History of Oklahoma State University

In the latter half of the 1800's, Vermont congressman Justin Smith Morrill saw a need for a new model for higher education. President Abraham Lincoln agreed, signing the Land-Grant College Act of 1862 or the "Morrill Act," establishing land-grant universities. These institutions ushered in an era of higher education aimed at lifting an entirely new class of citizens toward the American Dream.

From this foundation, the story of Oklahoma State University began on Christmas Eve, 1890, at the McKennon Opera House in Oklahoma's territorial capital of Guthrie when Territorial Governor George W. Steele signed legislation establishing an Oklahoma Agricultural and Mechanical College (OAMC) in Payne County. OAMC's first students assembled for class on Dec. 14, 1891, even though there weren't any buildings, books or curriculum. The college's first students attended classes in the Stillwater Congregational Church. The original campus consisted of 200 acres of prairie donated by four local homesteaders. The college's first six graduates received their diplomas in 1896.

OSU grew rapidly following World War II. The post-war years were marked by an enrollment surge and the "Veteran's Village" on the northwest edge of campus. The mid-1940s were a golden era for athletics at Oklahoma A&M. In a 90-day period in early 1945, OAMC teams won the Cotton Bowl, the NCAA championship in wrestling, and the NCAA championship in basketball. Coaches and players from that era are sports legends. Coach Henry Iba set a national standard in basketball and Edward Gallagher took OAMC wrestling teams to international prominence.

By the 1950s, the college had grown substantially. In 1957, OAMC became The Oklahoma State University for Agriculture and Applied Science. During the next three decades, OSU built academic programs to match its new status. Enrollment more than doubled from 10,385 in 1957 to more than 23,000 in the 1980s. OSU became a statewide university system, adding branches in Okmulgee in 1946 and Oklahoma City in 1961. OSU merged with the Oklahoma College of Osteopathic Medicine in 1988 to create the OSU Center for Health Sciences, and OSU-Tulsa was born in 1999. Under the leadership of Burns Hargis, OSU's 18th president, the university saw record enrollment and fundraising. OSU raised more than \$2.2 billion in private support during Hargis' 13 years as president. OSU welcomed the six largest freshmen classes in school history in 2012, 2015, 2017, 2018, 2019 and again in 2021. In 2022, multiple enrollment records were broken, including a new record for the largest freshman class.

Visitors to the campus often marvel at its beauty and architecture. Much of the credit goes to legendary president, Henry G. Bennett, who served from 1928-1951. Dr. Bennett's 25-year campus master plan envisioned the Edmon Low Library and the OSU Student Union. During his tenure, OSU President Burns Hargis guided unprecedented construction that made OSU more competitive in academics and athletics. In October 2019, OSU opened The McKnight Center for the Performing Arts with a performance from the New York Philharmonic. The Greenwood School of Music connects to the McKnight Center and opened in fall 2021. Construction is underway on a new teaching, research and Extension facility for OSU Agriculture. The New Frontiers Agricultural Hall embodies OSU's land-grant mission and will elevate the important work completed on campus and throughout the OSU system.

OSU alumna Kayse Shrum was named the 19th president of Oklahoma State University and took over the role on July 1, 2021. She previously served as president and dean of the OSU Center for Health Sciences. Dr. Shrum is the first woman to lead the university, and since she has taken office, Shrum has spearheaded university-level institutes that are interdisciplinary, integrated and agile including the Hamm Institute for American Energy at Oklahoma State University; the Oklahoma Aerospace Institute for Research and Education; and the Counter-UAS Center for Excellence — a partnership aimed at strengthening national defense — and the Human Performance and Nutrition Research Institute. She also launched a far-reaching and deliberate plan for the future of OSU. The strategy was revealed in October 2022, with a goal for OSU to be THE preeminent land-grant university. It includes measurable and audacious goals, designed to meet the needs of students, parents and Oklahoma's workforce.

Today, OSU has 35,000 students across five campuses and a presence in every Oklahoma county through its Extension offices and experiment stations. From six graduates in 1896, to 5,000 annually today, the small college on the prairie has prospered far beyond the dreams of its founders. Rooted in our land-grant tradition and united by the Cowboy Code, OSU's teaching, research, Extension and graduates are making a bigger impact on the lives of people around the world than ever before. It's a great time to be a Cowboy!

MESSAGE FROM THE PRESIDENT

Class of 2023,

Well done!

You have reached an important milestone — one that required grit, determination and commitment. The entire Cowboy family is proud of you.

