

Spring 2027 Final Exam Schedule

How to Read This Chart:

- Each block represents a regularly scheduled class meeting time (e.g., MWF 9:30 a.m.).
- Locate your class meeting time within the chart. Then use the orange column on the left and the orange row across the top to determine your final exam date and time.
For example, if your class meets MWF at 8:30 a.m., your final exam will be held on Monday, May 3, from 8:00–9:50 a.m.
- Exceptions:** Some courses administer common final exams, meaning all sections of the course take the final at the same date and time, regardless of their regular class meeting schedule. *For example, all MATH 2144 sections will take the final exam on Monday, May 3, from 12:00–1:50 p.m.*

Final Exam Guidance for Blended/Hybrid Courses: Instructors of blended/hybrid courses that cannot accommodate all students in the assigned classroom may choose to administer the final exam online, use an alternative final assessment, or request a larger classroom through the [Pre-Finals/Finals Week Classroom Request Form](#). Classroom requests are processed by the Registrar's Office after final exams are added to the class schedule (mid-semester) on a first-come, first-served basis. To help prevent student exam conflicts, changes to assigned final exam dates and times are discouraged.
