graduate College, an advisory committee of not fewer than four voting members will be appointed. The duties of the advisory committee consist of:

1. advising the student,
2. assisting the student in preparing a Plan of Study,
3. assisting in planning and conducting the research,
4. supervising the writing of the dissertation, and
5. conducting the dissertation defense.

The chair of the committee need not necessarily serve as the student's research advisor, but must hold an OSU Graduate Faculty appointment with doctoral chairing privileges, and have familiarity with the academic requirements of the degree sought. At least one member of the advisory committee must be designated as the Graduate College Representative and be a Full member of the OSU Graduate Faculty from a school or department outside the student's department. To view the roles and

responsibilities associated with members of advisory committees, go to <https://gradcollege.okstate.edu/resources/best-practices.html>.

The student should consult the members of the advisory committee frequently, keeping them informed on the progress of their work.

21.5 Preliminary Conference.

As soon as the student is notified that an advisory committee has been approved, the student should arrange with the chairperson for a conference with the committee. During the conference, the preparation and qualifications of the student for graduate work will be discussed and appropriate plans made for future study.

21.6 Plan of Study.

The student should develop the Plan of Study with the advisory committee using the online Plan of Study application (Current Student Resources | Oklahoma State University (<https://gradcollege.okstate.edu/resources/student-resources>)). The online submission requires approval by the advisory committee and the student's graduate program with final approval by the Graduate College.

The original Plan of Study must be submitted to the Graduate College prior to the end of the third semester (excluding summer sessions) of enrollment in the doctoral program. The Plan of Study should include:

1. all courses taken at the 5000-6000 level,
2. a minimum of 60 hours, and
3. a minimum of 15 (maximum of 45) dissertation hours (6000) with a grade of "SR" for the 60 hour doctorate or a minimum of 15 (maximum of 60) dissertation hours (6000) for the 90 hour doctorate.

Credit for all courses on a graduate Plan of Study must have been awarded within 10 years of completion of all degree requirements.

The Plan of Study is subject to modification. All changes must have the approval of the advisory committee and the student's graduate coordinator, and a final Plan of Study incorporating all changes should be submitted to the Graduate College by the eighth week of the semester in which the degree is to be conferred. See the Graduate College Calendar..

21.7 Character of Work.

The satisfactory completion of coursework (see "General Regulations") is only one requirement for earning the degree. The student must also:

1. pass a qualifying examination*
2. prepare an acceptable dissertation,
3. demonstrate the ability to do independent study,
4. pass a defense of dissertation, and
5. comply with any other requirements of the graduate program.

*Normally, programs include successful completion of oral and/or written comprehensive or qualifying examinations.

21.8 Residency Requirements.

A minimum of 30 credit hours must be taken at OSU. While the Graduate College does not have a specific residency requirement that applies to all programs, graduate programs may require a period of time in residence for students enrolled in departmental graduate programs. Programs must inform students of any residence requirements upon their admission to their graduate programs.

21.9 Language Requirement.

Foreign language or other proficiency requirements may be specified to meet the need for specific skills and areas of knowledge that facilitate research and contribute to wider understanding. Specific requirements are determined by graduate programs. In many fields, a reading knowledge of one or two modern foreign languages is an important part of scholarship and necessary for research. In other fields, proficiency in special and related disciplines may be required that will contribute to the needs of the individual program.

21.10 Admission to Doctoral Candidacy.

Admission to doctoral candidacy marks the transition into the research phase of a doctoral degree and indicates agreement that the student has demonstrated the ability to do acceptable, doctoral-level graduate work and that satisfactory progress has been made toward a degree. Consideration for candidacy requires the presentation of a written research proposal for doctoral research to the doctoral advisory committee, who will assess the proposal and offer the student pertinent counsel, advice and feedback. The approval of the research proposal by the advisory committee is the basic requirement for admission to doctoral candidacy; individual programs will normally impose additional requirements, such as the successful completion of oral and/or written comprehensive or qualifying examinations. These additional requirements may occur in conjunction with the presentation of the research proposal, or they may occur at different times within the course of doctoral study. Admission to doctoral candidacy is conferred with the approval of the dean of the Graduate College, on behalf of the Graduate Council, acting upon the recommendation of program faculty. When the student has completed all requirements for Candidacy, they must initiate the Admission to Doctoral Candidacy form through GC Round Up (<http://planofstudy.okstate.edu>) for committee members' and the Graduate College's approval.

21.11 Dissertation Hours Taken as a Doctoral Candidate.

Admission to candidacy must occur at least six months prior to the end of the graduating semester.

Since admission to candidacy may occur at various times related to the academic calendar, the student will need to be admitted to candidacy early in the fall semester to be eligible to schedule their final dissertation defense and graduate in the spring; early in the spring semester for summer graduation; and early in the summer session for fall graduation. See the Graduate College Calendar for term-specific dates.

21.12 Dissertation.

A dissertation is required of each doctoral candidate. The subject of the dissertation must be approved by the advisory committee and the dissertation is prepared under the direction of members of the committee or a special dissertation committee approved by the advisory committee chair.

The dissertation must follow specifications in the Graduate College Thesis/ Dissertation Guidelines, available at Current Student Resources | Oklahoma State University (<https://gradcollege.okstate.edu/resources/student-resources>). The style of the document is to be determined by the advisory committee and should be reflective of publications in the student's discipline. Any graduate student writing a dissertation complete a Thesis/Dissertation format webinar prior to submission of their approved dissertation.

It is strongly recommended that a graduate student submit complete copies of the dissertation to the advisory committee members at least

two weeks prior to the defense date, that the defense presentation be publicized, and that the dissertation defense occur on a date during the normal academic semesters and sessions. Graduate programs may have additional or more restrictive requirements for dissertation defenses.

Immediately after the defense, the online dissertation Oral Defense form, initiated by the student, must be completed by the advisory committee. In addition, the online dissertation Document Approval form, initiated by the student, must be completed by the advisory committee before the electronic submission of the dissertation. Directions to submit the dissertation through the OSU website are given to the student after the dissertation Document Approval form is completed by all committee members. Both the dissertation Document Approval form and the electronic submission of the dissertation must occur no later than the final submission deadline date stated on the Graduate College Calendar (Current Student Resources | Oklahoma State University (<https://gradcollege.okstate.edu/resources/student-resources>)).

21.13 Final Examination.

The student should arrange with the graduate program for the final examination and to distribute a copy of the dissertation as described in the preceding section. The final examination is primarily a defense of the dissertation. If the defense is judged inadequate, a decision on whether to permit re-examination will be made by the advisory committee. Another examination cannot be given for at least two months after a failure, and a graduate program may limit the number of times that the examination may be repeated. If the advisory committee decides against re-examination, the committee's decision is final. The outcome of the dissertation defense falls under the "professional and scholarly assessment made by faculty and advisory committees" and is not appealable.

Following satisfactory completion of the final examination, the candidate will make changes in the dissertation as required by the committee and submit it in final form as described in preceding section.

Please see the Graduate College's Best Practices: Advisory Committees and Defenses document for additional guidance.

Academic Calendar Graduate College Academic Calendar

*Graduate College Academic Calendar dates subject to change.

Refer also to the University Academic Calendar (p. 91).

2026-2027

	Fall	Spring	Summer
Class work begins	Aug 17	Jan 11	May 17
Admission to doctoral candidacy for summer graduates due in Graduate College		Jan 29	
Admission to doctoral candidacy for fall graduates due in Graduate College			Jun 4

Thesis/ Dissertation Graduation Review: Watch the online tutorial	Oct 9	Mar 5	Jun 4
Last day to submit a revised plan of study (if needed) to Graduate College	Oct 16	Mar 12	Jun 18
Last day to file a Graduation Application* (formerly diploma application)	Nov 2	March 31	Jun 28
Admission to doctoral candidacy for spring graduates due in Graduate College	Nov 6		
Last day to submit results of Thesis/ Dissertation Oral Defense form to Graduate College to meet semester graduation deadlines	Nov 13	Apr 9	Jul 16
Last day to submit Thesis/ Dissertation Document Approval form to Graduate College to meet semester graduation deadlines	Nov 20	Apr 23	Jul 22
Last day to complete online submission of electronic dissertation or thesis to meet semester graduation deadlines	Nov 30	Apr 30	Jul 26
Term ends; Formal Reports, Creative Components due	Dec 11	May 7	Jul 30
Graduate Commencement	Dec 11	May 7	

* Last day to file for your name to appear in Fall and Spring/Summer Commencement Book. Summer deadline is for graduation clearance only.

Graduate Programs

Doctoral Degree Programs

- Agricultural Economics, PhD (p. 3033)
- Agricultural Education, Communications, and Leadership, PhD (p. 3034)
- Animal Science, PhD (p. 3035)
- Applied Educational Studies: Aviation and Space Education, EdD (p. 3036)
- Biochemistry and Molecular Biology, PhD (p. 3037)
- Biomedical Sciences, PhD (p. 3038)
- Biosystems Engineering, PhD (p. 3040)
- Business Administration, DBA (p. 3041)
- Business Administration: Accounting, PhD (p. 3042)
- Business Administration: Entrepreneurship, PhD (p. 3043)
- Business Administration: Executive Research, PhD (p. 3044)
- Business Administration: Finance, PhD (p. 3045)
- Business Administration: Hospitality and Tourism Management, PhD (p. 3046)
- Business Administration: Management Science and Information Systems, PhD (p. 3047)
- Business Administration: Management, PhD (p. 3048)
- Business Administration: Marketing, PhD (p. 3049)
- Chemical Engineering, PhD (p. 3050)
- Chemistry, PhD (p. 3051)
- Civil Engineering, PhD (p. 3052)
- Community Health Sciences, PhD (p. 3053)
- Comparative Biomedical Sciences, PhD (p. 3054)
- Computer Science, PhD (p. 3055)
- Counseling Psychology, PhD (p. 3056)
- Crop Science, PhD (p. 3057)
- Curriculum Studies: College Curriculum and Teaching, PhD (p. 3058)
- Curriculum Studies: Curriculum and Leadership, PhD (p. 3059)
- Curriculum Studies: International and Peace Curriculum, PhD (p. 3060)
- Economics, PhD (p. 3061)
- Education: Educational Administration, EdS (p. 3062)
- Education: Learning, Design and Technology, PhD (p. 3063)

Faculty

The OSU Graduate Faculty are searchable by name and department in the Graduate Faculty Database (https://apps.okstate.edu/graddb_gfd/) on the Graduate College Website.

Doctoral Degree Programs

- Agricultural Economics, PhD (p. 3033)
- Agricultural Education, Communications, and Leadership, PhD (p. 3034)
- Animal Science, PhD (p. 3035)
- Applied Educational Studies: Aviation and Space Education, EdD (p. 3036)
- Biochemistry and Molecular Biology, PhD (p. 3037)
- Biomedical Sciences, PhD (p. 3038)
- Biosystems Engineering, PhD (p. 3040)
- Business Administration, DBA (p. 3041)
- Business Administration: Accounting, PhD (p. 3042)
- Business Administration: Entrepreneurship, PhD (p. 3043)
- Business Administration: Executive Research, PhD (p. 3044)
- Business Administration: Finance, PhD (p. 3045)
- Business Administration: Hospitality and Tourism Management, PhD (p. 3046)
- Business Administration: Management Science and Information Systems, PhD (p. 3047)
- Business Administration: Management, PhD (p. 3048)
- Business Administration: Marketing, PhD (p. 3049)
- Chemical Engineering, PhD (p. 3050)
- Chemistry, PhD (p. 3051)
- Civil Engineering, PhD (p. 3052)
- Community Health Sciences, PhD (p. 3053)
- Comparative Biomedical Sciences, PhD (p. 3054)
- Computer Science, PhD (p. 3055)
- Counseling Psychology, PhD (p. 3056)
- Crop Science, PhD (p. 3057)
- Curriculum Studies: College Curriculum and Teaching, PhD (p. 3058)
- Curriculum Studies: Curriculum and Leadership, PhD (p. 3059)
- Curriculum Studies: International and Peace Curriculum, PhD (p. 3060)
- Economics, PhD (p. 3061)
- Education: Educational Administration, EdS (p. 3062)
- Education: Learning, Design and Technology, PhD (p. 3063)
- Education: Literacies and Language Arts Education, PhD (p. 3064)
- Education: Mathematics Education, PhD (p. 3065)
- Education: Science Education, PhD (p. 3066)
- Education: Social Foundations of Education, PhD (p. 3067)
- Education: Special Education, PhD (p. 3069)
- Education: Workforce and Adult Education, PhD (p. 3070)
- Educational Leadership and Policy Studies: Educational Administration, PhD (p. 3071)
- Educational Leadership and Policy Studies: Higher Education, PhD (p. 3072)
- Educational Psychology: Educational Psychology, PhD (p. 3073)
- Educational Psychology: Research, Evaluation, Measurement and Statistics, PhD (p. 3074)
- Electrical Engineering, PhD (p. 3075)
- English, PhD (p. 3076)
- Entomology, PhD (p. 3077)
- Environmental Science, PhD (p. 3078)
- Fire and Emergency Management Administration, PhD (p. 3079)
- Food Science, PhD (p. 3080)
- Forensic Sciences, DFS (p. 3081)
- Forensic Sciences, PhD (p. 3083)
- Geography, PhD (p. 3085)
- Geology, PhD (p. 3086)
- Health and Human Performance, PhD (p. 3087)
- Health Care Administration, DHCA (p. 3088)
- Health, Recreation and Human Performance: Health and Human Performance, PhD (p. 3089)
- Health, Recreation and Human Performance: Recreation Services, PhD (p. 3090)
- History, PhD (p. 3091)
- Human Development and Family Science, PhD (p. 3092)
- Human Sciences: Design and Merchandising, PhD (p. 3093)
- Industrial Engineering and Management, PhD (p. 3094)
- Integrative Biology, PhD (p. 3095)
- Language, Literacy, and Culture Education, EdS (p. 3096)
- Learning, Design and Technology, EdD (p. 3097)
- Learning, Design and Technology, PhD (p. 3098)
- Materials Science and Engineering, PhD (p. 3099)
- Mathematics, PhD (p. 3101)
- Mechanical and Aerospace Engineering, PhD (p. 3102)
- Mechanical and Aerospace Engineering: Unmanned Aerial Systems, PhD (p. 3103)
- Microbiology, Cell and Molecular Biology, PhD (p. 3104)
- Natural Resource Ecology and Management, PhD (p. 3105)
- Natural Resource Ecology and Management: Fisheries and Aquatic Ecology, PhD (p. 3106)
- Natural Resource Ecology and Management: Forest Resources, PhD (p. 3107)
- Natural Resource Ecology and Management: Rangeland Ecology and Management, PhD (p. 3108)
- Natural Resource Ecology and Management: Wildlife Ecology and Management, PhD (p. 3109)
- Nutritional Sciences, PhD (p. 3110)
- Petroleum Engineering, PhD (p. 3112)
- Physics, PhD (p. 3113)
- Plant Biology, PhD (p. 3114)
- Plant Pathology, PhD (p. 3115)
- Psychological Sciences: Clinical, PhD (p. 3116)
- Psychological Sciences: Experimental Psychology, PhD (p. 3117)
- School Administration, EdD (p. 3118)
- School Psychology, EdS (p. 3119)
- School Psychology, PhD (p. 3120)
- Sociology, PhD (p. 3122)
- Soil Science, PhD (p. 3123)
- Statistics, PhD (p. 3124)

Agricultural Economics, PhD

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 63

Code	Title	Hours
Core Courses		
ECON 6013	Microeconomic Theory I	3
AGEC 5303	Agricultural Market Policy and Organization	3
AGEC 5233	Primary Data Analysis in Economic Research	3
AGEC 5990	Advanced Studies ¹	3
AGEC 6213	Advanced Econometrics	3
AGEC 6103	Advanced Applications of Mathematical Programming	3
STAT 5253	Mathematical Statistics I	3
AGEC 6403	Advanced Production Economics	3
AGEC 6303	Advanced Agricultural Marketing ²	3
AGEC 6102	Teaching Practicum in Agricultural Economics	2
Hours Subtotal		29

Electives

Select at least 11 hours of electives: ³ 11

AGEC 5023	Quantitative Supply Chain Management in Agribusiness
AGEC 5033	Commodity Futures Markets
AGEC 5043	Advanced Farm and Ranch Management
AGEC 5053	Environmental Economics and Resource Development
AGEC 5073	Rural Economics Development
AGEC 5203	Advanced Agricultural Prices
AGEC 5403	Production Economics
AGEC 5423	Agribusiness Management
AGEC 5603	Advanced Agricultural Finance
AGEC 5703	American Agricultural Policy
AGEC 5723	Plan & Pol Devlpmnt
AGEC 6222	Spatial Econometrics
ECON 5033	Macroeconomic Analysis
ECON 6023	Microeconomic Theory II
ECON 6033	Macroeconomic Theory I
ECON 6043	Macroeconomic Theory II
ECON 6233	Time Series Econometrics
ECON 6623	Economic Development I
ECON 6643	Economic Development II
ECON 6903	Regional Economic Analysis and Policy
STAT 5023	Statistics for Experimenters II
STAT 5053	Time Series Analysis
STAT 5063	Statistical Machine Learning with R
STAT 5073	Categorical Data Analysis
STAT 5213	Bayesian Analysis
STAT 5263	Mathematical Statistics II

STAT 5303	Experimental Designs
FIN 5223	Investment Theory and Strategy
FIN 5763	Derivative Securities and the Management of Financial Price Risk
Hours Subtotal	11
Dissertation Research	
Total dissertation hours based on advice of student's advisory committee. ³	20
Hours Subtotal	20
Total Hours	60

¹ Advisor permission required for the specific version of AGECE 5990 needed.

² Prerequisites of AGECE 5203 or AGECE 5311, 5321, and 5331.

³ Total number of hours for dissertation research must be approved by student's advisory committee and will need to reach a total of 31 hours combined with electives.

Graduate College Doctor of Philosophy (PhD) Requirements

Learn more about Graduate College 2026-2027 Doctor of Philosophy (PhD) Degree Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Agricultural Education, Communications, and Leadership, PhD

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 60 (Beyond the Master's Degree)

Code	Title	Hours
Required Courses		
AECL 5101	Orientation to Graduate Programs in Agricultural Education, Communications and Leadership	1
AGCM 5203	Theory and Practice in Agricultural Communications	3
AGED 5823	Advanced Methods of Teaching Agriculture	3
AGED 6103	History and Philosophical Foundations of Agricultural and Extension Education	3
AGLE 5303	Foundations of Leadership Theory	3
AECL 5863	Methods of Technological Change	3
AECL 6223	Program Evaluation in Agriculture and Extension	3
Hours Subtotal		19
Statistics and Research Courses		
AECL 5983	Social Sciences Research in Agricultural Sciences and Natural Resources	3
Select 9 hours from the following:		9
REMS 5953	Statistical Methods in Education (or equivalent)	
STAT 5013	Statistics for Experimenters I	
REMS 6003	Analyses of Variance (or equivalent)	
STAT 5023	Statistics for Experimenters II	
REMS 6013	Multiple Regression Analysis in Behavioral Studies (or equivalent)	
Select one qualitative research methods course.		3
Specialization		
Select 11 hours.		11
Hours Subtotal		26
Dissertation Hours		
AECL 6000	Doctoral Dissertation in Agricultural Education, Communications and Leadership	15
Hours Subtotal		15
Total Hours		60

Other Requirements		
Twenty-one hours from:		21
CS 6000	Doctoral Dissertation	
Hours Subtotal		21
Total Hours		60

¹ For Ph.D. students who have not earned a master's degree, at most one grade of "C" in a core course is acceptable providing it is offset by a grade of "A" in another core course.

² A student who has completed a master's degree at another university may petition to have one or more of the OSU core courses waived in favor of equivalent graduate-level course(s) taken elsewhere. The question of whether or not a course at another university is equivalent to an OSU core course is entirely up to the judgment of the department.

³ These elective hours cannot include any courses claimed Core Requirements, Research Specialization or Secondary Area of Study, nor may they include any courses used on the plan of study for a master's degree, nor may they include any hours of CS 5000 or of CS 6000.

⁴ Students who have not completed a master's degree must satisfy the above elective requirements in this item plus the elective requirements for the master's degree (under the thesis option) in this department.

Common Program Core		
(Typically taken within the first 3 semesters)		
SCFD 6983	Diversity and Equity Issues in Education	3
SCFD 6113	Theoretical Foundations of Inquiry	3
CIED 6503	Doctoral Seminar	3
Hours Subtotal		9
Research Courses		
12 credit hours, at least one qualitative and one quantitative course at 6000-level. (Note: all 6000-level REMS quantitative courses require prerequisites of REMS 5013 and REMS 5953, which will not count toward the 69 total hours). Only one 5000-level course (excluding REMS 5013 and REMS 5953) may count toward the required coursework in this category.		
Pending committee approval, appropriate courses include the following:		12
CIED 6073	Advanced Pedagogical Research	
CIED 6163	Advanced Research Strategies in Curriculum	
CIED 6253	Designing and Conducting Mixed Methods Research	
EDLE 6910	Practicum (May only be taken the last term of coursework)	
HIST 5023	Historical Methods	
HIST 6023	Historiography	
REMS 6373	Program Evaluation	
REMS 6383	Program Evaluation II	
Quantitative Approaches		
REMS 6003	Analyses of Variance ¹	
REMS 6013	Multiple Regression Analysis in Behavioral Studies ²	
REMS 6663	Applied Multivariate Research in Behavioral Studies ³	
STAT 5033	Nonparametric Methods	
STAT 5043	Sample Survey Designs	
Qualitative Methodologies		
GEOG 5423	Geographic Renderings in Qualitative Methods	
SCFD 5913	Introduction to Qualitative Inquiry	
SCFD 6123	Qualitative Research I	
SCFD 6163	Ethnography	
SCFD 6173	Visual Methodologies	
SCFD 6183	Narrative Research Methodologies	
SCFD 6190	Qualitative Research: Selected Methods	
SCFD 6193	Qualitative Research II	
SOC 6853	Seminar in Symbolic Interactionism	

Hours Subtotal		12
Social Foundations Core		
24 credit hours, at least one 6000-level course (except for SCFD 5713, SCFD 5883) from each of the four areas of Social Foundations: Philosophy of Education, History of Education, Anthropology of Education, and Sociology of Education.		24
SCFD 5023	The Comparative Approach: Theory, Method, and Practice	
SCFD 5123	History of Education	
SCFD 5713	Educational Philosophy ⁴	
SCFD 5883	Educational Sociology ⁴	
SCFD 6853	Anthropology of Education ⁴	
SCFD 5873	Culture, Society and Education	
SCFD 5923	Popular Culture and Education	
SCFD 5990	Problems and Issues in Social Foundations	
SCFD 6023	Comparative Education	
SCFD 6443	Ethics and Moral Education	
SCFD 6850	Directed Reading	
SCFD 6883	Transforming Pedagogies	
SCFD 6630	Topics in Philosophy Education	
SCFD 6990	Seminar in Social Foundations	
Hours Subtotal		24
Cognate Area		
Students take 9 credit hours in a concentration or cognate area based on their research interest and in consultation with their advisor and dissertation committee. These areas are available at Oklahoma State University, especially in the College of Education, Health and Aviation and the College of Arts and Sciences. They can be, but are not limited to, the following areas:		9
History; Philosophy; Sociology; International Studies; Comparative Education; Gender and Women's Studies; Higher Education; Educational Administration; Educational Technology; Pedagogy; STEM Education; College Teaching; Qualitative Inquiry; Research, Evaluation, Measurement, and Statistics; Special Education; Curriculum Studies; Media and Culture		
Hours Subtotal		9
Independent Research		
CIED 6000	Doctoral Dissertation	15
Hours Subtotal		15
Total Hours		69

¹ Requires REMS 5013 and REMS 5953 as prerequisites.

² Requires REMS 6003 as prerequisite.

³ Requires REMS 6013 as prerequisite.

⁴ Must take if no equivalent course has been taken in Master's program.

Education: Social Foundations of Education Requirements

- All students admitted into the Ph.D. degree option in Social Foundations are expected to meet all university requirements and the requirements for admission to the Ph.D. in Education. Students with little or no background in social foundations may be required to take additional leveling coursework. The Social Foundations admission committee determines such prerequisite considerations. Specific

graduate courses that may be required as a leveling course include SCFD 5223, SCFD 5873, SCFD 5923, SCFD 5990, SCFD 5998.

- Students will be expected to use technology resources appropriately in course projects, assignments, and research. Ph.D. in Education (69 credit hours minimum, with typically no more than two 5000-level courses (in addition to SCFD 5713, SCFD 5883, if these courses are taken as part of Ph.D. coursework). Leveling courses are not included in the 69 hours.)

Educational Psychology: Educational Psychology, PhD

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 68

Code	Title	Hours
Domain I - Research and Inquiry		
<i>Required Courses for Domain I</i>		
REMS 6003	Analyses of Variance	3
REMS 6013	Multiple Regression Analysis in Behavioral Studies	3
SCFD 6113	Theoretical Foundations of Inquiry	3
Other coursework recommended for expertise in the Research and Inquiry Domain:		9
REMS 5963	Computer Applications in Nonparametric Data Analyses	
REMS 6023	Psychometric Theory	
REMS 6033	Factor Analysis in Behavioral Research	
SCFD 6123	Qualitative Research I	
SCFD 6193	Qualitative Research II	
REMS 6373	Program Evaluation	
REMS 6383	Program Evaluation II	
REMS 6663	Applied Multivariate Research in Behavioral Studies	
REMS 6673	Item Response Theory	
REMS 6683	Multilevel Modeling Methods in Education	
REMS 6693	Structural Equation Modeling for Behavioral and Educational Research	
CIED 6253	Designing and Conducting Mixed Methods Research	
Hours Subtotal		18
Domain II: Foundations of Educational Psychology		
<i>Required Courses</i>		
EPSY 5001	Colloquium: Educational Psychology	1
EPSY 6001	Colloquium II: The Job Search in Educational Psychology and Related Fields	1
EPSY 6153	Advanced Research in Educational Psychology	3
EPSY 6213	Advanced Educational Psychology	3
EPSY 6533	Human Motivation	3
Select at least five courses from the following (two must be 6000-level): ¹		15
EPSY 5123	Academic Writing in the Learning Sciences	
EPSY 5403	Issues in Adolescent Development	
EPSY 5473	Psychology of Adult Learning	
EPSY 5603	Developmental Issues in Instruction	
EPSY 5663	Creativity for Teachers	
EPSY 5963	Developing Resources to Support Educational Programs	
EPSY 5983	Instructional Effectiveness in Higher Education	

EPSY 6043	Adult Development	
EPSY 6163	Emotion and Cognition	
EPSY 6443	Theories and Problems in Educational Psychology	
EDTC 6613	Instructional Systems Design	
SCFD 6983	Diversity and Equity Issues in Education	
Although these courses are often completed prior to the doctoral program, they are not pre-requisites for admission and may be counted towards Domain II's electives with committee approval.		
EPSY 5103	Human Development in Psychology	
EPSY 5463	Psychology of Learning	
Hours Subtotal		26
Area of Expertise Domain III:		
Select 9 hours		9
Student-scholars select a minimum of 9 hours related to an area of expertise based on student career goals, expertise, interest and background. Examples of areas of expertise may derive from the other domains, such as measurement or program evaluation in a specific context; instructional development for students with diverse needs; studies of gender, race, class, ability; multicultural issues in education; adult development or aging learners; social and emotional needs of children, and many others.		
Hours Subtotal		9
Dissertation (Doctoral Thesis)		
EPSY 6000	Doctoral Dissertation	15
Hours Subtotal		15
Total Hours		68

¹ And other courses approved by graduate advisory committee.

Graduate College Doctor of Philosophy (PhD) Requirements

Learn more about Graduate College 2026-2027 Doctor of Philosophy (PhD) Degree Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Educational Psychology: Research, Evaluation, Measurement and Statistics, PhD

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 66 (Beyond the Master's Degree)

Code	Title	Hours
Inquiry Core ¹		
REMS 6003	Analyses of Variance	3
REMS 6013	Multiple Regression Analysis in Behavioral Studies	3
REMS 6023	Psychometric Theory	3
REMS 6373	Program Evaluation	3
REMS 6663	Applied Multivariate Research in Behavioral Studies	3
SCFD 6113	Theoretical Foundations of Inquiry	3
SCFD 6123	Qualitative Research I	3
Hours Subtotal		21
Educational Psychology Degree Core		
Select a minimum of 9 hours:		9
<i>Human Development</i>		
EPSY 5103	Human Development in Psychology	
EPSY 6043	Adult Development	
<i>Learning and Cognition</i>		
EPSY 5463	Psychology of Learning	
EPSY 6163	Emotion and Cognition	
EPSY 6533	Human Motivation	
Hours Subtotal		9
Research, Evaluation, Measurement, and Statistics Specialization		
Select 12 hours from the following, including 9 hours at 6000-level:		12
(The following is not an exhaustive list. Additional relevant coursework may be found in other departments: e.g., PSYC, STAT, SOC, HDFS. Check Catalog for applicable prerequisites.)		
REMS 5373	Educational Measurements	
REMS 5963	Computer Applications in Nonparametric Data Analyses	
REMS 6033	Factor Analysis in Behavioral Research	
REMS 6320	Doctoral Seminar in REMS	
REMS 6383	Program Evaluation II	
REMS 6663	Applied Multivariate Research in Behavioral Studies	
REMS 6673	Item Response Theory	
REMS 6683	Multilevel Modeling Methods in Education	
REMS 6693	Structural Equation Modeling for Behavioral and Educational Research	
REMS 6850	Directed Reading	
STAT 5043	Sample Survey Designs	
SCFD 6190	Qualitative Research: Selected Methods	
SCFD 6193	Qualitative Research II	

Hours Subtotal		12
Cognate Area		
Select minimum of 9 hours:		9
Courses will be selected from one or two cognate areas to develop and improve knowledge and skills in a content and/ or methodological area. Following are some examples of cognate areas and relative choices in coursework. This is not an exhaustive list.		
<i>Student Development and Higher Education</i>		
EDLE 5953	Developing Educational Organizations	
<i>Mathematical Sciences</i>		
MATH 5593	Methods of Applied Mathematics	
STAT 5093	Statistical Computing	
STAT 5123	Probability Theory	
STAT 5133	Stochastic Processes	
STAT 5213	Bayesian Analysis	
STAT 6113	Probability Theory	
STAT 6223	Advanced Statistical Inference	
<i>Institutional Research</i>		
STAT 5033	Nonparametric Methods	
<i>Measurement and Cognitive Psychology</i>		
PSYC 4813	Psychological Testing	
EPSY 5663	Creativity for Teachers	
EPSY 6533	Human Motivation	
EPSY 6163	Emotion and Cognition	
PSYC 5823	Cognitive Processes	
Hours Subtotal		9
Qualifying Exams		
Students must pass a written and oral comprehensive exam. Passing the exams qualifies students for Admission to Doctoral Candidacy, and they should move to the dissertation proposal phase.		
Dissertation Hours		
REMS 6000	Doctoral Dissertation	15
Hours Subtotal		15
Applied Experience		
Each student will select two suggested experiences.		
Total Hours		66

¹ REMS 5013 and REMS 5953 are required prerequisites.

Total Hours: 67 (beyond the Master's Degree)

Code	Title	Hours
Lecture Courses		
Select 27 hours that may include up to 6 credit hours of ECEN 5070 or equivalent and up to 24 credit hours transferred from the Master's plan of study with approval of the student's graduate advisory committee.		27
Preliminary PhD Research and Proposal		
ECEN 6050	Preliminary PhD Research and Proposal	3
PhD Seminar Series		
ECEN 6001	PhD Seminar Series	1
Dissertation Research		
Thirty (30) hours from:		30
ECEN 6000	Dissertation	
Additional Courses		
May include additional lecture courses and/or dissertation research hours as approved by the student's graduate advisory committee.		6
Additional Requirements		
1) Students with a master's degree must take 9 credit hours of ECE lecture courses.		
2) A maximum of 24 credit hours applied to a Master's plan of study may be applied to the PhD plan of study with approval of the advisory committee.		
3) Up to 3 credit hours of ECEN 5080 may be included toward the lecture courses requirement with approval of the advisory committee.		
4) ECEN 6050 is required in the first semester.		
Total Hours		67

Total Hours: 67 (beyond the Bachelor's Degree)

FRNS 6513	Advanced Methods in Forensic Genetics
FRNS 6663	Network Forensics
FRNS 6673	Mobile Device Forensics
FRNS 6683	Computer Forensics, Extractions and Analysis
FRNS 6713	Applied Forensic Theory
FRNS 6723	Research Design and Methods
FRNS 6733	Juvenile Issues in Forensic Sciences
FRNS 6743	Doctoral Forensic Science Theory
FRNS 6753	Doctoral Forensic Science Applications
FRNS 6833	Advanced Identification of Destructive Device Fuzing Systems
FRNS 6843	Advanced Destructive Device Circuit Exploitation
FRNS 6853	Advanced Electrical Theory and Failure Analysis in Forensic Fire Investigations
FRNS 6903	Advanced Forensic Examination of Firearms
FRNS 6913	Advanced Toolmark Examination and Identification
FRNS 6923	RCIED - Advanced Analysis and Mitigation
FRNS 6933	Shooting Reconstruction for Examiners
FRNS 6970	Advanced Directed Readings in Forensic Sciences (Maximum of 3 hours can apply to this degree sheet)
FRNS 6990	Advanced Special Topics in Forensic Sciences (Maximum of 9 hours can apply to this degree sheet)

Total Hours**60**

in current theory and application. Upon completion of these courses with a grade of B or better, students can count six hours from the leveling courses and up to 24 credit hours of department approved aged graduate-level coursework towards the 30 hours of credit needed for the 60-credit hour doctoral degree program. The Plan of Study will include these six refresher course hours and up to 24 credit hours from their department-approved aged coursework.

