

Special Academic Services, Programs and Facilities

Special Academic Services Office of Student Success

Shannon Baker, PhD – Associate Provost for Student Success

Nick Holmes – Assistant Provost for Student Success

The Office of Student Success provides a variety of services aimed at helping students throughout their academic journey. Additionally, the unit houses a team of exploratory advisors to support any students exploring major options. Lastly, it provides tutoring and supplemental instruction for a variety of courses through the LASSO Center. For more information, please visit success.okstate.edu (<http://success.okstate.edu>) or contact 405-744-5333.

The following programs are offered through the Office of Student Success:

Exploratory Advising

Our specialty advisors support students who are undecided or are still exploring major options. Students interested in changing their majors or adding a certificate or minor to their degree plan can also meet with our specialty advisors. We are equipped to help students who are unsure if their current major fits their values, interests, personality, and skills.

First-Year Seminar

In addition to academic advising, the Office of Student Success provides students with a First-Year Seminar (UNIV 1111) designed to help first-year students adjust to the demands of college life, learn how to become academically successful, explore various major and career options, and become aware of university rules and regulations. All first-year students at OSU take a common first-year seminar in their first semester of enrollment.

Academic Advising

Academic advising is a major function within the University and is designed to serve the student first and foremost. Advising assists students in developing their intellectual potential through effective use of all resources available at the University—academic, cultural and social. The role of the student's academic advisor is to:

1. assist in educational planning, including clarification of career and educational goals, curriculum planning and short-term course selection,
2. make appropriate referrals to campus support services,
3. provide information to prospective majors, and
4. prepare degree plans for graduating seniors and submit these to the respective college graduation certification office.

Advising is performed within each of the colleges. Additionally, the Office of Student Success offers exploratory advising for undergraduate students unsure about their choice of major.

Each advising unit has an office of student academic services to represent that unit in matters concerning students. Students should contact their office of student academic services when questions arise regarding advising, academic programs and requirements, and academic support services.

The locations and phone numbers of the offices of student academic services are:

- Arts and Sciences, 213 Life Sciences East, 405 744-5658
- Education and Human Sciences, 106 Nancy Randolph Davis, 405 744-5053
- Engineering, Architecture and Technology, 110 Engineering North, 405 744-5276
- Ferguson College of Agriculture, 101 Agricultural Hall, 405 744-5395
- Professional Studies, 130 North Hall, Tulsa, 918 594-8271
- Spears School of Business, 155 Business Building, 405 744-2772
- Office of Student Success, 103 Legacy Hall, 405 744-5333
- OSU-Tulsa Advising Services, 130 North Hall, 918 594-8271
- Honors College, 101 Old Central, 405 744-6799
- Graduate College, 202 Whitehurst, 405 744-6368
- Center for Health Sciences, 1111 W. 17th, Tulsa, 918 561-8260
- College of Veterinary Medicine, 110 McElroy Hall, 405 744-2264

Students should keep in mind that while the University provides advising as a service and resource, the ultimate responsibility for identifying and completing degree requirements rests with the student.

LASSO Center

Nick Holmes—Assistant Provost for Student Success

The LASSO Center offers academic support through two main programs: the Paul Milburn Tutoring Program and supplemental instruction, which are available to all students at no extra cost. For more information about locations, hours of operation, or classes served, please visit lasso.okstate.edu (<http://lasso.okstate.edu>).

LASSO Center Paul Milburn Tutoring Program

The LASSO Center Paul Milburn Tutoring Program is an academic support service available to all students across campus. Highly trained and qualified tutors offer students individualized, one-on-one tutoring. Tutoring is available by appointment, both in person and virtually. For more information, please visit lasso.okstate.edu (<http://lasso.okstate.edu>) or contact the LASSO Center at 405-744-3309.

Supplemental Instruction (SI)

Supplemental Instruction (SI) is an academic support program that offers collaborative study sessions for specific courses. These sessions are led by undergraduate SI leaders who have previously earned an A in the course and are recommended by faculty. The SI leaders attend classes and work with course instructors to provide three weekly collaborative sessions, where they facilitate discussions and study activities that allow students to master course materials by working together in a cooperative learning environment. Students can find more information about SI and a list of current courses offering supplemental instruction at lasso.okstate.edu (<http://lasso.okstate.edu>).

Study Abroad

OSU students can add an international dimension to their degree program through education abroad designed to support specific academic and professional goals. International programs such as study, internships, research, and service-learning equip students with the skills and knowledge required for future leadership. By developing global competencies needed to engage with local, national, and global communities as a culturally perceptive citizen, participation in international education opportunities also expands key academic and career benefits, such as:

- Students who studied abroad were twice as likely to find a job quickly following the completion of their college studies.
- College graduates who studied abroad see a 25% higher average starting salary than those who did not study abroad.
- Nearly 60% of employers consider study abroad to be a valuable asset for an individual's career path.
- Study abroad participants are about 20% more likely to graduate on time than non-participants.

As part of Oklahoma State University's global engagement initiative, the University partners with over 60 universities abroad for semester and academic-year exchanges. There are also hundreds of options for students looking for summer break, spring break, and winter intersession options. The following program types allow students to have an international experience that aligns with their academic and professional goals.

- **Direct Exchanges.** Students may earn OSU credit through exchange universities in over 30 countries in Europe, Asia, Latin America, and other regions. While participating in direct exchange programs, students pay tuition and fees to OSU while abroad and earn OSU resident credits.
- **OSU Faculty-led Programs.** Students may also earn OSU credit by enrolling in short-term international courses offered by OSU college outreach units in countries such as Japan, the United Kingdom, France, Greece, Italy, Mexico, Ireland, and South Africa. Programs are typically held over winter break, spring break, and summer.
- **Approved Third-Party Programs.** Students may earn transfer credit through participation in pre-approved study abroad programs offered by other U.S. universities or study abroad program providers. Students on affiliated programs pay fees directly to the provider. Semester, academic year, and summer programs available, including internships abroad!
- **Internship and Volunteer/Service Programs.** Students may also participate in non-credit work, internships, and volunteer/service learning opportunities abroad. These programs are offered as short-term experiences or semester-long immersion, often combined with academic study in the host country.
- **National Student Exchange Programs.** The National Student Exchange (NSE) enables OSU students to spend a semester or year at one of over 170 colleges in the United States; its territories of Puerto Rico, Guam, and the U.S. Virgin Islands; as well as in Canada. More information can be found at <http://catalog.okstate.edu/about/special-academic-services-programs-facilities/#specialprogramstext>.

Financial assistance is available for many programs through scholarships as well as federal grants and loans. In many cases students may use federal financial aid to offset the cost of an academic program abroad. Students may apply for scholarships through the OSU Center for Global Learning, a unit of OSU Global, who stewards

several university and donor-funded awards. Scholarships such as the Provost's Study Abroad Scholarship, the Don and Cathey Humphreys Study Abroad Scholarship, and the John S. Wilcha Experiential Travel Award are examples of funding opportunities for students participating in credit-bearing activities abroad. Information on these national and local scholarships is available at https://global.okstate.edu/studyabroad/osu_student_resources/finding_funding/index.html (https://global.okstate.edu/studyabroad/osu_student_resources/finding_funding/) or through the Center for Global Learning office, 056 Student Union, 405.744.8569.