As you begin your journey beyond our great university, always remain guided by the Cowboy Code. It will help you achieve great things, and you will never be afraid of a challenge. It will inspire you to always dream big, and to remember that if your dreams don't scare you just a little, then you're not dreaming big enough.

You now join thousands of others who are proud to be called OSU alumni. Because of the education and inspiration received at this university, OSU graduates make lasting impacts on both those around them and around the world, and I am confident you will too.

We cannot wait to see what you accomplish in the years to come, and I am delighted to recognize you and your accomplishments at our commencement ceremonies. After the ceremony closes, keep the momentum going. Set goals, make plans and march toward your next goal.

Congratulations, and Go Pokes!

Sincerely,

Dr. Kayse Shrum
President, Oklahoma State University

MESSAGE FROM THE OSU ALUMNI ASSOCIATION PRESIDENT

To the Class of 2023,

On behalf of the Oklahoma State University Alumni Association and OSU graduates around the globe, I would like to welcome you to the alumni family!

Earning your degree from OSU is something to be extremely proud of under normal circumstances, but as you're well aware, the past few years have been anything but normal. As the Cowboy Code says, we finish what we start. You have persevered and proven that being a Cowboy isn't in our clothes; it's in our character.

It's important to remember your time as a Cowboy is really just beginning, and that's why the Alumni Association is here. I encourage you to connect with us before leaving campus by downloading the Orange Connection app and reviewing the section for new graduates. Within the app, you can also learn about the best way to remain connected to your alma mater – membership in the Alumni Association.

We help new graduates secure employment, connect them with chapters of alumni throughout the nation and keep them informed on what's happening back at OSU in Stillwater. We also have virtual programming for alumni and fans, and we hope you'll take advantage of all of these great benefits wherever your journey takes you.

Congratulations again on this tremendous accomplishment. We look forward to serving you for many years to come.

Go Pokes!

Alma Mater Hymn of Oklahoma State University

Words by Robert McCulloch, '49

Proud and immortal, Bright shines your name;
Oklahoma State, We herald your fame.
Ever you'll find us loyal and true,
To our Alma Mater, O. S. U.

Oklahoma

Written by Oscar Hammerstein II

Music by Richard Rodgers

Oklahoma, where the wind comes sweepin' down the plain,
And the wavin' wheat can sure smell sweet
When the wind comes right behind the rain.
Oklahoma, ev'ry night my honey lamb and I
Sit alone and talk and watch a hawk makin' lazy circles in the sky
We know we belong to the land
And the land we belong to is grand!
And when we say -Yeeow! A-yip-i-o-ee-ay!
We're only sayin' You're doin' fine, Oklahoma!
Oklahoma - O.K.

UNDERGRADUATE CEREMONIES COMMENCEMENT SPEAKER

Denny Kellington, MA, ATC
Assistant Athletic Trainer, Buffalo Bills

Denny Kellington grew up in Midwest City, Oklahoma, and received a Bachelor of Science degree from Oklahoma State University in December 2000. During his time at OSU, he was an active member of the athletic training program, devoting his early years to learning and gaining as much experience as possible from all his mentors at OSU.

Upon completion of his undergraduate degree from what was then known as the College of Education, Kellington went on to spend a full season with the Denver Broncos organization, followed by a job as an assistant athletic trainer with the Amsterdam Admirals of the NFL Europe League in 2002.

He then performed his graduate work at Ohio State University, obtaining a master's degree in sport and exercise studies. Kellington chose to remain in Columbus, Ohio, upon graduation, serving as an athletic trainer and patient care coordinator with the Ohio Center for Orthopedic Excellence, which allowed him to grow as a professional outside the realm of athletics.

In 2005, Kellington left Columbus to work as an assistant athletic trainer at Syracuse University. He also had the opportunity to serve as adjunct professor, teaching undergraduate students in the exercise science department. During this time, Kellington was able to grow even more as a professional and eventually assume the position as head football athletic trainer in 2011. After 12 years at Syracuse, Kellington moved west to Buffalo, New York, to work as the assistant athletic trainer with the Buffalo Bills organization, where he is currently.

Outside of his professional experience, Kellington served on the New York Athletic Trainers Association and Atlantic Coast Conference Sports Medicine Association as both an educator and committee member. He has presented on a variety of topics around the country ranging from case studies to emergency preparedness. Kellington is also an active member of Professional Football Athletic Trainers Society (PFATS), volunteering for the PFATS vendor show committee. Recently, PFATS honored Kellington and his fellow staff members with the 2023 PFATS Presidents Award.