FRNS 5883	History of Firearm Identification
FRNS 5893	Admissibility of Firearm Identification
FRNS 5923	Intelligence Investigations for Forensic Genealogy
FRNS 5933	Introduction to Forensic Genealogy
FRNS 5943	Forensic Management and Organizational Development
FRNS 5960	Forensic Problem Solving through Applied Research

FRNS 5963	Forensic Statistics
FRNS 5970	Directed Readings in Forensic Sciences (Maximum of 6 hours can apply to this degree.)
FRNS 5990	Special Topics in Forensic Sciences (Maximum of 15 hours can apply to this degree.)
FRNS 6083	Advanced Forensic Statistics
FRNS 6113	Advanced Energetic Materials Chemistry and Engineering
FRNS 6123	Advanced Fire Dynamics
FRNS 6133	Advanced Forensic Genealogy
FRNS 6143	Applications of Forensic Genealogy
FRNS 6163	Blast Modeling
FRNS 6173	Advanced Interdisciplinary Post Blast Investigation
FRNS 6183	Advanced Computer Fire Modeling
FRNS 6243	Historical Evolution of Forensic Genetics
FRNS 6263	Threat Assessment and Management of Violent Extremism
FRNS 6273	Threat Assessment and Management of Workplace Violence
FRNS 6283	Threat Assessment and Management of Violence in Schools
FRNS 6293	Threat Assessment and Management of Stalking
FRNS 6400	Case Studies in Forensic Science (Maximum of 9 hours can apply to this degree.)
FRNS 6423	Advanced Blast Injuries and Effects
FRNS 6513	Advanced Methods in Forensic Genetics
FRNS 6663	Network Forensics
FRNS 6673	Mobile Device Forensics
FRNS 6683	Computer Forensics, Extractions and Analysis
FRNS 6703	Advanced Forensic Intelligence Analysis
FRNS 6713	Applied Forensic Theory
FRNS 6723	Research Design and Methods
FRNS 6733	Juvenile Issues in Forensic Sciences
FRNS 6800	Critical Readings in Forensic Sciences (Maximum of 3 hours can apply to this degree.)
FRNS 6833	Advanced Identification of Destructive Device Fuzing Systems
FRNS 6843	Advanced Destructive Device Circuit Exploitation
FRNS 6853	Advanced Electrical Theory and Failure Analysis in Forensic Fire Investigations
FRNS 6903	Advanced Forensic Examination of Firearms
FRNS 6913	Advanced Toolmark Examination and Identification
FRNS 6923	RCIED - Advanced Analysis and Mitigation
FRNS 6933	Shooting Reconstruction for Examiners

FRNS 6970 Advanced Directed Readings in Forensic Sciences (Maximum of 3 hours can apply to this degree.)

FRNS 6990 Advanced Special Topics in Forensic Sciences (Maximum of 9 hours can apply to this degree.)

Other courses not listed here, but deemed relevant to completion of dissertation research, may satisfy electives requirement with permission from student's Graduate Faculty Advisory Committee.

Admission to candidacy must occur at least six months prior to the date of the final dissertation defense.

Hours Subtotal	0-30
Total Hours	60

¹ Elective hours based on hours needed to supplement less Dissertation hours.

Total Hours		60

Students admitted to the program with department-approved aged graduate-level coursework are required to take two refresher courses in current theory and practice. Upon completion of these courses with a grade of B or better, students can count six hours from the leveling courses and up to 15 credit hours of approved aged graduate-level coursework toward the 21 hours of credit needed for the 60-credit-hour doctoral degree program. The Plan of Study will include these six refresher course hours and up to 15 credit hours from their department-approved aged coursework.

General Graduate College Requirements

- A minimum Grade-Point-Average of 3.00 is required
- A minimum Grade of "C" is required in all degree applicable courses
- No courses utilizing the Pass-No Pass grading system are permitted
- GRAD 5082 or GRAD 5092 may not be used to meet degree requirements

Additional Doctor of Philosophy (PhD.) Requirements

- 90 credits beyond the Bachelor's degree, 60 credits beyond the Master's degree are required
- At least seventy-five percent of coursework on the Plan of Study must include 5000 and 6000 level courses
- A minimum of 15 hours at the 6000 level with a grade of SR for the doctoral dissertation must be complete. The maximum number of dissertation hours (6000 with a grade of SR) permissible on a Plan of Study must not exceed three-fourths of the total credit hours in the approved graduate degree program
- Credit for all courses on a graduate Plan of Study must have been awarded within 10 years of completion of all degree requirements
- A minimum of 30 in-residence credit hours are required

Non-Course Requirements

- Doctoral Candidacy
- Dissertation Defense
- Dissertation Submission/Approval

Graduate College Doctor of Philosophy (PhD) Requirements

Student must complete 27 hours of MSE or other approved 5000- and 6000-level courses offered at OSU from preselected list of MSE, CHE, ECEN, or MAE courses, or additional courses in engineering or science per committee approval.		27
Hours Subtotal		27
Dissertation		
Thirty-six hours from:		36
MSE 6000	Doctoral Dissertation	
Hours Subtotal		36
Total Hours		72

Total Hours: 60 (Group II - Beyond the Master's Degree from Outside OSU)

Code	Title	Hours
Required Courses		
Select from the following:		9
MSE 5013	Advanced Thermodynamics of Materials	
MSE 5023	Diffusion and Kinetics	
MSE 5043	Advanced Materials Characterization	
MSE 6010	Materials Science and Engineering Seminar for PhD Students	
Hours Subtotal		9
Electives		
Select 21 hours of elective MSE or other approved 5000- and 6000-level courses offered at OSU.		21
<i>From pre-selected list of MSE, CHE, ECEN, or MAE courses, or additional courses in engineering or science per committee approval.</i>		
Hours Subtotal		21
Dissertation		
Thirty hours from:		30
MSE 6000	Doctoral Dissertation	
Total Hours		60

Total Hours: 60 (Group III - Beyond the Master's Degree from OSU)

Code	Title	Hours
Required Courses		
Group III student must meet the Required Course requirements of MSE 5000- and 6000-level courses offered at OSU. The student in this Group III should have already completed the three required courses for the PhD program during his/her MS degree in Materials Science and Engineering at OSU. If any of the remaining Required Courses were taken as an Elective by the student during his/her MS degree, they will not be required to take them again. However, if the student had not completed any of the remaining Required Courses during his/her MS degree in Materials Science and Engineering at OSU, the student must take them to complete the Required Course requirements for PhD degree in MSE at OSU.		
Select from the following:		9
MSE 5013	Advanced Thermodynamics of Materials	
MSE 5023	Diffusion and Kinetics	
MSE 5043	Advanced Materials Characterization	
MSE 6010	Materials Science and Engineering Seminar for PhD Students	
Electives		
Group III student must complete a minimum of 15 hours and a maximum of 30 hours of required and elective coursework for his/her PhD degree in MSE at OSU. This includes the hours for any Required Courses taken after enrollment in the MSE PhD program at OSU. Elective Courses taken by the student at OSU which were used toward fulfilling his/her MS degree requirements in MSE at OSU, will not be considered toward his/her PhD degree in MSE. The student will be allowed to use a maximum of 15 hours of coursework toward his/her PhD degree in MSE at OSU, i.e., the hours for core courses for the MS degree program.		15-30
Dissertation		
Thirty to forty-five (30-45) hours from:		30-45
MSE 6000	Doctoral Dissertation	
Total Hours		60

Additional Materials Science and Engineering, PhD, Requirements

- Upon approval by the committee, students may choose other appropriate elective courses from engineering, physics and chemistry departments.
- Requirement for taking the "Required" courses for Group III Ph.D. students will be waived if they have taken that course while doing their M.S. degree at OSU. The same course however, cannot be counted towards fulfilling the credit hour requirements for two degrees (M.S. and Ph.D.) at OSU. The student will be required to fulfill the remaining coursework credit hour requirement for the Ph.D. degree by taking "Elective" courses.
- Students entering the Ph.D. program without an undergraduate/graduate degree in Materials Science and Engineering or related degree will be required to complete the ENSC 3313 Materials Science (undergraduate course) with an "A" grade or better in their first year at OSU. This will not be counted towards their degree requirements.

Graduate College Doctor of Philosophy (PhD) Requirements

Learn more about Graduate College 2026-2027 Doctor of Philosophy (PhD) Degree Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Graduate Certificates

- 3D Fashion Design/Digital Product Creation, GCRT (p. 3126)
- Accounting, GCRT (p. 3127)
- Advanced Sports Medicine Concepts, GCRT (p. 3128)
- Ag Sciences & Natural Resources Land-Grant University Faculty Preparation, GCRT (p. 3129)
- Aging Studies, GCRT (p. 3130)
- Aviation/Aerospace Administration, GCRT (p. 3131)
- Bioinformatics, GCRT (p. 3132)
- Brand Communication, GCRT (p. 3133)
- Building Level Leadership, GCRT (p. 3134)
- Business Analytics and Data Science, GCRT (p. 3135)
- Business Sustainability and Nonprofit Management, GCRT (p. 3136)
- Business, GCRT (p. 3137)
- Collaborative Piano, GCRT (p. 3138)
- College Teaching, GCRT (p. 3139)
- Comparative and International Education, GCRT (p. 3140)
- Construction Project Administration, GCRT (p. 3141)
- Dietetics, GCRT (p. 3142)
- Digital Design in Design & Merchandising, GCRT (p. 3143)
- Digital Forensics & Incident Response, GCRT (p. 3144)
- District Level Leadership, GCRT (p. 3145)
- Dyslexia, GCRT (p. 3146)
- Educational and Psychological Measurement, GCRT (p. 3147)
- Effective Teaching in Elementary Schools, GCRT (p. 3148)
- Effective Teaching in Secondary Schools, GCRT (p. 3149)
- Elementary Mathematics Specialist, GCRT (p. 3150)
- Engineering and Technology Management, GCRT (p. 3151)
- Entrepreneurship, GCRT (p. 3152)
- Environmental Science with Regulatory Certifications, GCRT (p. 3153)
- Facilitating Career Development, GCRT (p. 3154)
- Family Financial Planning, GCRT (p. 3155)
- Finance and Investment Banking, GCRT (p. 3156)
- Food Safety Management, GCRT (p. 3157)
- Food Safety Science, GCRT (p. 3158)
- Forensic Arson, Explosives, Firearms, and Toolmarks Investigation, GCRT (p. 3159)
- Forensic Crime Analysis, GCRT (p. 3161)
- Forensic Criminal Intelligence, GCRT (p. 3162)
- Forensic Genealogy, GCRT (p. 3163)
- Forensic Investigation of Impaired Driving, GCRT (p. 3164)
- Forensic Investigative Sciences, GCRT (p. 3165)
- Forensic Psychology, GCRT (p. 3167)
- Forensic Threat Assessment and Management, GCRT (p. 3168)
- Forensic Weapons of Mass Destruction Investigation, GCRT (p. 3169)
- Geographic Information Systems, GCRT (p. 3170)
- Global Issues, GCRT (p. 3171)
- Grassland Management, GCRT (p. 3172)
- Health Analytics, GCRT (p. 3173)
- Health Care Administration, GCRT (p. 3174)
- Health Care Administration: Compliance, GCRT (p. 3175)
- Health Care Administration: Finance, GCRT (p. 3176)
- Health Care Administration: Global Health, GCRT (p. 3177)
- Hidden Student Populations, GCRT (p. 3178)
- Higher Education Administration, GCRT (p. 3179)
- Hospitality and Tourism Analytics, GCRT (p. 3180)
- Human Resource Management, GCRT (p. 3181)
- Information Assurance, GCRT (p. 3182)
- Integrative Design of Building Envelope, GCRT (p. 3183)
- Interdisciplinary Toxicology, GCRT (p. 3184)
- International Disaster and Emergency Management, GCRT (p. 3185)
- K-12 STEM Educator, GCRT (p. 3186)
- Learning and Motivation, GCRT (p. 3187)
- Mathematics, GCRT (p. 3188)
- Medical Education, GCRT (p. 3189)
- Medical Sciences, GCRT (p. 3190)
- Museum and Curatorial Studies, GCRT (p. 3191)
- Neuroscience, GCRT (p. 3192)
- Non-Profit Management, GCRT (p. 3193)
- Nursing Leadership, GCRT (p. 3194)
- Online Teaching, GCRT (p. 3195)
- Program Evaluation, GCRT (p. 3196)
- Public Health, GCRT (p. 3197)
- Quantum Information Science, GCRT (p. 3198)
- Recreation and Leisure Management, GCRT (p. 3199)
- School Library Certification, GCRT (p. 3200)
- Special Education, GCRT (p. 3201)
- Sport Communication, GCRT (p. 3202)
- Statistical Methods and Analyses in Educational and Behavioral Sciences, GCRT (p. 3203)
- Statistics, GCRT (p. 3204)
- Student Affairs, GCRT (p. 3205)
- Substance Abuse Counseling, GCRT (p. 3206)
- Supply Chain and Logistics, GCRT (p. 3207)
- Teacher Development, Conflict Transformation, and Compassionate Education, GCRT (p. 3208)
- Teaching English to Speakers of Other Languages, GCRT (p. 3209)
- Tribal Health Care Administration, GCRT (p. 3210)
- Workforce and Adult Education, GCRT (p. 3211)

3D Fashion Design/Digital Product Creation, GCRT

Ag Sciences & Natural Resources Land-Grant University Faculty Preparation, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Required Courses		
AECL 5201	Faculty Preparation in Agricultural Sciences and Natural Resources Seminar Series (one credit hour per semester for three semesters)	3
Elective Courses		
Select one course from each of the three following areas:		9
<i>Teaching (select one of the following):</i>		
AGED 5813	College Teaching of Agriculture and Natural Resources	
AGED 5823	Advanced Methods of Teaching Agriculture	
AECL 6363	Experiential Learning Theory in Agricultural Settings	
EPSY 5983	Instructional Effectiveness in Higher Education	
HESA 6713	Effective Teaching in College and Universities	
CIED 5823	Mindfulness, Curriculum, and Teaching	
<i>Research (select one of the following):</i>		
AGCM 5143	Writing for Scholarly Publications in Agricultural Sciences and Natural Resources	
GRAD 5193	Preparing Publishable Manuscripts	
AGED 5203	Grant Seeking	
HORT 5553	Scientific Writing in Horticulture	
<i>Extension/Outreach (section one of the following):</i>		
AECL 6223	Program Evaluation in Agriculture and Extension	
AGED 5623	Volunteer Management in Agricultural and Extension Education	
AECL 5863	Methods of Technological Change	
AGLE 6203	Extension Program Development	
AGED 5123	Adult Programs in Agricultural and Extension Education	
AGIN 5723	Participatory Systems Modeling	
NREM 5313	Human Dimensions of Natural Resources	
MC 5953	Strategic Health Communications Campaigns	
Total Hours		12

Graduate College Certificate Requirements

MKTG 5133	Marketing Management	
Hours Subtotal		9
Total Hours		15

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Building Level Leadership, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Required Courses		
Select four courses (12 hours) from the following:		12
EDLE 5813	Leadership Theory and Ethical Decision Making	
EDLE 5953	Developing Educational Organizations	
EDLE 5253	The Principalship	
EDLE 5323	School Finance	
EDLE 5723	Education Law	
EDLE 5473	Supervision of Instruction	
EDLE 5893	Field Studies Intern II	
Total Hours		12

Completion of the Graduate Certificate in Building Level Leadership fulfills part of the requirements for recommendation to the Oklahoma State Department of Education for principal certification. Additional courses or internship experiences may be required for principal certification. Advisement is provided by EDLE faculty.

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Business Analytics and Data Science, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Required Courses		
BAN 5733	Descriptive Business Analytics	3
BAN 5743	Predictive Business Analytics	3
Hours Subtotal		6
Electives		
Select 6 hours from the following:		6
BAN 5511	Web Analytics and Digital Marketing	
BAN 5521	GIS Applications in Marketing Analytics	
BAN 5551	Optimization Applications in Marketing Analytics	
BAN 5561	Customer Lifetime Value Models in Marketing	
BAN 5563	Strategic Marketing and Business Analytics	
BAN 5753	Advanced Business Analytics	
BAN 5763	Advanced Marketing Research Analytics	
MKTG 5233	Global Competitive Environment	
MKTG 5243	Base SAS Programming for Database Marketing	
MKTG 5253	Advanced SAS Programming for Marketing Analytics	
MKTG 5553	International Marketing Strategy	
MSIS 5193	Programming for Data Science and Analytics I	
MSIS 5223	Programming for Data Science and Analytics II	
MSIS 5303	Prescriptive Analytics	
MSIS 5413	Advanced Data Science Applications	
MSIS 5503	Statistics for Data Science	
MSIS 5633	Predictive Analytics Technologies	
MSIS 5643	Graduate Database Management	
MSIS 5663	Advanced Data Wrangling	
MSIS 5673	Descriptive Analytics and Visualization	
One of the following may be used as an elective for the GCRT BADS:		
IEM 5003	Probability and Statistics for Engineers	
IEM 5013	Introduction to Optimization	
IEM 5603	Project Management	
IEM 5703	Discrete System Simulation	
IEM 5723	Data, Process and Object Modeling	
IEM 5763	Supply Chain Strategy	
Other graduate courses as approved by program director		
Hours Subtotal		6
Total Hours		12

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Business Sustainability and Nonprofit Management, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Required Core Courses		
MGMT 5033	Management of Sustainable Enterprises	3
or MGMT 5083	Corporate and Social Responsibility

Digital Design in Design & Merchandising, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Required Courses		
DM 5073	Application of Virtual and Augmented Reality	3
DM 5173	Advanced Digital Design Communication	3
Electives		
Select six hours from the following:		6
DM 5113	Theories of Creative Process in Design and Merchandising	
DM 5373	Topics in Building Information Modeling	
DM 5043	Technology in Apparel Retail and Consumer Experiences	
Other elective approved by Advisor		
Total Hours		12

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Digital Forensics & Incident Response, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
FRNS 5683	Digital and Multimedia Evidence for Investigators	3
FRNS 6683	Computer Forensics, Extractions and Analysis	3
FRNS 6663	Network Forensics	3
FRNS 6673	Mobile Device Forensics	3
Total Hours		12

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

District Level Leadership, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Required Courses		
Select four courses (12 hours) from the following:		12
EDLE 6873	Evaluating District Programs	
EDLE 6633	Politics, Power and Partnerships in Education	
EDLE 6493	Literature Review for School Improvement	
EDLE 6483	School Leadership, Culture and Ethics	
EDLE 6603	Theoretical Foundations of Leadership	
EDLE 6853	Research Traditions in Educational Leadership	
EDLE 6353	Data for District Improvement	
EDLE 6453	Special Topics in Education Law	
EDLE 6363	Strategic and Financial Planning in Educational Organizations	
EDLE 6393	Schools as Human Systems	
EDLE 6893	Internship in Education II	
Total Hours		12

Completion of the Graduate Certificate in District Level Leadership fulfills part of the requirements for recommendation to the Oklahoma State Department of Education for superintendent certification. Additional courses or internship experiences may be required for superintendent certification. Advisement is provided by EDLE faculty.

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Dyslexia, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 17

Code	Title	Hours
CDIS 5542	Intro to Dyslexia	2
CDIS 5552	Language Processing for Reading and Writing	2
CIED 5893	Reading Processes and Practices GR 1-8	3
SPED 5673	Improving Literacy Skills of Individuals with Disabilities	3
CDIS 5562	Dyslexia and the Brain	2
CDIS 5572	Assessment of Dyslexia	2
CIED 5493	Multisensory Phonics Instruction	3
Total Hours		17

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Educational and Psychological Measurement, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Requirements		
REMS 5953	Statistical Methods in Education	3
Select 9 hours of the following:		9
REMS 5373	Educational Measurements	
REMS 6023	Psychometric Theory	
REMS 6033	Factor Analysis in Behavioral Research	
REMS 6673	Item Response Theory	
Total Hours		12

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Effective Teaching in Elementary Schools, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Required Common Core		
CIED 5373	Design and Management of the Elementary School Classroom	3
CIED 5893	Reading Processes and Practices GR 1-8	3
SMED 5013	Mathematics Education: Theory and Practice(Grade 1-4)	3
Select three hours from the following:		3
SPED 5623	Characteristics of Students with Mild/ Moderate Disabilities	
SPED 5683	Models of Instruction in the Inclusive Classroom	
CIED 5323	Teaching Social Studies in the Schools	
CIED 5343	Introduction to K-12 English Language Learners	
SMED 5083	Teaching Science in the Elementary School (Grades 1-8)	
Total Hours		12

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Effective Teaching in Secondary Schools, GCRT

Requirements for Students Matriculating in or before Academic Year

2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Required Courses		
To achieve certificate objectives, students who are already alternative or emergency certified would complete the following twelve hours of coursework:		
CIED 5333	Effective Classroom Management for Secondary Schools	3
CIED 5343	Introduction to K-12 English Language Learners	3
SPED 5623	Characteristics of Students with Mild/Moderate Disabilities	3
or SPED 5683	Models of Instruction in the Inclusive Classroom	
Select three hours from the following:		3
CIED 5403	Teaching and Learning in the Secondary Schools: English Language Arts Methods	
CIED 5413	Teaching and Learning in the Secondary Schools: Social Studies Methods	
SMED 5143	Methods for Teaching Secondary Science	
SMED 5153	Methods for Teaching Secondary Math	
AGED 5823	Advanced Methods of Teaching Agriculture	
HDFS 5903	Instructional Methods in Family and Consumer Sciences	
Total Hours		12

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Elementary Mathematics Specialist, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 18

Code	Title	Hours
Required Courses		
SMED 5253	Teaching Rational Number Concepts, Proportional Reasoning, and Classroom Interactions	3
SMED 5273	Number Concepts and Assessment at the Elementary Level (PK-6)	3
SMED 5913	Teaching Geometry and Spatial Visualization	3
SMED 5923	Teaching Algebra and Mathematical Tasks	3
SMED 5933	Teaching Data and Probability in Schools	3
SMED 5943	Mathematics Leadership and Coaching (includes a minimum of 30 hours of field experience)	3
Each of these courses are tied directly to the State EMS standards.		
Total Hours		18

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Engineering and Technology Management, GCRT

Requirements for Students Matriculating in or before Academic Year

2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Required Course		
EM 5111	Introduction to Strategy, Technology and Integration	1
Elective Courses		
Select 11 hours of the following:		11
EM 5143	Strategic Decision Analysis for Engineering and Technology Managers	
EM 5153	Foundations of Engineering Management	
EM 5163	Business Innovation and Technology	
EM 5183	Introduction to Systems Engineering	
EM 5221	Engineering Teaming	
EM 5241	Strategic Project Management	
EM 5253	Engineering Problem Solving and Decision-Making	
EM 5283	Strategic Planning	
EM 5291	Failure Mode and Effects Analysis in Design	
EM 5341	Leadership Strategies for Technical Professionals	
EM 5351	Planning Technical Projects	
EM 5413	Engineering Economic Analysis	
EM 5943	Lean Sigma Implementation	
Total Hours		12

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Entrepreneurship, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Required Courses		
EEE 5233	Ideation, Creativity & Innovation	3
EEE 5333	Launching a Business: The First 100 Days	3
EEE 5863	CIE Scholar Practicum	3
Hours Subtotal		9
Electives		
Select 3 hours from the following:		3
EEE 5133	Dilemmas and Debates in Entrepreneurship	
EEE 5223	Entrepreneurial Marketing	
EEE 5263	Corporate Entrepreneurship	
EEE 5313	Emerging Enterprise Consulting	
EEE 5403	Social Entrepreneurship	
EEE 5513	Growing Small and Family Ventures	
EEE 5610	Advanced Entrepreneurship Practicum (Advanced Practicum CIE Scholar - special permission required)	
EEE 5653	Venture Capital	
EEE 5713	Native American Entrepreneurship	
EEE 5993	Preparing Effective Business Plans	
Hours Subtotal		3
Total Hours		12

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Environmental Science with Regulatory Certifications, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
ENVR 5593	Hazardous Waste Operations and Emergency Response: HAZWOPER	3
ENVR 5303	Issues in Environmental Sustainability	3
ENVR 5573	Applied Standards for Environmental Managers	3
ENVR 5583	Safety Aspects for Environmental Managers	3
Total Hours		12

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Facilitating Career Development, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Required Core		
HESA 5223	Career Development for College Students	3
HESA 5213	Student Development Theory	3
HESA 5320	Seminar in Student Development	3
Hours Subtotal		9
Guided Electives		
Choose one of the following:		3
HESA 5463	Legal Issues in Student Affairs	
HESA 5813	Leadership and Development of Higher Education Organizations	
HESA 5343	Assessment Techniques for Higher Education and Student Affairs Professionals	
Hours Subtotal		3
Total Hours		12

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Family Financial Planning, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 18

Code	Title	Hours
Course Requirements		
FFP 5403	Estate Planning for Families	3
FFP 5453	Retirement Planning, Employee Benefits and the Family	3
FFP 5553	Insurance Planning for Families	3
FFP 5603	Investing for the Family's Future	3
FFP 5653	Personal Income Tax for Family Financial Planning	3
FFP 5803	Case Studies in Family Financial Planning	3
Total Hours		18

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Finance and Investment Banking, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

A student may not have a grade lower than "C" and must maintain a grade-point-average of 3.0 over all courses applicable to this certificate.

Total Hours: 15

Code	Title	Hours
Required Courses		
FIN 5013	Business Finance ¹	3
FIN 5053	Theory and Practice of Financial Management	3
FIN 5223	Investment Theory and Strategy	3
FIN 5343	Valuation and Financial Modeling	3
Select 1 course from the following:		3
FIN 5653	Bond Markets	
FIN 5213	International Business Finance	
FIN 5813	Portfolio Management	
FIN 5763	Derivative Securities and the Management of Financial Price Risk	
FIN 5363	Energy Finance	
FIN 5833	Student Managed Investment Fund	
FIN 5103	Securities Industry Essentials	
FIN 5633	Computational Finance	
Other graduate courses as approved by program coordinator.		
Total Hours		15

¹ If a student has taken the equivalent of FIN 5013, they need to take an extra elective.

Graduate College Certificate Requirements

Learn more about Graduate College 2026-2027 Graduate Certificate Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Food Safety Management, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Core Courses		
FDSC 5143	Food Safety Modernization Act	3
FDSC 5233	Food Safety Audit Schemes	3
Electives		
FDSC 5243	Researching Consumer Food Preferences	
AGEC 5423	Agribusiness Management	
AGEC 5303	Agricultural Market Policy and Organization	
EEE 5513	Growing Small and Family Ventures	
Total Hours		12

Mathematics, GCRT

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 12

Code	Title	Hours
Admission requirements: Bachelor’s degree with a GPA of 3.0 and relevant prerequisite course work to enroll in graduate math classes.		
No grade below B. Minimum 9 hours in residence at OSU.		
12 hours of graduate credit math courses (course numbers 5000 or above). No thesis hours allowed (MATH 5000 or MATH 6000). Credits must be transferrable to OSU.		12
At most 3 hours can be taken from the following list:		
MATH 5033	History of Mathematics	
MATH 5073	Introduction to Analysis	
MATH 5203	Intermediate Differential Equations	
MATH 5263	Introduction to Partial Differential Equations	
MATH 5423	Geometry and Algorithms in Three-Dimensional Modeling	
MATH 5453	Mathematical Interest Theory	
MATH 5503	Introduction to Optimization	
MATH 5513	Introduction to Numerical Analysis	
MATH 5673	Combinatorics	
MATH 5713	Number Theory	
MATH 5753	Introduction to Cryptography	
MATH 5803	Groups and Representations	
Recommended courses for PhD students:		
MATH 5023	Advanced Linear Algebra	
MATH 5043	Advanced Calculus I	
MATH 5053	Advanced Calculus II	
MATH 5143	Real Analysis I	
Recommended courses for electrical engineering students interested in Artificial Intelligence:		
MATH 5073	Introduction to Analysis	
MATH 5513	Introduction to Numerical Analysis	
MATH 5533	Matrix Methods in Machine Learning	
MATH 5553	Numerical Analysis for Linear Algebra	
Recommended courses for students in math education and teaching undergraduate mathematics		
MATH 5003	Abstract Algebra I	
MATH 5023	Advanced Linear Algebra	
MATH 5083	Intermediate Analysis	
MATH 5913	Introduction to Research in Mathematics Education	
Recommended for any student pursuing a graduate certificate.		
MATH 5023	Advanced Linear Algebra	
Total Hours		12

Art History, MA

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Thesis Option

Total Hours: 30

Code	Title	Hours
Graduate-level seminars		
ART 5920	Art History Graduate Seminar	3
Hours Subtotal		3
Other Requirements		
ART 5013	Theory and Methods in Art History	3
Select 12 hours in ART related to the student's curricular track or geographic areas.		12
Select 6 hours outside of the art history program but related to the student's area of study and pre-approved by the advisory committee.		6
Hours Subtotal		21
Thesis		
ART 5000 (Offered for variable credit, 1-3 credit hours, maximum of 6 credit hours.)		6
Hours Subtotal		6
Total Hours		30

Other Thesis Requirements

- Completed master's thesis and oral defense.
 - Thesis and defense will be supervised and evaluated as to its success or failure by a committee of 3 full-time faculty members with graduate college standing.
 - At least 2 members of the committee must be drawn from the art history faculty, with one of those being the committee chair.

Non-Thesis Option

Total Hours: 36

Code	Title	Hours
Graduate-level seminars		
ART 5920	Art History Graduate Seminar	3
Other Requirements		
ART 5013	Theory and Methods in Art History	3
Select 15 hours in ART related to the student's curricular track or geographic areas, or or those pre-approved by the advisory committee.		15
Select 15 hours outside of the art history program but related to the student's area of study and preapproved by the advisory committee		15
Total Hours		36

Other Non-Thesis Requirements

- Submission of qualifying paper (after the completion of 27 hours) judged satisfactory by a committee of 3 full-time faculty members with graduate college standing. The qualifying paper must be

between 15-20 pages in length. It may take one of the following forms: 1) A research paper on a focused topic (a traditional seminar paper); or 2) A scholarly catalog essay. The public presentation may take place in the department as part of the art history roundtable series of talks or at an academic conference.

Select 23 hours from the following:		23
BIOM 5010	Special Topics in Biomedical Sciences	
BIOM 5020	Biomedical Sciences Seminar	
BIOM 5116	Clinical Anatomy	
BIOM 5122	Introduction and Survey of Human Structure	
BIOM 5133	Neuroanatomy	
BIOM 5215	Medical Biochemistry	
BIOM 5316	Medical Microbiology and Immunology	
BIOM 5616	Graduate Biomedical Physiology	
BIOM 5621	Introduction to Translational Research	
BIOM 5631	Disease Research in Medicine	
BIOM 5653	Evolutionary Physiology	
BIOM 5663	Graduate Pharmacology	
BIOM 5672	Scientific Outreach Training for Graduate Students	
BIOM 5683	Chronic Inflammation and Cancer Development	
BIOM 5693	Principle Concepts of Cellular and Molecular Immunology	
BIOM 5983	Principles of Neuroscience	
BIOM 5993	Principles of Neuroanatomy	
BIOM 6175	Molecular And Cellular Biology	
BIOM 6183	Cellular and Molecular Biology of Pain	
BIOM 6193	Paleomammalogy	
BIOM 6214	Advanced Topics in Medical Biochemistry	
BIOM 6233	Enzyme Analysis	
BIOM 6243	Human Nutrition	
BIOM 6263	Techniques in Biomedical Sciences	
BIOM 6333	Immunology	
BIOM 6343	Microbial Physiology	
BIOM 6353	Molecular Virology	
BIOM 6363	Immunobiology of Infectious Disease	
BIOM 6413	Graduate General Pathology and Laboratory Medicine	

BIOM 6523	Cardiovascular Physiology and Pharmacology	
BIOM 6543	Environmental Toxicants and the Brain	
BIOM 6583	Neuroinflammation	
BIOM 6613	Environmental Physiology	
BIOM 6643	Neurophysiology	
BIOM 6653	Graduate Seminar In Signal Transduction	
BIOM 6663	Neuroethology	
BIOM 6673	Genomics	
BIOM 6705	Advanced Gross Anatomy	
BIOM 6723	Field Techniques in Vertebrate Paleontology	
BIOM 6733	Human Microbiome in Health and Disease	
BIOM 6743	Foundations in Medical Genetics, Molecular Biology and Development	
BIOM 6752	Foundations in Medical Cell and Tissue Biology	
BIOM 6771	Foundations in Medical Pharmacology	
BIOM 6781	Foundations in Medical Immunology	
BIOM 6793	Foundations in Medical Microbiology	
BIOM 6800	Critical Readings in Biomedical Sciences	
BIOM 6810	Structure and Function of the Human Cardiovascular System	
BIOM 6820	Structure and Function of the Human Gastrointestinal/Hepatic System	
BIOM 6830	Biomedical Perspectives on Human Hematology	
BIOM 6840	Structure and Function of the Human Musculoskeletal System	
BIOM 6843	Vertebrate Osteology	
BIOM 6850	Structure and Function of the Human Renal System	
BIOM 6860	Structure and Function of the Human Reproductive Systems and Reproductive Biology	
BIOM 6870	Structure and Function of the Human Respiratory System	
BIOM 6880	Biomedical Perspectives on Psychiatry	
BIOM 6900	Structure and Function of the Human Endocrine System	
BIOM 6910	Structure and Function of the Human Nervous System	
BIOM 6933	Cornerstones of Graduate Biomedical Sciences	
BIOM 6943	Advanced Vertebrate Paleontology	
BIOM 6952	Paleohistology Techniques	
BIOM 6962	Evolutionary Biomechanics	
BIOM 6972	Role of Nicotinic Acetylcholine Receptors in Neuropsychiatric Disorders	
Hours Subtotal		23

Other courses not listed here, but deemed relevant to degree completion, may satisfy electives requirement with permission from student's Graduate Faculty Advisory Committee.

³ Prerequisite for either REMS 5373 or EPSY 5783.

Counseling: Mental Health Counseling Requirements

- Complete a minimum of 60 graduate credit hours of coursework for the Mental Health Counseling Option and the School Counseling Option.
- Nine (9) credit hours may be transferred from other recognized graduate programs. Tulsa students may transfer up to fifteen (15) credit hours from the University of Oklahoma-Tulsa campus if approved by faculty first.

- The last eight (8) hours must be taken at Oklahoma State University and taken for resident credit.
- As least 24 credit hours must be in 5000 level courses or above. (Students who choose to write a master's thesis for 6 credit hours must take at least 22 credit hours of 5000 level courses.) 4000 level courses taken for graduate credit will not be approved by the Oklahoma licensing board for professional counselors.
- A minimum overall grade point average of 3.00 "B" is required in all academic coursework.
- A grade of B or better must be earned in CPSY 5473, 5493, 5553, 5563, 5583, 5593, and 5683/5693. Students who earn a grade below a B in any of these courses will be required to repeat the course or may be suspended from the program. Students will only be allowed to repeat a course one time to earn a higher grade.

Graduate College Master's Program Requirements

Learn more about Graduate College 2026-2027 Master's Degree Program Requirements (p. 3005). Check the General Graduate College academic regulations for minimal GPA, language proficiency and other general requirements.

Other Degree Requirements

- **Creative Writing Requirements:** As the defining focus of work toward the MFA degree, creative writing coursework makes up the majority of credit hours, in a combination of ENGL 5730: Seminar in Fiction Writing, ENGL 5740: Seminar in Poetry Writing, ENGL 6130: Studies in Fiction Writing, ENGL 6140: Studies in Poetry Writing, ENGL 6160: Studies in Creative Nonfiction, ENGL 5723: Craft and Forms of Poetry Writing or ENGL 5763: Craft and Forms of Fiction Writing, as well as thesis hours.
- **Literature Coursework Requirement:** MFA students are required to take six hours of literature course work at the 5000- or 6000-level.
- **Electives:** Students choose the remaining hours of coursework in consultation with their advisory committees. Course selection should take into account the student's thesis genre, artistic interests, and academic and professional goals. For instance, students interested in going on to PhD work at Oklahoma State University upon completion of the MFA would normally include courses to assist in preparing them for the first-year exam for PhD students.
- **Required Hours at 5000/6000 Level:** All MFA students must complete their coursework at the 5000/6000 level.

Hours Subtotal		9

Electives		
Select a minimum of 23 hours from the following to align with subject area of emphasis:		23
FRNS 5013 or FRNS 5613	Survey of Forensic Sciences Criminalistics and Evidence Analysis	
FRNS 5073	Quality Assurance in Forensic Science	
FRNS 5083	Ethics in Forensic Leadership	
FRNS 5090	Internship in Forensic Sciences (Maximum of 6 hours can apply to this degree.)	
FRNS 5123	Fire Dynamics in Forensic Investigations	
FRNS 5143	Methods in Fire and Explosion Investigation NFPA 921/1033	
FRNS 5183	Computer Fire Modeling	
FRNS 5213	Molecular Biology for the Forensic Scientist	
FRNS 5243	Population Genetics for the Forensic Scientist (Formerly FRNS 5242)	
FRNS 5253	Forensic Casework Training	
FRNS 5263	Forensic Casework Experience	
FRNS 5273	Forensic Threat Assessment and Management	
FRNS 5282	Methods in Forensic Sciences	
FRNS 5293	Violence in Forensic Settings	
FRNS 5303	Forensic Investigation of Impaired Vehicle Operation	
FRNS 5323	Forensic Microbiology	
FRNS 5333	Forensic Chemistry	
FRNS 5343	Forensic Investigation of Clandestine Laboratories	
FRNS 5353	Forensic Investigations Involving Radiological/Nuclear Materials	
FRNS 5363	Forensic Investigations of Chemical/Biological Incidents	
FRNS 5413	Forensic Pathology and Medicine	
FRNS 5423	Blast Injuries and Effects	
FRNS 5453	Fingerprints and Their Role in Forensic Science	
FRNS 5463	Blood Stain and Pattern Analysis	
FRNS 5473	Forensic Crime Scene Processing	
FRNS 5513	Forensic Bioscience	
FRNS 5523	Forensic Toxicology	
FRNS 5533	Drug Toxicity	
FRNS 5543	Advanced Forensic Toxicology	
FRNS 5553	Introduction to Forensic Crime Analysis	
FRNS 5563	Theories in Forensic Crime Analysis	
FRNS 5573	Policing Strategies in Forensic Crime Analysis	
FRNS 5583	Data and Statistics in Forensic Crime Analysis	
FRNS 5622	Crime Scene Laboratory and Moot Court Experience	
FRNS 5633	Open Source Intelligence	
FRNS 5643	Law and Expert Evidence: Firearms and Toolmarks	

FRNS 5673	Introduction to Forensic Intelligence Analysis
FRNS 5683	Digital and Multimedia Evidence for Investigators
FRNS 5703	Psychology of Forensic Intelligence Analysis
FRNS 5713	Forensic Psychology
FRNS 5723	Advanced Forensic Psychology
FRNS 5733	Forensic Victimology
FRNS 5743	Forensic Science Seminar
FRNS 5753	Criminal Behavioral Analysis
FRNS 5813	Building Construction and Fire/Explosion Forensic Examination
FRNS 5823	Forensic Examination of Fire Protection Systems
FRNS 5873	Firearms and Toolmarks
FRNS 5883	History of Firearm Identification
FRNS 5893	Admissibility of Firearm Identification
FRNS 5923	Intelligence Investigations for Forensic Genealogy
FRNS 5933	Introduction to Forensic Genealogy
FRNS 5943	Forensic Management and Organizational Development
FRNS 5960	Forensic Problem Solving through Applied Research (Maximum of 3 hours can apply to this degree.)
FRNS 5963	Forensic Statistics
FRNS 5970	Directed Readings in Forensic Sciences (Maximum of 6 hours can apply to this degree.)
FRNS 5980	Non-Thesis Creative Component in Forensic Sciences (Satisfies the non-thesis creative component requirement for the degree.)
FRNS 5990	Special Topics in Forensic Sciences (Maximum of 15 hours can apply to this degree.)
FRNS 6123	Advanced Fire Dynamics
FRNS 6133	Advanced Forensic Genealogy
FRNS 6143	Applications of Forensic Genealogy
FRNS 6183	Advanced Computer Fire Modeling
FRNS 6263	Threat Assessment and Management of Violent Extremism
FRNS 6273	Threat Assessment and Management of Workplace Violence
FRNS 6283	Threat Assessment and Management of Violence in Schools
FRNS 6293	Threat Assessment and Management of Stalking
FRNS 6400	Case Studies in Forensic Science (Maximum of 9 hours can apply to this degree.)
FRNS 6423	Advanced Blast Injuries and Effects
FRNS 6663	Network Forensics
FRNS 6673	Mobile Device Forensics

FRNS 6683	Computer Forensics, Extractions and Analysis
FRNS 6703	Advanced Forensic Intelligence Analysis
FRNS 6713	Applied Forensic Theory
FRNS 6733	Juvenile Issues in Forensic Sciences
FRNS 6903	Advanced Forensic Examination of Firearms
FRNS 6913	Advanced Toolmark Examination and Identification
FRNS 6933	Shooting Reconstruction for Examiners
FRNS 6990	Advanced Special Topics in Forensic Sciences (Maximum of 9 hours can apply to this degree.)

Hours Subtotal **23**

Other FRNS courses not listed may be used as electives with departmental permission.

This degree requires completion of a capstone requirement.

2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 60

Code	Title	Hours
Core Requirements		
Students are required to take three core graduate level studio courses—Graphic Design Studio; Motion Design Studio; and Interaction Design Studio— three times for a total of 27 credit hours. Faculty will provide students with different design projects for each time they take a Studio. Three (3) additional Studio credits may be taken depending on the student's Plan of Study (POS).		27
ART 5420	Graduate Graphic Design Studio	
ART 5450	Graduate Motion Design Studio	
ART 5460	Graduate Interaction Design Studio	
Hours Subtotal		27
Graphic Design History		
ART 5423	Graduate Study in Graphic Design History	3
Graphic Design Seminar		
ART 5440	Graduate Special Topics in Graphic Design	3
Teaching Practicum		
ART 5413	Graduate Teaching Practicum in Graphic Design	3
Thesis		
Six hours from:		6
ART 5400	Graduate Study: Graphic Design Thesis	
Art History		
Select 3 hours		3
Students will choose among the many graduate-level classes that are available in the Department of Art, Graphic Design and Art History, including Art 5920, Art History Seminar, Art 5613, Art Since 1960, Art 5833, History of Chinese Art, Art 5763, etc.		
Hours Subtotal		18
Electives		15
Elective courses may include the following depending on the student's Plan of Study:		
Three (3) to six (6) credit hours of Graduate Level Courses: in Department of Art, Graphic Design and Art History; College of Education; Department of Design, Housing and Merchandising; Department of Computer Science		
Three (3) to six (6) credit hours of Graphic Design internship		
ART 5410	Graduate Graphic Design Internship	
Additional three (3) credit hours in Graduate Studio Class (Graphic Design, Motion Design and Interaction Design)		
ART 5420	Graduate Graphic Design Studio	
ART 5460	Graduate Interaction Design Studio	
Three (3) hours of thesis or Studio credits		
Hours Subtotal		15

<i>Hospitality and Tourism Management</i>		

HTM 5090	International Hospitality Studies
HTM 5233	Convention and Special Event Management
HTM 5263	Applied Revenue Management in Hospitality and Tourism Management
HTM 5503	Big Data Analytics in Hospitality and Tourism Management
HTM 5850	Special Topics in the Hospitality and Tourism Industry
HTM 5870	Current Issues in the Hospitality and Tourism Industry

(Recommended Outside Elective Courses)

Accounting and Finance

ACCT 5103	Seminar in Contemporary Accounting Theory I
ACCT 5183	MBA Financial Reporting
ACCT 5283	MBA Managerial Accounting
ACCT 5603	Advanced Accounting-based Information Systems

Entrepreneurship

EEE 5223	Entrepreneurial Marketing
EEE 5263	Corporate Entrepreneurship
EEE 5313	Emerging Enterprise Consulting

Human Resources

MGMT 5133	Total Rewards
MGMT 5153	Talent Development
MGMT 5543	Human Resource Analytics
MGMT 5823	Talent Acquisition
LSB 5423	Employment Law

Management

MGMT 5113	Individual and Organizational Behavior
MGMT 5123	Org Design & Research
MGMT 5223	Seminar in Human Resource Management
MGMT 5313	Project Management
MGMT 5533	Leadership Challenges

Marketing

BAN 5511	Web Analytics and Digital Marketing
BAN 5521	GIS Applications in Marketing Analytics
MKTG 5133	Marketing Management
MKTG 5213	Services Marketing
MKTG 5223	Entrepreneurial Marketing
MKTG 5553	International Marketing Strategy
MKTG 5613	Seminar in Consumer Behavior
MKTG 5733	Introduction to Marketing Analytics
MKTG 5743	Advanced Marketing Analytics

Information and Technology

MSIS 5123	Enterprise Resource Planning
MSIS 5133	Advanced Web Based Application Development
MSIS 5623	Information and Network Technology Management
MSIS 5633	Predictive Analytics Technologies
MSIS 5643	Graduate Database Management
MSIS 5673	Descriptive Analytics and Visualization

Business Administration

BADM 5513	Fundamentals of Business Analytics
BADM 5093	Study Abroad: Applied Business Studies
BADM 5200	Selected Master of Business Administration Topics

Hours Subtotal **12**

Thesis

HTM 5000 Master's Thesis 6

Hours Subtotal **6**

Total Hours **30**

Hospitality and Tourism Management Requirements

- 50% of coursework must be in Hospitality and Tourism Management (HTM).
- No fewer than 27 semester hours of 5000-level courses.
- A student can only take a maximum of 3 credit hours of independent study (HTM 5870).
- All coursework must be approved by the committee.
- A Hospitality Internship is required of all students (can be waived with appropriate industry experience by graduate admission committee).
- Students may transfer a maximum of nine graduate credit hours with a grade of "B" or better to OSU with the approval of their advisory committee and the Dean of the Graduate College.
- All requirements must be completed within 7 years. No course on plan of study may be more than 10 years old at the time of graduation.
- None of the leveling credit hours can be included in the plan of study.
- Students entering the MS degree program must have a BS/BA degree in hospitality and tourism management or a related field and relevant work experience. Prerequisite courses will be required for students with other degrees and limited professional experience.

A total of 14 hours of courses chosen from each of the following areas:		
(1)Focus area courses: Identified with graduate advisory committee (minimum 2 courses)		8
(2)Quantitative/Qualitative (choose one)		3
ECON 5213	Econometric Analysis	
REMS 5013	Research Design and Methodology	
REMS 5953	Statistical Methods in Education	
STAT 5013	Statistics for Experimenters I	
Or another course approved by the graduate advisory committee		
(3)Research Methods (choose one)		3
AGEC 5101	Research Methodology	
AECL 5983	Social Sciences Research in Agricultural Sciences and Natural Resources	
SOIL 5112	Research Methods in Plant and Soil Sciences	
HORT 5233	Experimental Horticulture	
AGIN 5353	Advanced Case Studies in Agricultural Marketing and International Development	
Or another course approved by the graduate advisory committee		
AGIN 5800	International Agriculture Internship Experience ^{1,2}	4
AGIN 5000	Master's Thesis/Report in International Agriculture	2
Total Hours		32

¹ International students may substitute another course for the international experience requirement.
² Must be a minimum four-week international experience.

Creative Component

Total Hours: 32

Code	Title	Hours
Course Requirements		
AGIN 5312	Applied Issues in International Agriculture and Natural Resources	2
AGIN 5313	Global Food Security and Sustainability	3
AGIN 5113	Global Agricultural Development Communications	3
One of the following applied agricultural practice courses:		3

AGED 5203	Grant Seeking	
AGIN 5213	Global Agricultural Entrepreneurship	
AGIN 5801	International Agricultural Experience Proposal	1
<i>A total of 14 hours of courses chosen from each of the following areas:</i>		
<i>(1) Focus area courses: Identified with graduate advisory committee (minimum 3 courses)</i>		8
<i>(2) Quantitative/Qualitative (choose one)</i>		3
ECON 5213	Econometric Analysis

<i>Applied Track</i>		
Select one of the following two courses:		
MATH 5023	Advanced Linear Algebra	
MATH 5043	Advanced Calculus I	
Select one of the following two courses:		
MATH 5543	Numerical Analysis for Differential Equations	
MATH 5553	Numerical Analysis for Linear Algebra	
Select four of the following courses:		
MATH 5203	Intermediate Differential Equations	
MATH 5513	Introduction to Numerical Analysis	
MATH 5503	Introduction to Optimization	
MATH 5213	Fourier Analysis and Wavelets	
MATH 5233	Partial Differential Equations	
MATH 5243	Ordinary Differential Equations	
MATH 5253	Advanced Ordinary Differential Equations	
MATH 5543	Numerical Analysis for Differential Equations	
MATH 5553	Numerical Analysis for Linear Algebra	
MATH 5563	Finite Element Methods for Partial Differential Equations	
MATH 5580	Case Studies in Applied Mathematics	
MATH 5593	Methods of Applied Mathematics	
<i>Pure Track</i>		
Option 1		
Required:		
MATH 5043	Advanced Calculus I	
MATH 5053	Advanced Calculus II	
MATH 5003	Abstract Algebra I	
MATH 5013	Abstract Algebra II	
MATH 5303	General Topology	
MATH 5273	Functions of a Complex Variable	
Option 2		
Required:		
MATH 5043	Advanced Calculus I	
MATH 5053	Advanced Calculus II	
MATH 5003	Abstract Algebra I	
MATH 5013	Abstract Algebra II	
Select two of the following courses:		
MATH 5143	Real Analysis I	
MATH 5153	Real Analysis II	

MATH 5283	Complex Analysis I
MATH 5293	Complex Analysis II
MATH 5313	Geometric Topology
MATH 6323	Algebraic Topology I
MATH 5613	Algebra I
MATH 5623	Algebra II
<i>Math Education Track</i>	
Basic areas:	
<i>Analysis</i>	
Select one of the following:	
MATH 5083	Intermediate Analysis
MATH 5043	Advanced Calculus I
<i>Algebra/Number Theory</i>	
Select one of the following:	
MATH 5003	Abstract Algebra I
MATH 5013	Abstract Algebra II
MATH 5023	Advanced Linear Algebra
MATH 5713	Number Theory
MATH 5803	Groups and Representations
<i>Mathematics Education</i>	
Required:	
MATH 5913	Introduction to Research in Mathematics Education
MATH 5893	Advanced Perspectives on Secondary and Collegiate Mathematics
Topical Areas:	
Select 6 hours from the following, with 3 hours from two of the topical areas listed below.	
<i>Analysis and Differential Equations:</i>	
MATH 5043	Advanced Calculus I (if not selected above)
MATH 5053	Advanced Calculus II
MATH 5203	Intermediate Differential Equations
MATH 5263	Introduction to Partial Differential Equations
MATH 5513	Introduction to Numerical Analysis
<i>Algebra and Discrete Mathematics</i>	
MATH 5503	Introduction to Optimization
MATH 5673	Combinatorics
MATH 5753	Introduction to Cryptography
or 3 hours of a course listed above under Algebra/Number Theory which was not used to meet that requirement.	
<i>Geometry:</i>	
MATH 5403	Geometry
MATH 5423	Geometry and Algorithms in Three-Dimensional Modeling
MATH 5443	Differential Geometry of Curves and Surfaces

Code	Title	Hours
Core Courses		
Choose one of the following tracks:		18
<i>Applied Track</i>		
Select one of the following two courses:		
MATH 5023	Advanced Linear Algebra	
MATH 5043	Advanced Calculus I	
Select one of the following two courses:		
MATH 5543	Numerical Analysis for Differential Equations	
MATH 5553	Numerical Analysis for Linear Algebra	
Select four of the following courses:		
MATH 5203	Intermediate Differential Equations	
MATH 5513	Introduction to Numerical Analysis	
MATH 5503	Introduction to Optimization	
MATH 5213	Fourier Analysis and Wavelets	
MATH 5233	Partial Differential Equations	
MATH 5243	Ordinary Differential Equations	
MATH 5253	Advanced Ordinary Differential Equations	
MATH 5543	Numerical Analysis for Differential Equations	
MATH 5553	Numerical Analysis for Linear Algebra	
MATH 5563	Finite Element Methods for Partial Differential Equations	
MATH 5580	Case Studies in Applied Mathematics	
MATH 5593	Methods of Applied Mathematics	
<i>Pure Track</i>		
Option 1		
Required:		
MATH 5043	Advanced Calculus I	
MATH 5053	Advanced Calculus II	
MATH 5003	Abstract Algebra I	
MATH 5013	Abstract Algebra II	
MATH 5303	General Topology	
MATH 5273	Functions of a Complex Variable	
Option 2		
Required:		
MATH 5043	Advanced Calculus I	
MATH 5053	Advanced Calculus II	

MATH 5003	Abstract Algebra I
MATH 5013	Abstract Algebra II
Select two of the following courses:	
MATH 5143	Real Analysis I
MATH 5153	Real Analysis II
MATH 5283	Complex Analysis I
MATH 5293	Complex Analysis II
MATH 5313	Geometric Topology
MATH 6323	Algebraic Topology I
MATH 5613	Algebra I
MATH 5623	Algebra II

Math Education Track

Basic areas:

Analysis

Select one of the following:

MATH 5083	Intermediate Analysis
MATH 5043	Advanced Calculus I

Algebra/Number Theory

Select one of the following:

MATH 5003	Abstract Algebra I
MATH 5013	Abstract Algebra II
MATH 5023	Advanced Linear Algebra
MATH 5713	Number Theory
MATH 5803	Groups and Representations

Mathematics Education

Required:

MATH 5913	Introduction to Research in Mathematics Education
MATH 5893	Advanced Perspectives on Secondary and Collegiate Mathematics

Topical Areas:

Select 6 hours from the following, with 3 hours from two of the topical areas listed below.

Analysis and Differential Equations:

MATH 5043	Advanced Calculus I (if not selected above)
MATH 5053	Advanced Calculus II
MATH 5203	Intermediate Differential Equations
MATH 5263	Introduction to Partial Differential Equations
MATH 5513	Introduction to Numerical Analysis

Algebra and Discrete Mathematics

MATH 5503	Introduction to Optimization
MATH 5673	Combinatorics
MATH 5753	Introduction to Cryptography

or 3 hours of a course listed above under Algebra/Number Theory which was not used to meet that requirement.

Geometry:

MATH 5403	Geometry
MATH 5423	Geometry and Algorithms in Three-Dimensional Modeling
MATH 5443	Differential Geometry of Curves and Surfaces

Statistics:

STAT 5013	Statistics for Experimenters I	
STAT 5023	Statistics for Experimenters II	
STAT 5043	Sample Survey Designs	
STAT 5123	Probability Theory	
STAT 5253	Mathematical Statistics I	
STAT 5543	Applied Regression Analysis	
Hours Subtotal		18

Hours Subtotal		9
Thesis/Research		
Select 6 hours (or more) of supervised research with submission of an approved thesis.		
PHYS 5000	Master's Thesis Research or Report (Or equivalent)	6
or PHYS 6000	Doctoral Dissertation Research	

Hours Subtotal	6
Total Hours	30

Non-Thesis Option

Total Hours: 32

Code	Title	Hours
Required Courses		
PHYS 5453	Mathematical Methods for Physicists	3
PHYS 5613	Quantum Mechanics I	3
Select 9 hours of Photonics core courses from the following with advisor approval:		9
PHYS 5123	Geometrical Optics	
PHYS 5163	Lasers	
PHYS 5303	Physical Optics	
ECEN 5080	Fundamental Topics (Graduate version of ECEN 4843 Design of Lasers and Systems)	
ECEN 5833	Fiber-Optic Communication Systems	
Hours Subtotal		15
Electives		
Select 9 hours from the two groups of electives with a minimum of one course and a maximum of two from Group I. Courses at the graduate level from other departments may be substituted for electives in Group II with Physics Department permission, but alternate courses must have a strong connection to optics and photonics.		9
<i>Group I</i>		
PHYS 5110	Seminar (Graduate version of PHYS 4813 Electromagnetic Radiation)	
PHYS 5313	Electromagnetic Theory	
PHYS 6713	Advanced Electromagnetic Radiation	
ECEN 5613	Electromagnetic Theory	
<i>Group II</i>		
PHYS 5133	Laser Spectroscopy	
PHYS 5663	Solid State Physics I	
PHYS 6313	Quantum Mechanics II	
PHYS 6413	Nonlinear Optics	
PHYS 6423	Quantum Optics	
ECEN 5060	Special Topics (Graduate version of ECEN 4823 Design of Optical Systems)	
ECEN 5843	Microelectronic Fabrication	
ECEN 5853	Ultrafast Optoelectronics	
ECEN 5793	Digital Image Processing	
Hours Subtotal		9
Additional Electives		
Select 6 hours of advanced courses at the graduate level.		6
Hours Subtotal		6
Report		
Students must complete a two-credit hour report.		2
Hours Subtotal		2
Total Hours		32

Graduate College Master's Program Requirements

Plant and Soil Sciences, MS

regulations for minimal GPA, language proficiency and other general requirements.

Requirements for Students Matriculating in or before Academic Year

2026-2027. Learn more about Graduate College Academic Regulation 7.0 (p.).

Total Hours: 30

Code	Title	Hours
Course Requirements		
Select 24 hours from the following:		24
A minimum of 15 hours of 5000-level or higher courses that include:		
PLNT 5020 or SOIL 5020	Graduate Seminar Graduate Seminar	
SOIL 5131	Professional Development Colloquium in Plant and Soil Sciences	
PLNT 5110 or SOIL 5110	Problems and Special Study Problems and Special Study	
9 hours of MATH (including at least 3 hours of STAT in combined BS and MS programs):		
No more than 9 credit hours of 3000- or 4000-level coursework approved for graduate credit.		
Recommended courses at the discretion of the graduate committee that students emphasizing soil science should complete 4 of the 5 courses listed below (or equivalent) during their undergraduate or graduate programs:		
SOIL 5353	Advanced Soil Genesis and Classification	
SOIL 5234	Soil Nutrient Management	
SOIL 5223	Soil Chemical Processes and Impact on Environmental Quality	
SOIL 5683 or SOIL 6583	Soil, Water, and Weather Soil Physics Theory	
SOIL 5383	Advanced Soil Microbiology	
A student may take a maximum of 3 research credit hours. Research hours are to be taken to document student effort in areas not associated with the students thesis. All students must indicate on their Plan of Study whether or not their research will involve human subjects. If human subjects are to be used, approval must be received from the Institutional Research Board (IRB) prior to the beginning of the research.		
PLNT 5230 or SOIL 5230	Research Research	
Hours Subtotal		24
Thesis		
PLNT 5000 or SOIL 5000	Master's Thesis Master's Thesis	6
Hours Subtotal		6
Total Hours		30