For more information on studying, working, teaching, or volunteering abroad contact the Center for Global Learning, 056 Student Union, e-mail abroad@okstate.edu or visit the website <https://abroad.okstate.edu> (<https://abroad.okstate.edu/>).

Military-Affiliated Student Support

The Office of Military-Affiliated Student Support is dedicated to helping veterans get the resources they need to succeed in a classroom environment. The Office provides comprehensive support to student-veterans, active duty, guard/reserve students and their families in an atmosphere of respect for their service to the nation. The Office is committed to helping the veteran and military-affiliated community achieve academic excellence at the university and occupational success once they leave. The Office hopes to further the cause of veterans on campus and in the community through education, administrative services, job advisement, community outreach and peer fellowship. Specific services offered include:

- Student veteran advocacy;
- University support services referrals;
- VA counseling and health services referrals;
- Computer and printing resources;
- Peer support;
- Lounge study area, refreshments;
- Veteran and Community Based Events;
- Specific needs-based test proctoring;
- Work Study via The VBA Work Study Management System.

The Office of Military-Affiliated Student Support is located in 061 Student Union and can be contacted at militaryveterans@okstate.edu or 405-744-8118.

University Assessment and Testing (UAT)

Ryan Chung, PhD—Assistant Vice Provost for Accreditation, Assessment, and Testing

University Assessment and Testing (UAT) at OSU supports institutional, college, and academic program improvement and provides public assurance of academic program quality and accountability by documenting assessment progress toward meeting educational goals as required by accreditation agencies (Higher Learning Commission, HLC) and the Oklahoma State Regents for Higher Education (OSRHE). Assessment involves creating measurable student learning outcomes, collecting data through various direct and indirect methods, analyzing and reviewing data, and, most importantly, using data to improve student learning. Assessment is an integral part of the institution's commitment to enhance and sustain academic program quality and students' overall educational experiences.

The OSU Assessment and Academic Improvement Council (AAIC) guides the institution's assessment plan and coordinates with UAT to facilitate assessment processes for all academic programs. Membership of the AAIC consists of faculty from each college and representatives from the offices of Student Affairs, Institutional Research and Analytics, University Libraries, and the Student Government Association. The AAIC supports assessment by providing resources to:

1. Measure the effectiveness of all academic programs,
2. Utilize information provided by assessment processes to improve student learning, and
3. Determine the overall educational impact through assessment processes of the university learning experience on all students.

Assessment activity at OSU, coordinated by UAT, includes four primary initiatives:

1. Entry-Level Placement Assessment (ELPA) assists OSU advisors and faculty in making placement decisions to give students the best chance of academic success.
2. General Education Assessment evaluates student achievement of institutionally recognized general education competencies, including written communication, critical thinking, diversity, professionalism, ethics, and information literacy. UAT works with the Committee for the Assessment of General Education (CAGE) to improve efforts on general education assessment.
3. Program Student Learning Outcomes Assessment evaluates achievement of student learning goals in academic programs.
4. Survey development and consultation, data collection, analysis, and reporting on student engagement, student satisfaction, and alumni perceptions of academic programs and services at OSU while also supporting various research initiatives across campus.

Results of these assessment initiatives and efforts provide significant information for improvement of academic programs and services, of students' achievement of learning outcomes, and of students' satisfaction with their educational experience.

UAT submits reports to the OSRHE according to a proposed schedule and timeline that summarize the assessment initiatives listed above. These reports include program student learning outcomes, assessment methods used, measured criteria and expectations, results, and uses of assessment findings (action plans). Visit <https://assessment.okstate.edu/> (<https://uat.okstate.edu/assessment/>) for more information on assessment at OSU.

The OSU Testing Center, within UAT, provides testing and evaluation support services for OSU students and faculty on the Stillwater campus as well as to the wider local and state communities. Oklahoma State University course exams for online and in-class courses are proctored at the OSU Testing Center, as are exams for students who receive testing accommodations through Student Accessibility Services (SAS). Some common testing accommodations include separate room testing, extended testing time, adaptive technology, and/or trained staff assistance to students requiring a reader or an amanuensis.

The OSU Testing Center also administers exams for prospective students, including the ACT On-Campus and the Test of English as a Foreign Language (TOEFL). The online OSU Reading, English, and Math Placement Exams are available to current and future undergraduate students for course placement in reading, writing, and mathematics courses. College-Level Examination Program (CLEP) exams are administered to current and prospective students who wish to earn

college credit for specific courses. Many state, national, and other certification exams are offered at the OSU Testing Center, including the Graduate Record Exam (GRE), PRAXIS, Graduate Management Admission Test (GMAT), Pearson Vue Exams, PROV Exams, and Federal Aviation Administration (FAA) certifications, amongst others. Visit <https://testing.okstate.edu/> for more information on the exams available at the OSU Testing Center.

For more information on assessment and testing at OSU, visit the UAT website at <https://uat.okstate.edu/>.

Special Programs

Boone Pickens Legacy Experience

The Boone Pickens Legacy Experience (<https://go.okstate.edu/boone-pickens-legacy/>) is a world-class exhibit located in the West End Zone complex at Boone Pickens Stadium. Funded by the Boone Pickens Foundation, the museum offers an immersive experience into the life of Boone Pickens, shared through interactive and visually rich exhibits and an expansive collection of artifacts, gifts, awards, mementos and memorabilia.

The mission of the museum is to honor Pickens' legacy by inspiring future generations through the celebration of his remarkable life, achievements and philanthropic contributions, fostering a spirit of innovation, resilience and generosity. In addition to showcasing Pickens' contributions to business and society, the museum serves as a dynamic hub for learning, innovation and leadership development.

Doel Reed Center

Andy Mattern, Director

Building on the land-grant mission of Oklahoma State University, the Doel Reed Center (<https://doelreed.okstate.edu/>) in Taos offers multidisciplinary programs in teaching, research, and outreach to OSU students, alumni, friends, and the communities of northern New Mexico.

The Doel Reed Center hosts courses for academic credit with generous scholarship support as well as student internships and non-credit classes for lifelong learners. The Center also sponsors opportunities for OSU faculty and visiting artists and scholars to pursue creative and scholarly work in Taos.

English Language and Intercultural Center

The English Language and Intercultural Center (ELIC) was established in 1970. The ELIC's mission is to equip its students with the English language proficiency, academic skills, and intercultural knowledge necessary to gain entrance and achieve success at Oklahoma State University or any American institution of higher education. In addition to its regular programming, the ELIC offers fully customizable English language and intercultural training to students, faculty, programs, businesses, and government sponsoring agencies seeking to succeed in the United States academic and cultural context.

The ELIC has taught students from as many as 30 different countries in a regular semester. Students' academic backgrounds vary from high school graduates to career professionals who plan on beginning or continuing their higher education studies. The ELIC offers programs that last 8 weeks and 16 weeks; however, upon request arrangements might be made for different durations.

For more information, please contact the ELIC.

English Language and Intercultural Center
Oklahoma State University
307 Wes Watkins Center
Stillwater, OK 74078
Phone: 405-744-7519
Email: osu-eli@okstate.edu
Website: <https://global.okstate.edu/elic/index.html> (<https://global.okstate.edu/elic/>)

Ethics Center

The Ethics Center at Oklahoma State University is committed to promoting moral reflection and deliberation in personal, professional, community and civic life. The Ethics Center does not seek to dictate values; rather, we attempt to meet our organizational commitments by organizing and promoting workshops, symposia, conferences and other forums where those interested, including professional ethicists, faculty, students, and the general public, can study and discuss relevant topics. In addition, we will attempt to support research relating to applied and professional ethics. Finally, the Ethics Center will provide Oklahoma State University with a centralized office that students, faculty and the public can contact to find out what ethics classes and resources are available.

The Ethics Center is sponsored and operated by the Philosophy Department at Oklahoma State University and overseen by a standing committee of faculty members having research and teaching interests in applied and professional ethics.

Gerontology Institute

Alex Bishop, PhD—Associate Professor and Gerontology Program Coordinator

The Gerontology Institute is housed in the Department of Human Development and Family Science. The Gerontology Institute operates in conjunction with a gerontology masters program committed to promoting excellence in the study and understanding of aging across the life course through scientific research, education and service.

The Gerontology Institute was created in response to a widespread interest in course offerings in gerontology. Students can receive an MS in Human Development and Family Science with an option in aging sciences or an MS in Aging Studies. Undergraduates may earn a BS in Human Development and Family Science with a professional track in aging services within the child and family services option. An undergraduate Aging Services minor is also offered. Students wanting to attain an MS may complete the on-campus program in HDFS or the Innovative Digital Education Alliance online aging studies program (IDEA) at OSU. Students may also seek a graduate certificate in aging studies through the on-campus program in HDFS. For more information on the online gerontology program see <https://osuonline.okstate.edu/programs/graduate/gerontology-master-of-science.html>.

The Gerontology Institute serves as a link between the University and the community in the field of aging. For more information, visit <https://education.okstate.edu/departments-programs/gpidea/gerontology.html> or e-mail humansciences.hdfs@okstate.edu.

Mathematics Learning Success Center

The Mathematics Learning Success Center (MLSC) offers FREE drop-in tutoring for all OSU and NOC students enrolled in MATH-prefix courses. Located on the 5th floor of the Edmon Low Library, the MLSC

is a welcoming, inclusive environment for studying mathematics. Our undergraduate peer tutors work to empower students to succeed in their mathematics classes. We are committed to helping students recognize their strengths, enhance their mathematical skills, boost their confidence, and further develop their ability to learn independently. Other services include high school tutoring hours, exam review videos, guided study groups, and special tutoring for some upper-division math classes. For more information, visit <https://cas.okstate.edu/mlsc/> or call 405-744-5818.

National Student Exchange

The National Student Exchange (NSE) enables OSU students to spend a semester or year at one of over 165 colleges in the United States; its territories of Puerto Rico, Guam, and the U.S. Virgin Islands; as well as in Canada. As part of OSU's global engagement efforts, NSE provides many students the ideal first experience living and studying in a culture different from Oklahoma. The National Student Exchange is also an opportunity for students in highly-structured programs to study away for a semester and still make progress toward graduation. It also provides students with meaningful cultural-learning opportunities within the USA and Canada.

NSE enables students from member colleges and universities to attend OSU while paying their own university's tuition and fees or while paying OSU resident tuition rates. OSU students may have two payment options when participating in the National Student Exchange, Host or Home Pay:

- In Away Pay, the student temporarily transfers to a host university and pays resident (in-state) tuition and fees there, as well as living expenses. While federal financial aid applies, OSU-specific scholarships do not. All credit will be awarded as transfer credit. Perfect if you are paying out-of-state tuition to OSU.
- In Home Pay, the student remains enrolled at Oklahoma State University while studying at a host university. The student pays tuition and fees at OSU, just as if they were on campus, but all housing, meals, and other costs will be paid at the host university. Most OSU scholarships and financial aid will apply as usual on this option. Perfect for in-state tuition students or those on tuition waivers or academic scholarships.

NSE offers students the opportunity to take classes that might only be available outside of Stillwater. Study marine biology in Florida, or astrology in Hawaii, outdoor education in Alaska, wine studies in Sonoma, California...or perfect your French language skills at a university in Quebec, Canada, or Spanish language skills in Puerto Rico.

For additional information and application materials, visit https://global.okstate.edu/studyabroad/national_student_exchange.html, contact the Center for Global Learning, 056 Student Union or e-mail abroad@okstate.edu.

Office of Individual Study

The Oklahoma State University Office of Individual Study offers online, self-paced undergraduate courses in multiple time frames including 8 weeks, 16 weeks, and 12 months. Individual Study courses offer college credit and are ideal for individuals with busy schedules who desire a more flexible, self-paced format such as those working full-time, juggling family responsibilities, and/or military members. Individual study students do not need to be admitted to OSU.

OSU students can also enroll in Individual Study courses. Browse OSU's class schedule for "independent study." Yearlong courses have

open start dates so students may begin a course anytime. Courses are delivered through the OSU learning management system, Canvas; however, students who do not have Internet access can participate in courses using print-based materials. State and OSU requirements limit the number of correspondence courses that can contribute to a degree plan.

Call 405-744-6390 or visit is.okstate.edu (<http://is.okstate.edu>) for class descriptions, costs, and enrollment information. For information on all OSU online courses and degrees, visit osuonline.okstate.edu (<http://osuonline.okstate.edu>), call 405-744-1015, or email osuonline@okstate.edu.

OSUTeach

The OSUTeach program is designed to increase career options for majors in science and mathematics by preparing students as secondary teachers. OSUTeach offers a dual degree four-year program. Students will receive a STEM degree (options in biology, chemistry, geology, mathematics, physics, and zoology) which leads to a B.S. in the selected discipline **and** a secondary education degree. Students will also earn their teacher certification at the secondary level. OSUTeach is a collaboration between the College of Education and Human Sciences and the College of Arts and Sciences. OSUTeach students begin supervised teaching in K-12 classrooms during their first semester in the program and continue these field experiences throughout their coursework, which culminates with apprentice teaching. Interested students begin the program by enrolling in SMED 1012, Inquiry Approaches to Teaching.

Prairie Arts Center

Meghan Brasuell, Director

The Prairie Arts Center (<https://artscenter.okstate.edu/>) is a vibrant community art center featuring 14,000 square feet of dedicated creative space that is managed by Oklahoma State University in partnership with the city of Stillwater.

Prairie Arts Center's mission is to encourage the exploration of art and promote creativity for all ages. Adult classes, open to ages 15 and older, offer a wide variety of options in pottery, metalsmithing, glass, printmaking, drawing, and painting. Youth programming is also offered. Most classes are offered monthly, with guest artists regularly leading specialized workshops and sharing new techniques.

Located in downtown Stillwater, Prairie Arts Center is recognized as a key attraction within the Downtown Stillwater Cultural District. The center partners with faculty at the university to sponsor activities for OSU students, such as a mural competition. The Center maintains strong outreach programs with the OSU Museum of Art, the Stillwater Senior Center, Stillwater Public Schools, and a variety of other community partners. Prairie Arts Center also hosts the Stillwater Arts Festival, a two-day event held the third weekend in April that features more than 50 regional artists.

Pre-Professional Health & Law Support Services

Pre-Professional Health & Law Support Services helps students explore and prepare for careers in healthcare, law, medicine, and veterinary medicine. All OSU students, regardless of major, have access to personalized support at every stage of the pre-professional journey, from

early career exploration through application and successful matriculation to professional programs.

There is no required or preferred major for admission to professional programs in these fields. Students are encouraged to choose a major that aligns with their academic strengths and personal interests. Selecting a field of study that reflects individual passions allows students to build a strong academic foundation while showcasing their skills and commitment.

Students are supported by a comprehensive, collaborative network that includes academic advisors, faculty, and campus partners across disciplines. This interdisciplinary approach helps students intentionally connect their coursework, campus involvement, and long-term career goals.

To learn more about available resources, developing as a competitive applicant, or to schedule an appointment, visit preprofessional.okstate.edu (<https://preprofessional.okstate.edu/>). The office is located in 139 Legacy Hall and can be reached at 405-744-9965.

Psychological Services Center

The Psychological Services Center (PSC) was established in 1971 as a training, service, and research facility at Oklahoma State University. It is operated by the Department of Psychology through the College of Arts and Sciences. It is located in 118 Psychology Building on the OSU-Stillwater campus. The building is accessible to the handicapped.

Services are provided to children, adolescents and adults and are available to residents of Stillwater and the surrounding community as well as OSU students, faculty and staff. The PSC provides evidence-based psychotherapy services addressing a wide range of mental health concerns such as mood disorders (e.g., depression and bipolar), anxiety disorders (e.g., generalized anxiety, social anxiety, panic disorder), trauma, attention-deficit/hyperactivity disorder (ADHD), academic challenges, obsessive-compulsive disorder, and other complex psychopathology. The PSC also offers comprehensive psychological assessments, including neuropsychological, psychoeducation, and psychodiagnostics, for a variety of concerns, including learning disabilities, emotional and behavioral difficulties, and other developmental conditions.

The PSC staff includes doctoral students in the Clinical Psychology training program and is accredited by the American Psychological Association. The staff also includes supervising clinical psychologists from the Department of Psychology. Although the exact composition of the staff may change from year to year, the staff is generally composed of individuals from diverse ethnic and cultural backgrounds. There is a sliding scale fee structure based on one's financial situation.

The PSC schedules appointments from 9:00 a.m. until 5:00 p.m. Monday, Wednesday, and Friday and from 11:00 a.m. until 7:00 p.m. on Tuesday and Thursday. Appointments can be made by contacting the PSC at 405-744-5975. More information can be found at <http://psychology.okstate.edu/osupsc>.

Devin Barlaan, PhD—Clinic Director

Speech-Language-Hearing Clinic

Peter Richtsmeier, Ph.D.—Interim Department Head
Kristi Carpenter M.S., CCC-SLP—Clinic Manager, OSU-Stillwater

The OSU Speech-Language-Hearing Clinic provides comprehensive clinical services to the OSU/Stillwater and the Tulsa communities. We are dedicated to providing the highest standard of care in speech-language pathology and audiology. Nationally-certified and state-licensed clinical faculty supervise graduate student clinicians as they provide a wide range of diagnostic and therapy services, including early intervention. Treatment is provided for a variety of communication disorders, delays and/or differences across the lifespan including:

- Articulation and Phonological disorders
- Language disorders
- Stuttering
- Autism
- Voice disorders
- Swallowing disorders (also, feeding disorders)
- Language, cognitive, and other communications disorders resulting from stroke, head injury, dementia, and other neurological impairments
- Dialect variations
- Hearing impairment, including early intervention
- Reading and writing disorders

The OSU Speech-Language-Hearing Clinic is located in Social Sciences and Humanities on the OSU campus. Fees are charged for services with special rates provided for all OSU students, faculty, and staff. A sliding fee scale for services ensures that individuals are served regardless of their ability to pay. To schedule an appointment please call 405.744.6021.

The Center for Family Resilience (CFR)

The Center for Family Resilience (CFR) is an initiative of Oklahoma State University's Department of Human Development and Family Science, College of Education and Human Sciences, and the OSU-Tulsa campus. The vision of the CFR is that every family be fully equipped to support members in achieving their full personal and social potential.

Located on the Tulsa Campus, the mission of the CFR is to build family resilience in Oklahoma and beyond through innovative research on everyday issues affecting families, and by translating research results into effective programmatic or policy solutions. The CFR's mission is implemented through three main programs. The community engagement program builds bridges among community agencies, family and social service providers and CFR affiliate researchers. The research program coordinates the activities of affiliate researchers to create knowledge of individual and family resilience and the factors shaping resilience. The translation and education program emphasizes dissemination of acquired knowledge and the transfer of that knowledge to everyday professional practice.

The Center for Family Services

The Center for Family Services is sponsored by the Department of Human Development and Family Science in the College of Education and Human Sciences.

The Center's dual mission is to provide high-quality, low-cost marital and family therapy services to the public and to provide a high-quality training environment for master's degree students specializing in marriage and family therapy. Because the Center for Family Services is a training facility, advanced graduate students in marriage and family therapy conduct the majority of the therapy. While conducting therapy, therapists-in-training are under the direct supervision of clinical faculty members.

The Center allows for video recording of sessions and for observation of sessions by clinical supervisors.

The Center for Family Services is open to individuals, couples or families seeking help with personal or relationship issues. Presenting issues may include marital concerns, family violence, adjustment to divorce or other life-changing events, child behavior problems, parenting concerns, anxiety and depression, and family reunification. Fees are determined on a sliding fee scale based on income and family size.

Appointments are available on request. While appointments are available during daytime and evening hours, most appointments are scheduled on Wednesday and Thursday evenings.

The marriage and family therapy program is accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) of the American Association for Marriage and Family Therapy.

The Institute for Teaching and Learning Excellence (ITLE)

Christine K. Ormsbee, PhD—Vice Provost

The *Institute for Teaching and Learning Excellence* supports all instructors in the design and delivery of high-quality instruction. Employing an array of multimedia services, ITLE staff supports the integration of the most current technologies with effective classroom pedagogy. ITLE provides a variety of professional development opportunities such as "Preparing Online Instructors" and "Scholarship of Teaching and Learning," as well as "OSU Faculty Reads," a monthly book reading program. In addition, ITLE cooperates with campus departments on teaching and learning-related research projects to provide the professional development requested.

ITLE produces still image and video-based educational content from recording and editing classroom presentations for delivery via multiple media formats, to distributing live, interactive classes world-wide from high-tech classrooms across the campus. The Creative Services department within ITLE produces high-end graphics, animations, and interactive content that can stand-alone or be integrated within videos to provide visual clarity for any subject or concept. ITLE houses a high definition, broadcast-quality television production department, which is used for everything from recording classroom presentations to the 4K production of teleconferences, documentaries, video training presentations and public service announcements for the University and for both government and commercial agencies. Also, faculty can record presentations in a broadcast-quality studio or in a more relaxed office-like setting in a Camtasia/Webcam studio.

The ITLE building has a large multi-media conference room and a smaller flexible classroom available for professional development events and other campus activities. ITLE provides equipment and staffing to support web-based courses as well as technical assistance, for the Canvas Learning Management System. ITLE also manages the Campus Streaming TV system, working with the streaming company to provide educational and entertainment programming of interest to the OSU community.

The ITLE facility provides an outlet for student internships in graphic design, computer animation, production, and engineering fields, and has agreements with several departments across campus for credit-based experiences supervised by their full-time, professional staff. In addition,

ITLE provides part-time employment for some students each year in many of their departments.

For more information, call 405.744.1000, or visit itle.okstate.edu (<http://itle.okstate.edu>).

Writing Center

Since 1976, members of the Oklahoma State University community—students, faculty and staff—have found writing support from the tutors at the Oklahoma State University Writing Center. The OSU Writing Center aims to create well-developed and effective writers regardless of skill level or background. Writing Center tutors help writers understand and practice many useful strategies—from brainstorming to drafting to editing techniques.

Appointments for the OSU Writing Center in 440 Student Union, satellite locations, and online options (online/synchronous, e-tutoring/asynchronous) can be scheduled at osuwritingcenter.okstate.edu (<http://osuwritingcenter.okstate.edu>). Check the Writing Center website for appointment times and availability. Writers may call 405.744.6671, or direct questions to writingcenter@okstate.edu.

Special Facilities

Bartlett Center for the Visual Arts and the Gardiner Gallery of Art

The Bartlett Center for the Visual Arts houses the main Art Department office, the Gardiner Gallery of Art, the Visual Resource Center (VRC), and classrooms/studios/computer labs for art history, painting, drawing, 2D foundations, jewelry/metals, photography, and graphic design. The other Studio Art areas — ceramics, sculpture, printmaking and 3D foundations — are housed in the Visual Arts Annex at the northwest corner of Ridge Drive and McElroy Road, which was built in 2002.

Originally, the building was the first women's dorm on campus. Later named for Maude Gardiner — a pioneer in home economics — it was used for many different purposes over the years until a gift from Pete and Pat Bartlett made it possible to renovate it for the Department of Art in 1984. Maude Gardiner continues to be recognized through the Gardiner Gallery, which serves both OSU students and the greater Stillwater community. Gallery programming includes student and faculty exhibitions as well as exhibitions of international and national artists. For current information about Gardiner Gallery exhibitions and hours, visit the gallery's page on the Art Department's website: https://cas.okstate.edu/department_of_art/gardiner_gallery_of_art.html or visit the gallery on social media: Instagram: https://www.instagram.com/gardinergallery_osu/ Facebook: facebook.com/GardinerArtGallery/ (<https://facebook.com/GardinerArtGallery/>).

The Biology Learning Resources Center

The LRC, which serves as a study area for life science students, especially those taking the introductory biology course. Here students may use computer tutorials, review sample tests and papers, examine experiments or meet with a Teaching Assistant or study group. The LRC is located on the third floor of Life Sciences West and is maintained by the Department of Integrative Biology.

The Cleo L. Craig Child Development Laboratory

The Department of Human Development and Family Science has a rich tradition of excellence in early childhood education. The Child Development Laboratory was established in 1924. The laboratory presently resides in a facility opened in 1983 and renovated in 2010. The program serves as a field placement for early childhood education majors. Equipped with observation booths, the Child Development Laboratory is also used as a site for observation and interpretation of human growth and development by students in courses throughout the university. Research on developmentally-appropriate practice, children's learning and development, and the preparation of teachers is conducted in the facility. The Child Development Laboratory is licensed by the Department of Human Services and is accredited by the National Association for the Education of Young Children. The program offers planned learning activities that are developmentally appropriate and designed to model best developmental practices; frequent and positive interactions between children and students; nutritious meals and snacks; regular communication with parents; positive guidance techniques; high teacher-child ratios; experienced Early Childhood Education degreed staff; and on-going systematic programming.

The program provides the highest quality of early childhood education to children with and without developmental disabilities by providing exemplary services based on recommended practices to young children with diverse abilities and their families. The Child Development Laboratory provides family-centered services designed to meet the individualized needs of all children and families; offers a blend of educational and therapy services within the context of a developmentally-appropriate curriculum; and prepares children for their next educational environment.

Subject to availability, families have the opportunity to enroll in this model early childhood program. Children enrolled in the program range in age from 12 months through six years of age.

Collection of Vertebrates

The OSU Collection of Vertebrates (COV) is housed in Life Science West and maintained by the Department of Integrative Biology. It includes specimens over 120 years old and consists of collections of fishes, amphibians, reptiles, birds, mammals and frozen tissues. The Collection of Fishes maintains more than 30,000 lots of specimens, mostly from Oklahoma and other Plains states, but also includes one of the world's largest collections of rare Nepalese fish. The Collection of Amphibians and Reptiles includes approximately 12,000 specimens and houses among the largest collections of the rare Oklahoma salamander and the grotto salamander. The Collection of Birds houses 2,500 skins, are from Oklahoma and includes the oldest specimens that date from the 1880's. The first mammal catalogued into the Collection dates from 1924 and now includes more than 13,000 specimens from every county in Oklahoma, all 50 states, and 50 other countries; every continent except Antarctica. The Collection is one of the most taxonomically diverse collections at any university in the U.S. Among the most significant components of the Collection of Mammals are the more than 1,000 specimens from Ethiopia. All specimens are valuable for their use in teaching classrooms and for research.

Department of Design and Merchandising Teaching and Research Laboratories

Design and Merchandising has a long tradition of incorporating laboratories that realistically simulate industry environments into teaching. Teaching labs include the Sewn Products Production Lab, the Sewn Products Cutting Lab, Apparel Technology 3D Digital Design Development Center and the Textile and Apparel Science Lab. Equipment in these labs include: Twining-Alberts tensile testing machine; pilling tester machine; air vapor hood; wear testing equipment; heavy-duty industrial sewing machines; sweating guarded hot plate; Kawabata Evaluation System (KES); thickness gauges; spectrophotometer, cutting tables, and pressing stations. Product development is enhanced with current digital industry technologies including Browzwear's V-Stitcher, Style 3D, Seddi's Textura, Lectra/Gerber AccuMark pattern design system (PDS), Gerber Technology – automated cutter, pattern digitizer, and Infinity plotters.

Design and Merchandising also employs laboratories for conducting research. The Mixed Reality Lab at Oklahoma State University is a cutting-edge facility that integrates advanced technologies with spatial design and immersive experiences. Specializing in Virtual Reality (VR), Augmented Reality (AR), and Artificial Intelligence (AI), the lab features state-of-the-art equipment, including Meta Quest VR devices, Microsoft HoloLens for AR applications, and a range of 3D printers, such as the Modix 120 XL for large-scale architectural models and the Ender Pro for detailed, small-scale fabrication. The adjoining Mixed Reality Classroom is equipped with 25 VR stations, allowing for immersive, hands-on learning experiences and collaborative projects. The lab fosters interdisciplinary collaboration, pushing the boundaries of design education and addressing complex design challenges through the power of immersive technology.

A Human Factors and Ergonomics area focuses on understanding the physical and cognitive capabilities and limitations of different populations under various conditions. Equipment in this area includes: Vitus SMART (Human Solutions) 3-D body scanner, Polyworks (V10) software, surface electromyography anthropometers, skin & core temperature measurement devices, heart rate monitors, and related equipment providing the capacity to conduct eye-tracking research. The Human Environmental Factors Lab is designed to accelerate the development, validation and adoption of interior design research for older adults and individuals living with physical and cognitive challenges. Students and faculty perform adaptable, state-of-the-art human factors and technology research, as well as receive support in new pedagogical approaches in order to prepare a new generation of professionals in design, healthcare and the social sciences. Technology testing includes the TEMI autonomous robot for aid in home navigation and task completion as well as the development of CATcare, a wearable assistive technology prompting system for individuals living with dementia at home.

For more information on DM laboratories and equipment, contact the Department of Design and Merchandising at 405-744-5035.

Department of Wellness

The Department of Wellness is committed to creating a healthy campus culture for students and employees. The department offers programs and services to promote complete health and wellness of the mind and body for faculty, staff, students and community members.

Wellness Programs

- **Fitness Programs** offer a variety of fitness programs and classes with multiple formats for every skill level. There are more than 100 classes offered each week, including F45, yoga, dance, spin, abs, boot camp and more. Classes are offered at the Colvin Recreation Center and Seretean Wellness Center.
- **Intramural Sports** serve more than 3,500 participants weekly in more than 50 sporting activities yearly. Whether you're looking for one night of competition, a weekend, or an entire season, we've got an intramural sport for you. With competitive and recreational leagues, you can play to win or just for fun.
- **Outdoor Adventure** provides opportunities for fun, adventure, education and excitement. Through trip and workshop programs Outdoor Adventure emphasizes environmental awareness, personal development, risk management training, wilderness travel and fun. With a variety of regional and national trips as well as workshops at all skill levels, staff members strive to provide opportunities for the whole community. In conjunction with trips and workshops, Outdoor Adventure offers an extensive low and high ropes challenge course and an indoor climbing facility at the Colvin Recreation Center. To support personal trips and the local community, the outdoor equipment rental shop provides access to everything from standup paddle boards to sleeping bags. Outdoor Adventure also offers Mobile Team Development programs, bringing customized team-building experiences directly to your location. Whether it is exploring state parks in Oklahoma, spending a day at the outdoor challenge course or participating in a climbing competition, the common elements at Outdoor Adventure are quality, leadership and fun.
- **Club Sports** are recognized student organizations that provide opportunities for students to participate in sport and recreational activities beyond the varsity level. With approximately 40 active clubs, the program offers a variety of experiences focused on competition, skill development, leadership, and community building. Clubs range from recreational and social organizations to highly competitive teams that compete against colleges and universities across the region and nation. Through student-led involvement, Club Sports provide opportunities for instruction, recreation, competition, and personal growth.
- **Health Education Programs** strive to meet the health needs and issues of the community at Oklahoma State University through effective programming and research. The campus wellness team serves as a resource to the students by providing them with the most updated information on health topics such as substance use prevention, sexual health, sleep, stress management, mental health, and nutrition to name a few. Through health education and prevention programming, our goal is to create an environment where students feel safe and comfortable approaching the campus wellness team with any concerns or questions. College is an exciting, yet stressful time. The campus wellness team is here for you.
- **Department of Wellness Sponsored Programs** consist of federal, state and privately-funded grants and contracts that serve the OSU community as well as fulfill the community outreach and extension components of Oklahoma State University's land-grant mission.
 - Oklahoma ABLE Tech is the statewide Assistive Technology Act Program, which connects Oklahomans with disabilities to assistive technology (AT). ABLE Tech provides access to AT through demonstration centers and a short-term equipment loan program. ABLE Tech helps individuals acquire needed AT and durable medical equipment (DME), through the device reutilization and alternative financing activities. ABLE Tech also

provides Digital Accessibility services statewide to institutions of higher education, the CareerTech system, and state agencies. Through public awareness, education/training, technical assistance, and consultations, ABLE Tech assists Oklahomans with the selection, acquisition, and use of AT and DME.

- The Special Education Resolution Center (SERC), through a partnership with the Oklahoma State Department of Education, manages the federal special education due process hearing system and alternative dispute resolution programs for Oklahoma. SERC provides services and informational trainings for free to parents, Oklahoma school districts, and stakeholder groups.
- The Oklahoma Rehabilitation Council (ORC), through a contract with the Oklahoma Department of Rehabilitation Services, advises the state agency regarding its performance in providing vocational rehabilitation services to individuals with disabilities. The mission of ORC is to facilitate consumer education and empowerment, to assure services are of high quality and lead to the employment of individuals with disabilities within Oklahoma.
- Community Wellness Programs currently consists of multiple grant-funded projects which currently include: Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS) regional prevention coordinator grants, Strategic Prevention Framework (SPF) Partnership for Success grants, Strategic Targeted Response grants (STR- opioid prevention), Tobacco Settlement Endowment Trust (TSET) Healthy Living grants, Substance Abuse and Mental Health Services Administration (SAMHSA) Drug Free Community Grant and SAMHSA Sober Truth on Prevention Underage Drinking (STOP) Grant.

Wellness Services

- **Personal Training:** Exercise programs tailored by trainers to fit clients' needs. Trainers teach clients the proper technique to perform exercises correctly and effectively.
- **Health Risk Assessments:** Screenings that provide an individualized student health risk assessment designed for early detection of health problems.
- **Swim Lessons:** Group and private lessons are available for adults and children during the summer months.

Wellness Facilities

- **Colvin Recreation Center:** Offers 250,000 square feet of recreation options including 10 basketball courts, 4 racquetball courts, 25-ft. rock climbing wall, indoor track, cardio areas, a multipurpose gym and indoor soccer field, outdoor pool, dance studio, multipurpose fitness room/personal training studio, F45 studio, combatives room, cycle studio, and pin-selectorized machines and free weights.
- **Seretean Wellness Center:** Features group exercise studios, demonstration kitchen, a lecture hall and Sponsored Programs testing and training center.
- **Colvin Annex:** Another great attribute to the Department of Wellness featuring four indoor basketball/volleyball courts. With the inclusion of natural light and air conditioning, it serves as the perfect location for small conferences and workshops.
- **Western Fields:** Located about a mile and a half from the Colvin Recreation Center, the Western Fields are home to multipurpose intramural fields and the Outdoor Adventure Challenge Course. The

challenge course offers trainings and team-building workshops to students, faculty, staff and the general public.

The Department of Wellness aims to provide exciting and rewarding programs and services for OSU students and employees. For more information visit our website at wellness.okstate.edu (<https://wellness.okstate.edu>), like us on Facebook (<https://facebook.com/OSUWELL>) and follow us on X (<https://twitter.com/osuwell>) and Instagram (<https://instagram.com/osuwell>).

Ecotoxicology and Water Quality Research Laboratory (EWQRL)

The Ecotoxicology and Water Quality Research Laboratory (EWQRL) is located in Life Sciences West and is part of the Integrative Biology Department at OSU. Established in the 1960s as the Reservoir Research Center, in 2001, the lab changed names to reflect not only our expertise in standardized aquatic toxicity testing but also additional research foci in aquatic ecosystem assessments. The EWQRL provides services to a number of companies and wastewater treatment facilities throughout Oklahoma, in the form of EPA standardized bioassays. In addition, the staff and students (both graduate and undergraduate) funded by the EWQRL, undertake aquatic monitoring projects in riverine, wetland and reservoir systems for both state and federal agencies. These projects include invertebrate and fish surveys and identification, zebra mussel monitoring, wetland delineation and toxicity assessments. The lab facilities include a fathead minnow rearing room, temperature and light controlled environmental chambers for in-house cultures of aquatic test organisms (cladocerans, amphipods and midges) and standardized toxicity testing of client produced water, a wet chemistry laboratory, computer laboratory, and numerous compound and dissecting microscopes all with digital imaging capabilities. Sampling equipment for field surveys includes a boat, electroshockers, nets, drift fences and several field meters.

Engagement Skills Trainer (EST 2000)

The EST provides initial and sustainment marksmanship training, static unit collective gunnery and tactical training, and shoot/don't shoot training. It supports the following three modes of training: marksmanship, squad/fire team collective and judgmental use of force. The system models M4/M16A2 rifles and is deployable with its own system shelter. All EST training scenarios are U.S. Army Training and Doctrine Command (TRADOC) validated. Cadets at OSU will spend up to six to nine hours per semester using the EST, focused on grouping, zeroing, basic qualification, and advanced marksmanship techniques. The system represents the cutting edge of technology in marksmanship training across the globe.

Herbarium

The OSU Herbarium houses the university's collection of plant specimens. It is located in Life Sciences East, Room 012, and is maintained by the Department of Plant Biology, Ecology, and Evolution. The collection consists primarily of over 150,000 specimens of vascular and non-vascular plants that are dried, mounted on archival paper or placed in packets, and stored in cabinets. There are nearly 50,000 specimens that document the flora of the state of Oklahoma, the second largest such collection in the world. The remaining specimens were collected throughout the world, with strong representation of the Great Plains region and Texas. A particularly significant collection of specimens was made throughout Mexico in the 1960s and 1970s by former curator, Dr. U.T. Waterfall. Other large collections represent the countries of Canada, Colombia, and Ethiopia. Data on these collections

can be accessed on the internet through the Texas-Oklahoma Regional Consortium of Herbaria portal (TORCH: portal.torcherbaria.org (<https://portal.torcherbaria.org/portal/>)); Global Plants (plants.jstor.org (<http://plants.jstor.org>)); and other repositories and aggregators. Over 225 specimens are taxonomic “types” that are the reference material that form the basis for scientific names of these plant species. The Herbarium is known by its Index Herbariorum code, OKLA. The collection is used extensively by OSU researchers, students, land managers, government agencies, and members of the general public interested in plant identification, plant distributions, and ecology. The Herbarium also provides specimen loans to researchers at accredited institutions around the world. Herbarium staff assist with identifications and on specimen based information on request; requests from for-profit interests may be charged for this service.

M. B. Sereteian Center for the Performing Arts

The M.B. Sereteian Center for the Performing Arts provides a home for portions of the Michael and Anne Greenwood School of Music and the Department of Theatre at OSU. Constructed in 1970 at a cost of three million dollars and named in honor of its principal benefactor, M.B. “Bud” Sereteian, a 1947 OSU graduate, the Center is the focal point of many major theatrical and musical events on the OSU campus. The Sereteian Center includes an 800-seat Concert Hall and the 600-seat Vivian Locke Theatre, which attract a myriad of fine arts activities such as ballet, concerts, opera, plays, musicals, faculty and student recitals, and a host of summer conventions and camps.

In addition to the auditorium and theatre, the Sereteian Center houses teaching studios for music and theatre faculty, a variety of classrooms, a dance studio, a scene shop for the theatre, a computer lab, and a well-equipped audio center, all designed to provide an excellent atmosphere for the teaching of the fine arts at OSU.

Theatre

Live theatre productions are an important part of the cultural life of the campus. The OSU Theatre Department produces six to eight plays each academic year from a wide variety of dramatic and musical theatre literature. Two separate production series are offered. Each year, three to four fully-mounted large-scale productions are presented in the 600-seat Vivian Locke Theatre. Two to four experimental productions, often student-directed and designed, are presented in the 100-seat Jerry L. Davis Studio Theatre. Each production’s cast and crew is comprised of theatre majors and minors as well as non-majors from across the campus. Auditions are open to all students on campus regardless of major.

OSU Libraries

The OSU Library system consists of the Edmon Low Library at the heart of campus and three specialized branch libraries (the Education and Teaching Library (<https://library.okstate.edu/education-and-teaching-library/>) in Willard Hall, the Architecture Library (<https://info.library.okstate.edu/cunningham-architecture-library>) in the Architecture Building and the Veterinary Medicine Library (<https://info.library.okstate.edu/veterinary-health-sciences>) in McElroy Hall). The Edmon Low Library is open seven days per week during the fall and spring semesters. Find the latest hours at library.okstate.edu/about/ hours (<https://library.okstate.edu/about/hours>). The Library’s six floors offer individual study spaces designated as either silent (no talking), whisper (talking softly permitted) or group. There are 24 private study rooms that can be reserved online, as well as testing rooms and larger

meeting spaces. A lactation room (<https://info.library.okstate.edu/lactationspace>) is available by reservation.

Desktop computers located on the first and fifth floors provide access to the Internet, MS Office, the Library Catalog and other electronic library resources. The Library also provides laptops, MacBook Pros and Microsoft Surfaces as well as an extensive list of checkout technology. Unlimited black and white printing is available at no additional charge. Color printers are located on the first floor and can be used for a small per page charge. Large-format poster printing (<https://info.library.okstate.edu/poster-printing>) can be found on the lower level in the Maps and Spatial Data office.

Many Library resources are available remotely 24/7 via the Library’s website ([library.okstate.edu](https://www.library.okstate.edu) (<https://www.library.okstate.edu>)). Here you may renew books you have checked out or determine whether a book you need is available; search the listing of more than 200 specialized databases; connect to more than 60,000 online full-text journals; and access online course reserves. If there is an article or book chapter the Library owns only in paper, use the Document Delivery (<https://library.okstate.edu/forms/get-materials/request-document-delivery-of-a-book-or-article-items-from-the-osu-library/>) service to request a link to a digitized copy. If you need an item not owned by the OSU Library, Interlibrary Loan (<https://info.library.okstate.edu/ILS>) can request it for you.

The Library offers assistance in person, by phone 405-744-9775, via e-mail lib-dls@okstate.edu or via chat on the Library’s website. For the latest Library news, events and service updates, find OkStateLibrary on Instagram (<https://www.instagram.com/okstatelibrary/>), Facebook (<https://www.facebook.com/okstatelibrary>), Pinterest (https://www.pinterest.com/okstatelibrary/_saved/), YouTube (<https://www.youtube.com/user/OkStateLibrary>) or OState.TV (<https://video.okstate.edu/channel/Library/86921402>). The Library’s calendar (<https://okstate.libcal.com/>) of events lists upcoming programming, training, tutoring and exhibits.

Creative Studios

The Edmon Low Creative Studios (<https://info.library.okstate.edu/creativestudios>) provides access to emerging technology and digital devices for OSU students and employees. The space is located on the first floor of the Edmon Low Library, and there you will find studios dedicated to 3D printing, virtual reality, heritage arts, audio production, recording and presentations, and data visualization. The Library’s Tech to Go desk is also located here, with VR equipment, cameras, ring lights, tripods, microphones, microscopes, sewing machines, telescopes and projectors.

Government Documents

The OSU Library has an extensive collection of current and historical government publications, as well as publications of the state of Oklahoma, foreign governments and international organizations providing information relevant to all majors. Publications include statistical, legislative and legal materials. Government Documents (<https://info.library.okstate.edu/government-documents>), located on the fifth floor of the Edmon Low Library, also includes the Patent and Trademark Resource Center (<https://info.library.okstate.edu/patent-and-trademark-resource-center>) and serves as the state’s only regional depository for federal publications.

McCasland Maps and Spatial Data

This unit receives print and digital maps produced by the U.S. Geological Survey, Census Bureau, Forest Service, National Park Service and many other federal agencies. Maps and Spatial Data (<https://info.library.okstate.edu/map-room>), located in the lower level of the Edmon Low Library, also houses city, state, national and international maps. The collection includes a large historical set of aerial photographs of most Oklahoma counties, as well as geospatial data sets. The office also includes resources for learning more about GIS-related computing, including specialized software and instruction.

Oklahoma Oral History Research Program

The OOHHP (<https://library.okstate.edu/oralhistory/>) promotes and facilitates the collection, preservation and analysis of interview-based research and related audio projects by educating students, faculty and community members in the methods, protocols and professional and ethical standards of oral history. The OOHHP's extensive, award-winning interview collections focusing on Oklahoma history and culture are available online for research use.

Research and Learning Services

RLS helps you find and use information better, faster and easier. The department partners user experience, like workshops, tours, affordable learning support and instruction support, with traditional academic services, such as data management support, copyright and citation education and research instruction. Services are open to everyone and are free, convenient and customizable.

Special Collection and University Archives

SCUA (<https://archives.library.okstate.edu/>)'s collection focus is on the history of both Oklahoma and OSU, its employees and graduates. Featured holdings include manuscripts, photographs, rare books and research material related to campus life, Oklahoma women, history, politics, and community groups. The University Archives is also the depository for all academic and administrative documents, official records and other materials related to the management, operations and mission of Oklahoma State University.

The OSU Museum of Art

Kirsten Olds, Director

The Oklahoma State University Museum of Art serves as a laboratory for exploration for both the campus community and the public, furthering the university's academic mission and land-grant traditions of service. Housed in a historic 1933 building, which served as a federal post office until 1978, the building was acquired by Oklahoma State University in 2010 and opened as an art museum in 2014. In 2019, the American Alliance of Museums awarded the museum accreditation. **Galleries are open to the public with free admission, striving to make art accessible to all.**

The OSU Museum of Art provides opportunities for OSU students, employees, and the greater community through dynamic exhibitions (<https://museum.okstate.edu/art/>) and programs (<https://museum.okstate.edu/learn/programming.html>). The museum presents more than 10 exhibitions per year, including both traveling and permanent collection shows. The museum's permanent collection (<https://museum.okstate.edu/art/collections/>) consists of approximately 6000 objects from across the globe and spanning thousands of years, with a focus on modern and contemporary American and Native American art.

The museum also cares for the university's public art on campus (<https://museum.okstate.edu/art/public-art.html>).

Opportunities for students (<https://museum.okstate.edu/learn/students.html>) include working as Museum Associates, serving as assistants and interns, and participating in the organizing of exhibitions and programming. For faculty, museum staff will consult on ways to incorporate the collection into a particular course, provide specialty tours for students or groups, pull works from storage for view for class visits, and collaborate on programs. Educational programs, both on site and as part of outreach initiatives, serve university students and staff, early childhood and K-12 students, community organizations, and Stillwater and regional residents.

For more information visit our website at <https://museum.okstate.edu> (<https://museum.okstate.edu/>), like us on Facebook (<https://www.facebook.com/OSUMuseumofArt/>) and follow us on Instagram (<https://www.instagram.com/osumuseumofart>).

The School of Hospitality and Tourism Management Experiential Learning Laboratories

Taylor's Teaching Restaurant is an experiential laboratory that emphasizes quality food service utilizing a thoughtfully prepared menu featuring seasonal ingredients. Students develop skills in food preparation, service techniques, dining room management and profitability. Focus is on professionalism, quality management and guest satisfaction.

Planet Orange Café is a quick service concept with an upbeat and dynamic atmosphere. Students progress through staged learning in this lab developing the skills to assume management responsibility.

The Wayne Hirst Center for Beverage Education promotes a curriculum at the forefront of beverage education featuring a variety of formats including coffees, teas and other beverages.

Experiential and connectional learning opportunities are facilitated in these learning laboratories through three student-led events: the Distinguished Chef Scholarship Benefit Series, Hospitality Days Career Fair and the Wine and Craft Beer Forums of Oklahoma. All students are encouraged to participate in these service-learning activities and earn elective credits in doing so.

Student Union

Dating back to 1815, college unions have always been thought of as "places where all may meet on common ground." The OSU Student Union certainly is no exception to this tradition. It has been serving the university community since 1950 and has become the place to be on the OSU campus. With a facility consisting of more than 630,000 square feet, it stands as the most comprehensive union in the world. It provides the university with such services as the University Store (textbooks, OSU merchandise and technology center), banking services, restaurants, lounges, meeting rooms and a 67-room hotel. What makes the Union special is 80 percent of its revenue is self-generated rather than generated through student fees, helping keep expenses to a minimum for OSU students.

The primary purpose of the OSU Student Union is to be a comprehensive system of diverse people, services, programs and facilities that enrich the

intellectual, cultural and social well-being of the OSU student and campus community.

Located in the Student Union is the Department of Campus Life (<http://lcl.okstate.edu>), which houses the university's more than 450 campus organizations. Many activities such as theater events, art exhibits, craft activities, speakers and so much more are provided for students by the Union's student programming organization, Student Union Activities Board (<http://suab.okstate.edu>), which is also located in the Union.

Through its meeting and conference center (<http://meetings.okstate.edu>), the Student Union hosts many events throughout the year. The variety of meeting rooms located throughout the building are also available to OSU student organizations and faculty meetings, typically at no charge.

The University Store (<http://universitystore.okstate.edu>) supports the majority of the Union's \$22 million operating budget which includes programs and services which have impacted thousands of OSU students throughout the years.

Need a quick bite to eat? The Student Union has you covered there as well with 10 University Dining Services (<http://dining.okstate.edu>) concepts to choose from. Concepts range from a fully-stocked convenience store to international cuisine and home-style meals.

The Student Union's \$63 million renovation project in 2012, which was officially endorsed by the students through their increased student fee gift, allowed the university to revitalize an iconic campus building so it can better meet contemporary student needs while maintaining the significance of its history, legacy and commitment to student success. The Union has been named the "No. 1 Most Amazing Student Union" by bestcollegereviews.org (<http://bestcollegereviews.org>) and ranked second by Best College Values in its most amazing college unions and campus centers in the United States rankings.

More information about the Student Union and its offerings can be found at union.okstate.edu (<http://union.okstate.edu>). We encourage you to follow the Union on our social media platforms, Facebook (<http://facebook.com/osuunion>), Instagram (<http://instagram.com/osuunion>) and X (<http://x.com/osuunion>).

Wes Watkins Center Meetings & Conference Services

Wes Watkins Center Meetings & Conference Services provides meeting spaces and services for the needs of Oklahoma State University and off-campus constituents. The department acts as administrator of the facility, which is home to the Center for International Trade and Development, School of Global Studies, and the English Language Institute. Wes Watkins Center Meetings & Conference Services offers over 42,000 square feet of meeting space, including the International Exhibit Hall, the largest meeting venue on campus. The department works with clients to coordinate event logistics, parking details, and vendor catering options.

The Wes Watkins Center, in conjunction with the Student Union, serves as a central location for international events, business meetings, social functions, and conferences at OSU. For more information about the Wes Watkins Center and Meetings & Conference Services, please visit our website at meetings.okstate.edu (<https://meetings.okstate.edu/>).
