

## Spring 2021 Final Exam Schedule

### How to read this chart:

- Each block contains a regular semester class day/time (Ex: MWF 9:30).
- Locate the time of your regular class within the blocks, then refer to the left edge and top edge of the chart (in orange) to determine when your final exam will be held. For example, if your class meets regularly on MWF at 8:30am, your final will be Monday, May 3 from 8:00-9:50am.
- **Exceptions:** Some courses have common final exams, which means all sections of a given course take the final at the same time, regardless of when your section is regularly held. For example, all CHEM 1215 sections take the final on Friday, May 7 from 12:00-1:50pm.

**Spring 2021 final exam guidance for blended/hybrid courses:** Instructors of blended/hybrid courses where only a portion of the class fits in the assigned classroom may consider online final exams or alternate final assessments. It is also possible to request a larger classroom to accommodate in-person finals using the [Pre-Finals/Finals Week Classroom Request](#) form. The Registrar's office processes finals week classroom requests after final exams have been added to the class schedule (mid-semester) on a first-come, first-served basis. Changes to final exam days/times are discouraged to avoid student final exam conflicts.