Kellington was an integral member of the medical team that saved Bills safety Damar Hamlin during a Monday Night Football game in Cincinnati on Jan. 2, 2023. After Hamlin went into cardiac arrest, Kellington and the medical staff took quick action, performed CPR and prevented a tragic outcome. Given the incredible job done by the entire Bills sports medicine team, there has been a spotlight cast on the entire industry. This has caused an increase in conversations about CPR/AED training and an interest in the athletic training career path. The medical staff has also been recognized by the Bills and across the NFL for their heroic actions to save Hamlin's life.

On March 29, New York Gov. Kathy Hochul awarded Kellington and the entire Buffalo Bills medical staff with the Executive Chamber - Special Citation. Additionally, the New York State Senate and Assembly awarded the group a Legislation Resolution.

Kellington has received multiple awards for his service as an athletic trainer but is most proud of his beautiful wife, Jennifer, and their two amazing children, Sydney and Bryton.

The list of spring degree candidates was prepared before final grades were reported, and inclusion herein does not constitute evidence of graduation. Final action to ensure an accurate listing of names of all persons qualified for degrees could not be compiled before this program went to print. The listing of a name in this program should not be construed as an indication that the person will in fact receive a spring degree from Oklahoma State University. Conversely, the absence of a student's name from this list does not necessarily mean the person will not be awarded a degree. Final certification of degree and academic distinction will be made by the Colleges and the Registrar after candidates have completed all degree requirements.

GRADUATION WITH DISTINCTION

The following final grade-point-average distinctions are determined at degree completion and will appear on undergraduate diplomas and transcripts:

Summa cum laude	3.90-4.00
Magna cum laude	3.80-3.89
Cum laude	3.70-3.79

Degree Abbreviations:

BA	Bachelor of Arts
BAR	Bachelor of Architecture
BEN	Bachelor of Engineering
BFA	Bachelor of Fine Arts

Additional Fall 2022 Degree Recipients

OSU fall degree candidates are invited to participate in the OSU fall commencement ceremony, and their names are listed in the fall commencement book. However, because the fall commencement book goes to print shortly after November 1st, it is not possible to include candidates who apply for graduation after that date. This section recognizes these degree recipients, some of whom will participate in today's ceremony.

ACADEMIC REGALIA

The robes, hats and hoods worn by faculty members and graduates as they march into the commencement hall, and even the different colors you see on them, have historical origins and significance.

During the Middle Ages, scholars at the earliest English and European universities wore wool or fur garments to stay warm in the drafty, stone buildings that were poorly heated. Most of the scholars were also monks or priests, and as such had the hair shaved from the crowns of their heads in the distinctive clerical tonsure. Most wore cloaks that included a hood that could be pulled up to keep their heads warm. The academic gowns and hoods were adapted from both secular and clerical garments of the time, and the hood was chosen by the early scholars to indicate by color, trim or binding the degree held by the wearer.

The style of academic dress most frequently worn in the United States dates back to colonial times, although it was not formally adopted until near the end of the 19th Century, when it was chosen as appropriate attire by the Intercollegiate Commission during a meeting in New York. It has remained the general standard in America since, although some variations occur at individual institutions. In the United States, black is the traditional color for academic gowns, although some institutions allow holders of doctoral degrees to wear robes in the university's colors.

The sleeves of the robes vary, depending on the degree held by the wearer. The bachelor's robe has long, pointed sleeves. The master's robe has sleeves that are oblong and closed at the ends, with slits through which the arms may be extended. The doctoral robe has a full sleeve with a velvet facing on the front and at the neck, and three velvet bars on each sleeve. The velvet may be black or of a color that symbolizes the degree held by the wearer.

The head covering most commonly used in the United States is the square, tasseled "mortarboard." Some American universities, however, use berets, and in other countries a variety of styles of head coverings is worn with academic regalia. The tassel is usually black and is worn over the left front quarter of the mortarboard. Holders of doctoral degrees may wear gold tassels.

The hood is the most distinctive feature of American academic dress, which through color and design may indicate the wearer's degree and the institution at which that degree was earned. Hoods are lined with the colors of the institution that awards the degree, and may be faced with the color designating the degree awarded. Hoods vary in length. The bachelor's hood is about three feet long, the master's slightly longer and the doctoral version is longer still and is decorated with broad color panels.

The colors of Oklahoma State University are embodied in the lining of the hood (orange and black chevron). The colors of the hoods of faculty and guests are those of the institution conferring the degree. In addition to the academic regalia described above, some students wear cords, sashes, ribbons, and other symbols of heritage or achievement in academics, service, and leadership.

Candidates for advanced or professional degrees wear hoods symbolic of the degree. The color of the trim of the hood and the sleeve chevrons and panels of the academic gown are distinctive of the degree as follows:
